Fungicide X

• Prevents and controls brown patch, leaf spot, red leaf spot, pink snow mold and gray snow mold

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals: CAUTION. Harmful if swallowed through skin or inhaled. Avoid contact with skin or clothing. Avoid breathing dust. Wear long-sleeved shirts, long pants, and chemical-resistant gloves (such as latex exam gloves). Avoid drinking, eating, or smoking while using.

FIRST AID

If in eyes: Hold lower eyelid open and flush well with plenty of water for 15-20 minutes. Remove contact lenses, if any, after first 5 minutes. Keep flushing. Call a physician or poison control center for treatment advice.

If swallowed: Call a physician or poison control center immediately for treatment advice. Have patient sip a glass of water if alert and willing. Do not give anything by mouth to an unconscious person.

Inhalation: Remove victim to fresh air. Give artificial respiration if necessary. Call a physician or poison control center for treatment advice.

Ingestion: Have person sip a glass of water if alert and willing. Do not give anything by mouth to an unconscious person. Call a physician or poison control center for treatment advice.

USER SAFETY RECOMMENDATIONS

The following safety information should be followed when using this product:

• Avoid inhaling dust or mist while using. Exposure to dust or mist may cause respiratory irritation.

• Wash hands before eating, drinking, and smoking.

• Avoid contact with skin or clothing.

ENVIRONMENTAL CONSIDERATIONS

This chemical can contaminate surface water through run-off and ground water applications. Under some conditions, this chemical can be highly toxic to aquatic organisms. This chemical can also cause severe damage to plants and trees. Do not apply directly to turf. Do not use within 100 feet of any body of water. Do not allow this chemical to directly contaminate surface water or other waterways. If this chemical is spilled on any water, it can be removed by the use of approved organic or inorganic sorbents. Some sorbents, such as fly ash, do not interact with the chemical and can cause further damage.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use of this product at residential sites is prohibited.

Entry Restrictions
Do not enter or allow others to enter the treated area until dusts have settled.

This fungicide product prevents and controls the following turfgrass diseases:
- Brown patch
- Leaf spot (Helminthosporium spp.)
- Red leaf spot
- Pink snow mold (Fusarium patch, Microdochium nivale)
- Gray snow mold (Taphula spp.)

For use on fairways, putting greens, and other turf areas consisting of Kentucky bluegrass, bentgrass, perennial ryegrass, fine fescue and Bermuda grass, or where these mixtures predominate. Product may also be applied to St. Augustinegrass turf areas.

WHEN TO USE

BROWN PATCH AND RED LEAF SPOT
TO PREVENT, apply at the NORMAL, or HEAVY RATE (1.0 to 1.5 oz ai/1000 sq ft) to moist or dry foliage when disease activity is anticipated and repeated at 2-week intervals. If heavy disease pressures are encountered, apply at the HEAVY RATE to moist or dry foliage. When disease is under control, revert back to bi-weekly NORMAL RATE application intervals.

TO CONTROL, apply to moist or dry foliage at the HEAVY RATE (1.5 oz ai/1000 sq ft) as soon as disease activity is noticed. Repeat at bi-weekly until disease is under control, then revert back to NORMAL or HEAVY RATE applications at bi-weekly.

PINK AND GRAY SNOW MOLD
TO PREVENT, apply at the LIGHT or NORMAL RATE (0.5 to 1.0 oz ai/1000 sq ft) to moist or dry foliage when disease is anticipated. Repeat at 2 to 3 week intervals.

TO CONTROL, apply to dry foliage at the NORMAL or HEAVY RATE (1.5 oz ai/1000 sq ft) when disease activity is first noticed. Repeat as needed at 2 to 3 week intervals. When disease activity is under control, revert to the LIGHT or NORMAL RATE (0.5 to 1.0 oz ai/1000 sq ft) as needed at 2 to 3 week intervals.

FOR SUPPRESSION, apply to dry foliage at the NORMAL, or HEAVY RATE (1.0 to 1.5 oz ai/1000 sq ft) prior to the first snow. Rainfall in mid-winter when turf is free of snow and again immediately after the first snow melts in the spring.

Not a season long (all winter) control for snow molds unless applied on a 2 to 3 week application program.

LEAF SPOT
TO PREVENT, apply to moist or dry foliage at the LIGHT RATE (0.5 oz ai/1000 sq ft) when disease activity is anticipated. Repeat if needed after 3 to 4 weeks.

TO CONTROL, apply to moist foliage at the NORMAL to HEAVY RATE (0.5 to 1.5 oz ai/1000 sq ft) when disease activity is first noticed. Repeat as needed at intervals not closer than 2 weeks.

HOW TO USE

For LIGHT, NORMAL, or HEAVY RATE applications (0.5, 1.0, or 1.5 oz ai/1000 sq ft), apply to moist or dry foliage for summer diseases. Applications need not be watered in. Apply to dry foliage for snow mold prevention/control.

Delay mowing for 24 hours after application to prevent particle pickup by mowers.

Expected time disease activity:
- Spring: leaf spot, pink snow mold (Fusarium patch), gray snow mold
- Summer: leaf spot and brown spot
- Fall: leaf spot and pink snow mold (Fusarium patch)
- Winter: pink snow mold (Fusarium patch), and gray snow mold

Allow one week after application of this and other control products. This guideline may be relaxed where a severe disease attack requires immediate treatment.

NOTE TO USER
Do not apply this product in a way that will contact workers or other persons, either directly or indirectly or through drift. Only protected handlers are allowed in the area during application.

Except for use on golf courses, if applying this product adjacent to a water body such as a lake, estuary, reservoir, river, permanent wetland, marsh or natural pond, or commercial fish pond there must be at least a 25 foot vegetative buffer strip between the water body and the point of application.

For golf courses only, do not apply to turf cut higher than 1” on golf holes where water bodies are present.

Do not apply this product when the wind direction is toward aquatic areas.

May apply up to but no more than 24 pounds active ingredient (ai) annually. Do not apply more than 6 times per year.

Do not apply this product using a "belly grinder" or other handheld application equipment.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
