FORMULA 3014

IN WATER-SOLUBLE BAGS
Controls bacteria, fungi, and algae in industrial cooling water systems and auxiliary water and waste water systems; controls slime-forming bacteria and fungi in industrial air-washer systems.

FOR INDUSTRIAL USE ONLY

ACTIVE INGREDIENTS:
- 2,3-Dibromobutane-1,4-diol monoamide (40.0%)
- Inhibit INGREDIENTS: 
- 20.0%
- TOTAL: 100.0%

FIRST AID

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15 minutes. Do not rub eye.
- Remove contact lenses, if present, after the first 5 minutes, and continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes.
- Call a poison control center or doctor for treatment advice.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF SWALLOWED:
- Do not induce vomiting. Call a poison control center or doctor for treatment advice.
- Have the product container or label with you when calling a Poison Control Center or doctor.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call an emergency responder or an ambulance.
- Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

IN CASE OF AN EMERGENCY endangering life or property involving this product, call CHEMTREC at 1-800-424-9300 or Rocky Mountain Poison Control Center at 1-800-662-6147.

NOTE TO PHYSICIAN

Chemical eye burns may require extended irrigation. Obtain prompt consultation, preferably from an ophthalmologist. If surgery is performed, suggest enucleation and/or exenteration. Dexamethasone sodium phosphate (0.1% solution) or other corticosteroids may be used in conjunctival sac. If in doubt, consult with local eye specialist.

PRODUCT NO.: 0321407
NET CONTENTS: 28 TABLETS
NET WEIGHT: 11.223 LBS. (5 KG)

KEEP OUT OF REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CORROSIVE
- Causes irreversible eye damage. May be fatal if swallowed. Causes skin irritation. Harmful if absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust. When handling or wearing protective eyewear (goggles or face shield), wear long-sleeved shirt and long pants, socks, shoes, and chemically resistant gloves.
- Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.
- Remove and wash contaminated clothing separately from other laundry.

Personal Protective Equipment

Applicators and other handlers must wear:
- Coveralls, over-long-sleeved shirt and long pants
- Socks and chemical resistance footwear
- Goggles or face shields
- Chemical-resistant gloves (such as barrier, laminated, butyl nitrate rubber, pvc, or viton)

User Safety Recommendations

Follow manufacturers’ instructions for cleaning & maintaining PPE if no such instructions exist for washables, use detergents and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users must wash hands before eating, drinking, chewing gum, or using the toilet. Users must remove clothing if they get food or drink contains baking soda, then thoroughly wash and put on clean clothing. Users must remove PPE immediately after handling this product.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Apply this product only as specified on this label. Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: To maintain product quality, store at temperatures below 30°C. Keep container tightly closed when not in use. Disposal: Do not remove tablets from container except for immediate use. When ready to use, do not remove tablets from water soluble packaging.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

INDUSTRIAL COOLING WATER SYSTEMS

Note: Tablets wrapped in water soluble packaging are ready for use and should not be removed from protective film. To prevent corrosion, place a tablet of FORMULA 3014 in Water Soluble Bags in the holder provided (or equivalent) and suspended it in the water so the tablet is completely submerged. Additional holders may be obtained from Garrett Callahan. FORMULA 3014 in Water Soluble Bags is best used in the basin of the cooling water systems. Avoid areas of high velocity water flow. Avoid placing FORMULA 2014 in Water Soluble Bags in direct sunlight.

To control bacteria, fungi, and algae in sludge to moderately contaminated systems, add one tablet per 500-1,000 gallons of water in the system. Heavily contaminated systems may require two tablets per 500-1,000 gallons of water.

Each tablet or group of tablets of FORMULA 2014 will provide approximately 3 weeks of control. Add additional tablet(s) of FORMULA 2014 per 500-1,000 gallons of water in the system every 3 weeks, or as needed to maintain control.

AUXILIARY WATER AND WASTE WATER SYSTEMS

Note: Tablets wrapped in water soluble packaging are ready for use and should not be removed from protective film. Place tablets in holder provided or equivalent. The holders prevent direct contact with metal surfaces and keep tablets near the surface allowing easy observation. Additional holders may be obtained from Garrett Callahan Company.

FORMULA 3014 controls odor-forming and slime-forming bacteria, fungi, and algae in auxiliary water systems such as fire protection systems; pump or screen bays; waste holding and waste material disposal; holding or recovery systems such as storage tanks, storage piles, associated piping, settling ponds or lagoons; transport spillways or canals; and disposal wells. FORMULA 2014 should be added to the system at a rate of one tablet per 500-1,000 gallons of water in the system. Each tablet will provide approximately 3 weeks of control per 500-1,000 gallons of water.

INDUSTRIAL AIR-WASHER SYSTEMS

Note: Only in industrial air-washer systems that maintain effective mist eliminators.

Note: Tablets wrapped in water soluble packaging are ready for use and should not be removed from protective film. Place tablets in holder provided or equivalent. These holders prevent direct contact with metal surfaces and keep tablets near the surface allowing easy observation. Additional holders may be obtained from Garrett Callahan Company.

For control of slime-forming bacteria and fungi, add one to two tablets per 500 gallons of water in the system, depending on the severity of the contamination. Each tablet or group of tablets may have approximately 3 weeks of control. Mist eliminators must be cleaned before treatment begins.

Notice: Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes indicated on the label when used in strict accordance with the directions. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.
