ACTIVE INGREDIENT By weight
Iron phosphate 1.0%
OTHER INGREDIENTS 99.0%
Total 100.0%
WHY SLUG & SNAIL BAIT IS EFFECTIVE

This product is a unique blend of an iron phosphate active ingredient, ursolic acid and other non-toxic baits with succo, fermentation, and a protein attractant. The bait is effective on a wide variety of slugs and snails and will give protection to your lawn, garden, greenhouse, outdoor ornamentals, vegetable gardens, flowers, trees, shrubs, and crops.

DIRECTIONS FOR USE

Apply as directed. Apply the bait to the area of the plants to which it is to be applied. The bait is not to be used on any soil or on any other surface except the soil. The bait is to be applied to the areas where the slugs or snails are likely to be found. The bait should be spread evenly over the area to be treated.

OUTDOOR ORNAMENTAL GRASSES: Apply the bait at the rate of 1 lb. per 1,000 square feet of ornamental grasses. The bait should be spread evenly over the area to be treated.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
