This is how Raid® Double Control Small Roach Baits work:

1. Raid® Double Control Small Roach Baits fit snugly in corners and along paths commonly traveled by roaches.
2. Roaches are attracted to the bait to feed. For best results, try to keep baits apart before bait is eaten and return to nesting area to die.
3. Bait carried back to the nest continues to kill other roaches.
4. Baits work best on horizontal surfaces touching corners and along paths commonly traveled by roaches. Roaches eat the bait and return to nesting area to die.

DIRECTIONS FOR HOUSEHOLD USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For thorough roach control, use all 12 baits at one time. To keep roaches from returning, replace all baits every three months.
