Kicker Ultra Dry

Principal Functioning Agents:

Ammonium sulfate, carbonyl diamine, polyoxyethylene-polyoxypropylene copolymer, 2-hydroxy-1,2,3-propanetricarboxylic acid, dimethylpolysiloxane...98.6%

CONSTITUENTS INEFFECTIVE AS A SPRAY ADJUVANT 1.4%

Total 100.0%

All ingredients are exempt from tolerance requirements under 40 CFR 180

WA Reg. No. 7001-02004

CAUTION
KEEP OUT OF REACH OF CHILDREN

NET WEIGHT: 40 POUNDS (18.14 Kg)
Kicker Ultra Dry

Water Conditioning Agent/Drift Control Agent

CAUTION: Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment: Wear chemical resistant gloves, long-sleeved shirt and long pants, and shoe plus socks.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

HAVE THE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CALLING A POISON CONTROL CENTER OR DOCTOR, OR GOING FOR TREATMENT.

GENERAL INFORMATION

Kicker Ultra Dry is a highly effective ammonium sulfate/nonionic surfactant blend designed to enhance the efficacy of glyphosate herbicides.

Kicker Ultra Dry can be used with herbicides that recommend the use of ammonium sulfate or nitrogen solution, or nitrogen solution/nionic surfactant combinations.

Kicker Ultra Dry contains ammonium sulfate, nonionic surfactant and pH stable anion.

The ammonium sulfate in Kicker Ultra Dry is a high quality, spray grade material that has been milled to enhance solubility.

When using Kicker Ultra Dry, or any dry water soluble powder, always monitor spray pattern and regularly check line strainers to ensure that proper spray pattern performance is achieved.

Always read and follow all herbicide label instructions before using Kicker Ultra Dry. If herbicide label does not provide a specific recommendation for use of ammonium sulfate and/or nonionic surfactant, or where field experience is limited, consult local agricultural authorities or conduct a limited spray trial using the highest recommended use rate for Kicker Ultra Dry as indicated on this label.

DIRECTIONS FOR USE

THIS PRODUCT CANNOT BE USED FOR AQUATIC APPLICATIONS.

MIXING INSTRUCTIONS

If the herbicide label does not give specific mixing instructions, use the following guidelines:

1. Fill the tank 3/4 full of water and begin agitation.
2. At the point of maximum agitation slowly pour the Kicker Ultra Dry.
3. Add the herbicide as directed by the label. Continue to agitate as you finish filling the spray tank with water.

For optimum performance, use the mixture within 8 to 10 hours. If you refill a partially full tank take care to avoid exceeding the recommended use rate. Screen size, and nozzle and line strainers should not be finer than 50 mesh.

GLYPHOSATE AND OTHER HERBICIDE TANK MIXED: Use a rate of 10 to 20 pounds per 100 gallons of spray solution.

The 10 pound rate is equivalent to 1% by weight of ammonium sulfate, and 2 pounds (0.25% w/v) of nonionic surfactant.

The 20 pound rate is equivalent to 2% by weight of ammonium sulfate, and 4 pounds (0.50% w/v) of nonionic surfactant.

STORAGE AND DISPOSAL

Do not contaminate water, food, feed, by storage or disposal of this product.

Storage: Store in original container in a cool, dry place. Do not store near oxidizing materials.

Disposal: Do not reuse empty container. Completely empty the contents of the container into application equipment. The empty container may be disposed of in a sanitary landfill.

FOR CHEMICAL SPILL, LEAK, FIRE, OR EXPOSURE CONTACT CHEMTRED (800) 434-0300.

DECLARATION OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. This warranty is expressly in lieu of all other warranties and representations expressed, implied, or statutory, including warranties of merchantability and fitness for a particular use. Timing, rate and method of application, weather and crop conditions, misuse with chemicals not specifically recommended or this label or all accompanying written recommendations are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given hereon. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product at Buyer’s option, as full discharge of seller’s liability. No one is authorized to make any other warranties, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
