**PREVENTS NESTING - KILLS WITH RESIDUAL ACTION AS WASPS & HORNETS RETURN TO NEST**

**ACTS AS A BARRIER THAT PREVENTS INSECTS FROM ENTERING THE BUILDING**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Read Entire Label.**

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. May cause stinging of asphalt surfaces and shingles. Remove protective cap. Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to fill the entire nest population. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest.

To kill wasps, hornets, bees and yellow jackets under eaves, porches, window frames, doors, patios, cracks, holes, or crevices wherever insects are noticed, spray for about 1-2 seconds or until surfaces are moist. To prevent entrance of insects into the building, spray around points where insects enter such as outside plumbing, vents, etc., and cracks and crevices in foundation as well as along stairs and overhanging eaves. All outdoor applications must be limited to spot or crack-and-crevice treatments only. Do not water the treated area to the point of runoff. Do not make applications during rain.

Application is prohibited directly into sewers or drainways, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Do not apply to potted or containerized feed, foodstuffs, dishes or utensils. Avoid spraying vegetation directly. Do not use in locations such as hand-hewn handling establishments, restaurants or other areas where modification is commercially prepared, processed or served. Not for use in federally inspected meat and poultry plants.

**STORAGE & DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Storage: Do not store near heat or open flame. Store in cool dry area away from children. Disposal: Do Not Puncture or Incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
