Sweep (do not walk) all turf for steeping materials from surfaces immediately after application. Use water to break up clumps and ensure complete coverage. Sweep out after use and do not use the same applicator for multiple use.

A low temperature will not kill 1 to 4 pounds of nitrogen per 1000 square feet per growing season. When used as directed, this product will supplement your regular fertilizer program by supplying 0.7 lbs. of nitrogen per 1000 square feet of turf. However, wait until new growth is evident before applying a second application.
