Causes substantial but temporary eye injury. Do not get in eyes or on skin or clothing. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS
For external use on dogs only. Do not use on animals other than dogs. Do not use on puppies under seven weeks of age. Do not use this product in a dog’s eyes or mouth. As with any product, consult your veterinarian before using this product on your dog if the animal is on medication. Do not use this product if you are allergic to any ingredient. This product is not tested to fish. Do not add directly to water. Do not contaminate water when disposing of product or packaging.

DO NOT USE ON CATS
Due to their unique physiology and inability to metabolize certain compounds, this product must not be used on cats. If applied to a cat, or ingested by a cat which actively poms or recently treated dog, this product may have serious harmful effects. If this occurs, contact your veterinarian immediately.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
- If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice. If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.
- If you skin or clothing: Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.
- Treat the patient symptomatically.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not contaminate feed or food.

HOW TO APPLY
1. Apply only on dogs. Do NOT USE ON CATS or on other animals.
2. Remove applicator tube from the package.
4. Turn the cap around and place either end of cap back on tube.
5. Twist cap to break seal, then remove cap from tube.
6. The dog should be standing for easy application. Part the hair on the dog's back, between the shoulder blades, until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.
7. Discard empty tube as described in Storage and Disposal.

GENERAL INFORMATION
Kills fleas which may cause flea allergy dermatitis (FAD). K9 Advantix® kills existing fleas on dogs within 12 hours. Reducing fleas is achieved within 24 hours with protection against further flea infestation lasting four (4) weeks. Preventing pupae to the environment may continue for up to 8 weeks (6 weeks or longer, depending on the climatic conditions). Larval flea stages in the dog’s environment are killed following contact with a K9 Advantix® treated dog. K9 Advantix® is waterproof and remains effective following a shampoo treatment, swimming or other exposure to rain or sunlight. Monthly treatments are required for optimal control and prevention of fleas and ticks.

STORAGE AND DISPOSAL
Do not contaminate water, feed or feed by storage or disposal. Stored: Store in a cool, dry place. Protect from freezing. Disposal: Nonrefillable container. If empty, Do not reuse or refill this container. Place In trash or offer for recycling, if available. If partly filled: Call your local solid waste agency or 1-800-424-9302 to dispose of instructions. Never place unused product down any indoor or outdoor drain.
