YBA407 RED
Part A (Base) of a Two Part Antifouling Paint System
VC17M EXTRA with BIORUX®

Product Description

VC17M EXTRA with BioRUX® is a Biorux coating. The high gloss, high performance, low-solvent coating and is a fast-drying, air-drying product. It should only be used to coat non-porous substrates. VC17M EXTRA with BioRUX® is recommended for use on both new and existing structures.

Preparation

1. Priming: Priming is not necessary for new structures. Priming is recommended for existing structures.

2. Surface Preparation: New wood surfaces should be sanded with 80 grit sandpaper. Existing structures should be prepared with a clean, dry, dust-free surface.

3. Mixing: VC17M EXTRA with BioRUX® is a two-part product. Mix the two parts in a 1:1 ratio by volume. Mix well to ensure a uniform color and texture.

4. Application: Apply VC17M EXTRA with BioRUX® in a dust-free environment. Apply in thin coats, allowing each coat to dry for 24 hours before applying the next coat.
