DIRECTIONS FOR USE (Continued from other panel)

APPLICATION DIRECTIONS:

RATS: Apply 2 to 6 pieces (at intervals of 15 to 30 feet) per placement in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until there are no longer signs of fresh rat activity.

HOUSE MICE: Open pac and apply 1/2 to 1 oz. of bait per placement in infested areas. Space placements at 8 to 10 foot intervals. Larger placements, up to one uncovered pac, may be needed at points of extremely high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Wearing gloves, collect and dispose of all dead, exposed animals and leftover bait. To prevent regrowth, limit sources of food, water, and harborage as much as possible. If modification does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Causes moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes or on clothing. All handlers (including applicators) must wash shoes plus socks, and gloves. Any person who retrieves carcasses of dead rats following application of this product must wear gloves.

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions are available, wash PPE in detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This pesticide is toxic to fish. Do not apply directly to water, to or areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment, wash water or rinse.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Washes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill the container. (Plastic) This rinse (or equivalent), then fill for recycling or reconditioning; or puncture and dispose of in a sanitary landfill or by incineration. Metallic, burning is not allowed. (Paper) Dispose of in empty container by placing in trash. All approved empty disposable facility by incineration.
