**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

### FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

### NOTE TO PHYSICIAN AND VETERINARIANS:

Do not administer or instill milk, cream or other substances containing vegetable or animal fats which will enhance absorption of lipophilic substances. You may also contact SafetyCall® International (866) 897-8050 for emergency medical treatment information.

**Personal Protective Equipment:**

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category section chart.

**Applicators and other handlers must wear:** Long-sleeved shirt and long pants, chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, or viton, and shoes plus socks. For exposure in enclosed areas, a respirator with a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G). Follow the manufacturer's instructions for cleaning/ maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**Engineering Controls Statements:**

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(c)(4-6)] the handler PPE requirements may be reduced or modified as specified in the WPS. When using in an enclosed area, do not remain in the treated area. Ventilate the area after treatment is completed. Food should be removed or covered during treatments.
All food processing surfaces should be covered during treatment or thoroughly cleaned with an effective cleaning compound followed by a potable water rinse before use. When using this product in these areas, apply only when facility is not in operation. Do not apply as a spay spray while food processing is underway. Except in Federally inspected meat and poultry plants, food processing operations may continue when this product is applied as a surface spray with care and in accordance with the directions and precautions given below.

Do not apply as a sprayer to outdoor areas, animal feeding ree. Do not contaminate water sources. This product is not designed for use on livestock in pools. Do not apply this product or allow it to drift to blooming crops or weeds while those are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS
Do not use or store near heat or open flames. Do not use in unvented form.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Keep people and pets off treated areas until the spray has dried.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food or feed. Store in original containers and out of the reach of children, preferably in a locked storage area. Handle an open container in a manner as to prevent spillage.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal:
For Containers equal to or less than 5 Gallons: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Drain for 10 seconds after the flow begins to drip. Fill the container 3/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the

STORAGE AND DISPOSAL (continued)
flow begins to drip. Repeat this procedure two more times. Offer for recycling if available. If recycling is not available, then dispose of container in a sanitary landfill or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

For Containers greater than 5 Gallons: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 3/4 full with water. Replace and tighten closures. Tap container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Offer for recycling if available. If recycling is not available, then dispose of container in a sanitary landfill or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
**STORAGE AND DISPOSAL (continued)**

For Bulk containers: (Refillable Container)

Refill this container with pesticides only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the re-filler. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or re-circulate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinseout collection system. Repeat this procedure two more times.

**Spills:** If the container is leaking or material is spilled, absorb liquid with an absorbent such as kitty litter and carefully sweep up and wash exposed area with detergent and water. In spill or leak incidents, keep unauthorized people away.

---

**AGRICULTURAL USE REQUIREMENTS**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, wear:

- Coveralls
- Chemical-resistant gloves such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber or vinyl.
- Shoes plus socks

---

**NON-AGRICULTURAL USE REQUIREMENTS**

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not allow children or pets to contact treated surfaces until spray has dried.

**SHAKE WELL BEFORE USING**

**THREE STEPS TO MIX AND APPLY:**
1. For lawns, measure the area to be sprayed. Calculate square feet by multiplying length by width. For all other applications, apply as a thorough cover spray.
2. Use a clean sprayer. Carefully measure and mix the amount of concentrate and water as directed.
3. Spray as directed. Thorough coverage is important. Flush sprayer with clean water after each use. Make applications when insects first appear. Repeat applications as directed.
Outside Surfaces of Building
Use this product on Ants, Clover mites, Crickets, Earwigs, Millipedes, Sawbugs (Pillbugs) and Spiders to help prevent infestation of buildings, treat the building foundation to a height of 2 to 3 feet, where pests are active and may find entrance. Also, apply as a residual spray but not to the point of runoff on outside surfaces of building, including porches, screens, window frames, eaves, patios, garages, refuse dumps and other areas where these pests congregate or have been seen.

Other Outdoor Areas
Use this product on Ants, Crickets, Earwigs, Fleas, Ticks (including ticks that may carry Lyme Disease) for treatment of localized infestations of these insects in areas where there are weeds or bushy non-crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations occur.

To reduce annoyance from: Cluster flies, Flying moths, Gnats, House flies, Mosquitoes. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, around shrubbery, and other places where these insects alight or congregate.

---

**ANIMALS AND ANIMAL PREMISE USE**

CATTLE BARNES, SWINE HOUSES, MILK ROOMS, KENNELS, POULTRY HOUSES, HORSE BARNES, DAIRIES, MILKING PARLORS, FEED LOTS, STABLES, PADDOCKS.

For initial clean up of severe insect infestation, dilute at a rate of (1) part concentrate in 19 parts water (6.7 ounces per gallon) (0.5%). For normal infestations dilute (1) part concentrate in 100 parts water (1.33 ounces per gallon of water) (1 1/3 tablespoonful per gallon) (0.1%).

| **PESTS ON DOG PREMISES (Kennels, Dog Houses, Runs and Yards)** | | |
| Fleas, Flies, Ticks, Lice and Mange Mites (adult and larvae) | Dilute 8 ozs. in 6 25 gals. water | Thoroughly spray infested areas, pet beds and resting quarters. Fresh bedding should be placed in animals quarters following treatment. Most efficient pest control is accomplished when heavy pressure and good contact is achieved. Timing and frequency of applications should be based on pest populations reaching nuisance levels, but accompanying mite removal and sanitation practices should precede sprays. Do not spray food, food or water. Repeat as needed but not more than once every two weeks. |

(continued)
INDOOR USE AREAS
HOMES, AND THE NONFOOD/FEED AREAS OF
BAKERIES, BEVERAGE PLANTS, CANNERIES,
FLOUR MILLS, FOOD PROCESSING PLANTS,
GRAIN ELEVATORS, GRAINARIES, HOSPITALS
(non-occupied areas), HOTELS, MOTELS, INDUS-
TRIAL INSTALLATIONS, KENNELS, MEAT PACKING
PLANTS, OFFICE BUILDINGS, RAILROAD CARS,
RESTAURANTS, SCHOOLS, SHIPHOLES, SUPER-
MARKETS, TRUCK TRAILERS, WAREHOUSES.

Do not use in food/feed handling establishments, restaur-
ants or other areas where food/feed is commercially pre-
pared or processed. Do not use in serving areas while food
is exposed or facility is in operation. Serving areas are areas
where prepared food is served such as dining rooms but
excluding areas where food may be prepared or held. In the
home, all food processing surfaces and utensils should be
covered during treatment or thoroughly washed before use.
Exposed food/feed should be covered or removed.

Non-food/feed areas of food/feed manufacturing, pro-
cessing, and handling establishments are areas such as
garbage rooms, lavatories, floor drains (to sewers), entries
and vestibules, offices, locker rooms, machine rooms, boiler
rooms, garages, map closets and storage (after canning
or bottling).

Do not apply to classrooms when in use. Do not
apply product in occupied patient rooms or any
rooms while occupied by the elderly or infirm.

Not for use in Federally Inspected Meat and
Poultry Plants.

For initial clean up of severe insect infestation, dilute at a rate
of (1) part concentrate in 19 parts water (6.7 ounces per gal-
on) (0.5%). For normal infestations dilute (1) part concen-
trate in 100 parts water (1.33 ounces per gallon of water)
(1 1/3 tablespoonful per gallon) (0.1%).

As a surface spray to control cockroaches,
waterbugs, palmetto bugs, ants, silverfish, bee-
tles, mites, weevils: Use a good sprayer and adjust to
deliver a coarse, wet spray. Direct the spray into hiding
places, cracks and crevices, under pallets, around contain-
ers of stored foods, around the base of machinery, and
behind shelves and drawers. Spray bookcases for silverfish.
Spray ant trails, nests and points of entry. If surface applica-
tion only is to be used, spray floors, walls and other sur-
faces, applying at a rate of (1) gallon to 750 square feet
of surface.

To control fleas and ticks (adult and larvae), thor-
oughly spray infested areas, pets beds, nesting quarters,
and cracks and crevices, along and behind baseboards,
molding, window and door frames, and localized areas of
floor and floor covering. Fresh bedding should be placed in
animal quarters following treatment. Apply with mechanical
or compressed air equipment (non-thermal), adjusted to
deliver a fine mist. Close doors and windows and shut off
ventilating systems.

For rapid control of house flies, fruit flies, gnats,
mosquitoes, skipper flies, wasps, hornets, bees,
black flies, enganuis grain moths and tobacco
moths, SPACE SPRAY - direct spray at an upward angle,
distributing it uniformly through the entire area at a rate of
(1) ounce per 1000 cubic feet of space. Keep area closed
for at least 10 minutes. Vacate area after treatment and
ventilate and sweep up dead insects before occupying.

For rapid kill of exposed or accessible stages of
other insects named on this insert: Apply using con-
ventional mechanical or compressed air equipment (non-
thermal), following directions for space spraying in the
paragraph above. Apply the above dilutions at a rate of (1)
ounce per 1000 cubic feet of space.

WARRANTY STATEMENT
Control Solutions, Inc. warrants that this product conforms to the
chemical description on the label thereof and is reasonably fit for
purposes stated on such label only when used in accordance
with directions under normal use conditions. It is impossible to
eliminate all risks inherently associated with use of this product.
Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Control Solutions, Inc. To the extent allowed by applicable law, Control Solutions, Inc. shall in no event be liable for consequential, special, or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the Buyer. In addition to the foregoing, no purchaser of this product (other than an end user) shall be entitled to any reimbursement for any loss suffered as a result of any suspension or cancellation of the registration for this product by the U.S. Environmental Protection Agency. Except, as expressly provided herein and to the extent consistent with applicable law, Control Solutions, Inc. makes no warranties, guarantees, or representations of any kind, either expressed or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including, but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. The exclusive remedy of any buyer or user of this product for any and all losses, injuries, or damage resulting from or in any way arising from the use, handling, or application of this product; whether in contract, warranty, tort, negligence, strict liability, or otherwise, shall be damages not exceeding the purchase price paid for this product or, at Control Solutions, Inc. election, the replacement of this product.
