CONTROLS BOTH LISTED INSECTS AND LISTED DISEASES ON FRUIT TREES, FLOWERS, ORNAMENTAL EVERGREENS, AND STRAWBERRIES

ACTIVE INGREDIENTS:
- Captan (CAS No. 133-06-2) . . . . . . . . . . . . . 11.76%
- Related Derivatives . . . . . . . . . . . . . . . . . . . 0.24%
- Malathion (CAS No. 121-75-5) . . . . . . . . . . . . 6.00%
- Carbaryl (CAS No. 63-25-2) . . . . . . . . . . . . . 0.30%
- *Other Ingredients: . . . . . . . . . . . . . . . . . . . 81.70%

*Contains Petroleum Distillate

TOTAL 100.00%

See back panel for First Aid and additional Precautionary Statements.

KEEP OUT OF REACH OF CHILDREN

WARNING

CONCENTRATE

Makes up to 42 gallons

**PESTICIDE DISPOSAL:**
- If partly filled: Call your local solid waste agency for disposal instructions.
- Never place unused product down any indoor or outdoor drain.
- If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**STORAGE AND DISPOSAL:**
- Store and transport in an upright position.
- Store in a secure, dry place.
- Do not contaminate water, food or feed by storage and disposal.
- 25°C (77°F). Store and transport in an upright position.
- Do not contaminate water, food or feed by storage and disposal.

**DISCLAIMER:**
- To the extent consistent with applicable law, buyer assumes all risks or use, storage or disposal of this product. For information on personal protective equipment, health, medical emergencies, or pesticide safety, contact your state or local health department or agricultural extension service.
- To the extent consistent with applicable law, buyer assumes all risks of use, storage or disposal of this product.
In use:
Mix equal parts of spray concentrate and water. Apply rapidly just prior to the time of day that insects and disease spores are most active. Keep upper and lower leaf surfaces, stems and branches wet. Carefully read and follow the spray schedule in Table.

When insects or active disease spores are present (warm humid days), use higher specified application rates (see Table). Apply spray to leaves, fruit branches, trunk and base of tree until lightly dripping. Shake sprayer occasionally or agitate to keep spray particles in suspension during application. Spray thoroughly to wet upper and lower leaf surfaces, stems and branches. Carefully read and follow the spray schedule in Table.

First AID contains an organophosphate

If swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air if person is not breathing, call 911 or ambulance, then give artificial respiration, preferably by mouth-to-mouth. If mouth-to-mouth resuscitation is to be done, make sure that wind or rain does not blow spray mist or vapor into the rescuer’s face.

If in eyes: Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses if present and easy to do. After the first 5 minutes, continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

WARNING
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Extremely flammable. Keep away from fire, sparks and heated surfaces.

Environments hazards
This product is extremely toxic to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow spray mist or vapor into water bodies or drainage systems. BEE CAUTION: This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or drift to blooming crops or weeds while bees are actively visiting the treatment area.

Precautionary statements
Hazard to humans and domestic animals
Caution: Causes severe eye irritation. Causes severe skin irritation. Causes severe respiratory irritation. Causes skin irritation. Harmful if swallowed. Harmful if inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist or vapor. Wear protective clothing that does not absorb the spray. Keep clothing short sleeved and short pants, socks, chemical resistant footwear, protective eyewear (goggles, face shield, safety glasses), and chemical resistant gloves (laminated or vinyl, select combination C).

Risk phrases
• Do not use on large trees. Do not use where foliage to be treated extends beyond spray coverage of equipment.
• Do not spray when temperature is greater than 85°F.
• Apply when air is calm (not more than 10 mph) adjusting sprayer nozzle for largest droplet size.
• Do not apply this product or drift to blooming crops or weeds while bees are actively visiting the treatment area.

Physical and chemical hazards
Extremely flammable. Keep away from fire, sparks and heated surfaces.

Directions for use
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For outdoor use on plants in home gardens, commercial orchards, greenhouses, vineyards, blueberry, or commercial seed production, or for research purposes. Use on listed fruits and vegetables is limited to home gardens.

Liquid fruit tree spray is a concentrate containing insecticides, fungicides, aphicides, miticides, scalicides and spreader-sticker. Easy to use; mixes with water instantly; no plugged nozzles; no messy powders to handle, measure or mix; no pre-mixing or straining necessary. Intended for homeowner use to protect apples, cherries, grapes, peaches, strawberries, roses, ornamental evergreens and flowers from the ravages of insects and diseases listed.

Warning: Causes severe eye irritation. Causes severe skin irritation. Causes severe respiratory irritation. Causes skin irritation. Harmful if swallowed. Harmful if inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist or vapor. Wear protective clothing that does not absorb the spray. Keep clothing short sleeved and short pants, socks, chemical resistant footwear, protective eyewear (goggles, face shield, safety glasses), and chemical resistant gloves (laminated or vinyl, select combination C).

User safety recommendations
• Wash the outside of gloves before removing.

Environmental hazards
Do not contaminate water, food, or feed by direct or through drift. Keep people and pets out of the area during application. Visiting the treatment area will help avoid run off to water bodies or drainage systems.
