USE WITH ADEQUATE VENTILATION. WASH THOROUGHLY AFTER HANDLING.

DIRECTION FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use with adequate ventilation. Wash hands thoroughly after handling. Keep pH between 7.2 and 7.4 and never allow it to fall below 7.0.

The treatment necessary for your pool or spa will change considerably depending upon those factors that burden the disinfection system. Some of the factors that will require the required treatment are water temperature, bacterial load, exposure to wind-driven deposits, thunder or rain storms and length of filtration cycle.

SPA: Before initially using Spa-Kem® Brominator Tablets in your spa or hot tub you will need to add 1/2 oz of sodium bromide for each 100 gallons of water. The same treatment should be followed each time you drain and refill your spa or hot tub with fresh water. Introduce 3 tablets per 300 gallons of spa water with the use of a floating tablet holder or automatic dispenser installed on the spa equipment. Adjust tablet holder or dispenser to deliver an active bromine residue of at least 5-6 ppm for at least 2 hours. Use directly proportionate amount of spa water. Goodness is due to the accumulation of by-products, oils and contaminates that lower the pH. When water level is insufficient, add water to level and adjust pH. Use the tablet recommended.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Keep this product dry, in tightly closed, original container when not in use. Store in a dark, cool (below 80°F) dry, well-ventilated area. Keep product away from energy sources, combustible materials, oxidizers, strong bases, and moisture.

PESTICIDE DISPOSAL: Avoid contact with eyes. Protective clothing and safety glasses are required. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, the Hazardous Waste Management Office for guidance.

CONTAINER DISPOSAL: Do not reuse container. (If reconditioned for use as a pesticide.) If container is damaged or defective, do not use. (If reconditioned for use as a pesticide.) After use, clean and dry container.

SPILLS: When handling or dealing with spills, use impact-resistant goggles with side shields, or face shield, body-covering clothes, including impermeable rubber or plastic gloves and boots. Use a dust respirator if dust becomes airborne. Clean up spills by disposing of as described for pesticide disposal. If containers are contaminated or decomposing, do not reseal container. Also use to open or in a well-ventilated area. Also use to open or in a well-ventilated area. Also use to open or in a well-ventilated area.

IN CASE OF FIRE: Do not use ammonium phosphate extinguisher near water and Brominator Tablets. Explosive materials may occur. Do NOT smoke, Drink, OR EAT WHEN HANDLING THIS PRODUCT.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER: CORROSIVE: Causes irreversible eye damage and skin burns. Eye contact may cause loss of vision. Irritating to skin and mucous membranes.

Do not breathe dust or spray mist. Do not get in eyes, on skin, or on clothing. Avoid prolonged or frequent contact with skin or clothing.工作区域应通风良好。工作区域应通风良好。工作区域应通风良好。工作区域应通风良好。工作区域应通风良好。

CHEMICAL HAZARDS: Strong oxidizer mix with water only. First aid with combustible materials, bases, moisture or with oxidizers may generate heat, hazardous gases and, possibly, fire or explosion. Do not add to or near incompatible materials that are not dry and clean of any chemical residues.

SPECIAL PRECAUTIONS: See box for first aid statement and other precautions.

FIRST AID:

**If Inhaled:**
Move person to fresh air. If person is not breathing, call 911 or an ambulance. Then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor immediately for treatment advice.

**If On Skin or Clothing:**
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

**If In Eyes:**
Hold eyes open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.

**If Swallowed:**
Promptly drink large quantity of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor immediately for treatment advice.

Prevention of POSEERING DANGER: Contact between this product and unsaturated and vinyl lines, painted surfaces or other property in or around the pool will result in permanent bleaching of the color.
