Reserve® A bromide solution for use with Renew® shock oxidizer as part of a system for disinfection of water in spas.

**First Aid:**

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If On Skin:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If In Eyes:** Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**In Case of Emergency Call:** 1-800-654-6911.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

**This product is a clear solution of bromide salts which remain as a stable bank in the spa or hot tub water until Leisure Time® Renew® shock oxidizer is added. This product has no disinfectant properties and it is only when Renew granular is added that bromine is released in water containing this product.**

**Directions for Use:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product should be added when the spa/hot tub is filled and weekly thereafter to maintain a bank of bromide in the water.

First, treat the spa/hot tub with Leisure Time® Metal Gon® according to its label directions. Then, add 4 ounces of this product per every 250 gallons of water directly into the spa or hot tub. Circulate the water while adding this product to ensure thorough distribution.

For weekly maintenance, add one ounce of this product per every 250 gallons of water to maintain a sufficient bank of bromine in the water. Test the bromine residual at least once a day with a bromine/pH test kit. The bromine residual must be between 1-3 parts per million (ppm) for residential spas/ hot tubs and 3-5 ppm for commercial installations. Heavy usage, or the length of time the spa/hot tub is in use, may result in depletion of bromine and require additional dosages of Renew shock oxidizer to maintain the desired bromine residual. Never mix any chemicals with each other before adding to the water.

Change water monthly as needed to maintain water quality.

**Precautionary Statements:**

**Hazards to Humans and Domestic Animals:**

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. May cause eye and skin irritation. May cause respiratory tract irritation if inhaled. Wash with soap and water after handling and before eating, drinking or using tobacco. Remove and wash contaminated clothing before reuse.

**Physical and Chemical Hazards:** Do not mix with acids or oxidants.

**Environmental Hazards:** This pesticide is toxic to fish and aquatic organisms.

**Storage and Disposal:** Keep this product dry in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

**Identification Code:**

103009

Item #6300

Bottle ALTQ5321
