DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Sanitex Plus is a general purpose cleaner, desiccant and disinfectant that is used where control of cross-contamination hazards is of prime importance. Sanitex Plus provides a novel way to effectively clean and disinfect hard, non-porous environmental surfaces. Sanitex Plus aids in the reduction of cross-contamination hazards. Easy to use, no mixing or diluting. Ready-to-use.

Use Sanitex Plus on all hard, non-porous environmental surfaces/areas including: Chrome, Formica Brand, glass, painted surfaces, plastic such as polycarbonate, polyvinylidene, polypropylene and polyethylene, PFPDA, glazed porcelain and stainless steel. Use Sanitex Plus to clean, desiccant and disinfect such items as: Ambulance equipment/surfaces, counters/countertops, CPR training mannequins, dental chairs/countertops/instruments/implements/implants/IX surfaces, exercise equipment/benches/mats, hard hats, headdresses, laboratory equipment/surfaces, medical instruments/implants, nail care implements, operating room lights/tables, respiratory therapy equipment, respiratory face/facepieces, turning beds, telephones and veterinary care surfaces/instruments/implants.

Keep Out of Reach of Children

CAUTION
See side panel for additional precautionary statements.

Net Contents: 1 Quart (0.94 Liters)
EPA Reg. No.: 1130-12-04285
EPA Est. No.: 1130-L-1

STORAGE AND DISPOSAL
Do not contaminate water, food, feed or soil by storage or disposal.

Storage: Store in original container in a cool, well-ventilated, locked area inaccessible to children and persons unfamiliar with its use. Pestide Disposal: Wastes resulting from the use of this product must be disposed of in an approved or in an approved waste disposal facility. Container Disposal: Nonrefillable container; do not refind or refill this container. Properly clean container after emptying. Store (or equivalent) the plastic container after emptying. Store in accordance with local, state and federal regulations. Do not mix with other chemicals or pour into sanitary sewer system. Do not use in or around food or feed areas. Do not contaminate water, food, feed or soil by storage or disposal.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals:
CAUTION: Harmful if inhaled or absorbed through skin. Causes respiratory irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash before reuse.

First Aid

If Inhaled: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If Skin or Eyes: Wash skin or eyes immediately with soap and water. Call for medical advice if irritation persists. Use protective eyewear. If wearing contact lenses, remove contact lenses. After washing, rinse eyes thoroughly with tap water.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Physical or Chemical Hazards: Do not use or store near heat or open flame.

CROSSTEX®
A CANTEL MEDICAL COMPANY
DIRECTIONS FOR USE (Continued):

General Cleaning, Pre-cleaning and Deodorizing: Prior to disinfection, preclean all surfaces with this product, making sure to remove all gross filth and heavy soil. Apply an aqueous solution to the surface and allow the surface to remain wet for 30 seconds prior to wiping with a paper towel or clean towel/spoon.

To Disinfect Hard, Nonporous, Surfaces/Articles: To disinfect Acinetobacter baumanii, Aspergillus niger, Avian Influenza A, Candida albicans, Canine Parvovirus, Escherichia coli, O157:H7, Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Herpes Simplex II, HIV-1 (AIDS Virus), Influenza Strain H1N1, Mycobacterium bovis BCG, Polio I Virus, Pseudomonas aeruginosa, Rhinovirus, Rotavirus Strain WA, Salmonella enterica, Staphylococcus aureus, Staphylococcus aureus (MRSA), Trichophyton mentagrophytes and Vancomycin-resistant Enterococcus faecalis (VRE): Using Sanitec Plus as is (do not dilute), apply an aqueous solution to thoroughly wet the precleaned surfaces. Allow to remain wet for 5 minutes prior to wiping or allow surfaces to air dry. For disinfection of Avian Influenza A, use this product only for surfaces that are not conducive to treatment by immersion or excess liquid. Note: Disinfected food contact surfaces must be rinsed with potable water after cleaning and/or disinfection and before reuse. After disinfection, critical and semi-critical devices must undergo appropriate terminal sterilization/high-level disinfection.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HBV, HCV AND HIV-1 (AIDS Virus) FOR SURFACES OR OBJECTS SOILED WITH BLOOD OR BODY FLUIDS

Kills HBV, HCV and HIV-1 (AIDS Virus) on pre-cleaned environmental surfaces or objects previously soiled with blood or body fluids in 30 seconds at room temperature (20-25°C) in health care settings or when there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HBV, HCV and the human immunodeficiency virus Type 1 (HIV-1) associated with AIDS. Personal Protection: When using the germicidal solution, wear disposable latex gloves, protective gown, face mask and/or eye covering, as appropriate, when handling HBV, HCV and HIV-1 infected blood or body fluids. Cleaning Procedure: All blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the germicidal solution. Contact Time: Thoroughly wet surfaces. Allow to remain wet 30 seconds, let air dry. Use a 5-minute contact time for disinfection against all of the organisms claimed.

Disposal of Infectious Materials: Dispose of used solution in accordance with local regulations for infectious waste disposal.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container in a cool, well-ventilated, locked area inaccessible to children and persons unfamiliar with its use. Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site, or at an approved waste disposal facility. Container-Disposal: Nonrefillable container; do not reuse or refill this container. Promptly clean container after emptying. Triple rinse (or equivalent) the plastic container after emptying. Triple rinse as follows: Empty the remaining contents into application equipment and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recaps shake for 10 seconds. Follow pesticide disposal instructions for rinsate. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer the container for recycling or reconditioning; or puncture and dispose of in a sanitary landfill; or incineration, if allowed by state and local authorities. If burned, stay out of smoke.

Lot Number: See side of container for Lot Number.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

First Aid

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-30 minutes.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present. After the last 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

You may also call 1-800-222-1222 for emergency medical treatment information.

Physical or Chemical Hazards: Do not use or store near heat or open flame.
