RESTRICTED USE PESTICIDE
Due to Reproductive Effects and Acute Toxicity
For retail sale to and use only by certified applicators or persons under their direct supervision and only for those uses covered by the certified applicator's certification. Direct supervision for this product is defined as the certified applicator being physically present during mixing, loading, equipment repair, and equipment cleaning. Certified applicators must ensure that all persons involved in these activities under their direct supervision are informed of the precautionary statements.

REGISTRATION FOR SPECIAL LOCAL NEED FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

MSR® SPRAY CONCENTRATE
SYSTEMIC INSECTICIDE
EPA Reg. No. 10163-220
EPA SLN NO.: WA-030002

DANGER - POISON
PELIGRO - VENENO

This label for MSR® Spray Concentrate expires and must not be distributed or used in accordance with this SLN registration after December 31, 2017.

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

RECOMMENDED APPLICATIONS

<table>
<thead>
<tr>
<th>CROP</th>
<th>INSECT</th>
<th>PINTS</th>
<th>REMARKS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strawberries (only pre-bloom and post-final harvest)</td>
<td>Strawberry aphids</td>
<td>2</td>
<td>Application by groundboom only. Apply specified dosage per acre in sufficient water for complete coverage, but not less than one gallon per acre.</td>
</tr>
</tbody>
</table>

- Limited to 2 applications per crop cycle: one pre-bloom application and one post harvest application to plants growing in fields.
- Do not apply to fruit
- Minimum of 7 days between applications
- Restricted entry interval (REI) = 15 days
- Aerial application and chemigation are prohibited

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and wildlife. MSR® Spray Concentrate should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program web site at http://agr.wa.gov/PestFert/EndangeredSpecies.aspx, or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.

WSDA Container Disposal Guidance: Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx. Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.

IMPORTANT: This product is sold subject to the Conditions of Sale set forth on the container label.
