KEEP OUT OF REACH OF CHILDREN
WARNING
See below for First Aid and Precautionary Statements.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
Causes substantial but temporary eye injury. Do not get in eyes or on skin or clothing. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS
For external use on dogs only. Do not use on animals other than dogs. Do not use on puppies under seven weeks of age.
Do not get this product in dog's eyes or mouth. As with any product, consult your veterinarian before using this product on pregnant, nursing, or any animal under veterinary care. If your animal is on medication, consult your veterinarian before using this product or any other product.

DO NOT USE ON CATS
Due to their unique physiology and inability to metabolize certain compounds, this product must not be used on cats. If applied to a cat, or ingested by a cat which actively groomed a recently treated dog, this product may have serious harmful effects. If this occurs, consult your veterinarian immediately.

For consumer questions call 1-800-255-6826.
For medical emergencies call 1-800-222-9929.

Environmental Hazards
This product is extremely toxic to fish. Do not add directly to water. Do not contaminate water when disposing of product or packaging.

FIRST AID
Remove the product container or label with you when calling a poison control center or doctor, or going for treatment.
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses. If present, after the first 5 minutes, then continue rinsing eye.
If swallowed: Call poison control center or doctor for treatment advice.
If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor.
Do not give anything by mouth to an unconscious person.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If to Physician: Treat the patient symptomatically.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by using or discarding in a sewer or drain. Keep container in a cool, dry place. Do not allow to freeze. Discard: Nonrefillable container. If empty: Do not reuse or refill this container. Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency or 1-800-222-9929 for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not contaminate feed or food. HOW TO APPLY
1. Use only on dogs. DO NOT USE ON CATS or on other animals.
2. Remove applicator tube from package.
4. Turn the cap around and place other end of cap back on tube.
5. Twist cap to break seal, then remove cap from tube.
6. The dog should be standing for easy application. The entire contents of the K9 Advantix® tube should be applied evenly in three or four spots on the top of the back from the shoulder to the base of the tail. At each spot, part the hair until the skin is visible. Place the tip of the tube on the skin and gently squeeze to expel a portion of the solution on the skin. Do not apply an excessive amount of solution at any one spot that could cause some of the solution to run off the side of the dog.
7. Discard empty tube as described in Storage and Disposal.

GENERAL INFORMATION
Kills fleas which may cause flea allergy dermatitis (FAD). K9 Advantix® kills fleas on dogs within 12 hours. Reinfesting fleas are killed within 2 hours with protection against further infestation lasting four (6) weeks. Pre-existing poodles in the environment may continue to emerge for six (8) weeks or longer depending upon the climatic conditions. Laval flea stages in the dog's surroundings are killed following contact with a K9 Advantix® treated dog. K9 Advantix is waterproof and remains effective following a shampoo treatment, swimming or after exposure to rain or sunlight. Monthly treatments are required for optimal control and prevention of fleas and ticks.
