PROGRESS® Herbicide

Not For Use On Commercial Sod Farms In Arizona

EMULSIFIABLE CONCENTRATE HERBICIDE

Selective Herbicide Intended for Use by Professional Applicators on Ornamental Turf. Intended for sale to and use by professional applicators. Not intended for sale to or use by consumers.

ACTIVE INGREDIENT:
Ethofumesate: (2-ethoxy-2, 3-dihydro-3, 3-dimethyl-5-benzofuranyl methanesulfonate)*............................... 19%

OTHER INGREDIENTS**.................................................. 81%

TOTAL:.............................................................................. 100%

*This product contains 1.5 lb active ingredient per gallon.
**Contains petroleum distillates

EPA Reg. No. 432-941

KEEP OUT OF REACH OF CHILDREN

DANGER — PELIGRO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

Refer to attached leaflet for complete Directions for Use and Precautionary Statements.

For MEDICAL and TRANSPORTATION Emergencies ONLY Call 24 Hours A Day
T-800-334-7577
For PRODUCT USE Information Call 1-800-331-2867

FIRST AID

IF IN EYES:
• Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Do not give any liquid to the person.
• Do not induce vomiting unless told to by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. IN CASE OF MEDICAL, ENVIRONMENTAL, OR TRANSPORTATION EMERGENCIES OR INJURIES, CALL 1-800-334-7577 (24 HOURS/DAY).

Note To Physician: Probable mucosal damage may contraindicate the use of gastric lavage. Contains petroleum distillate. May pose an aspiration pneumonia hazard.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool place above 34°F.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

Refer to attached leaflet for complete Directions for Use and Precautionary Statements.

Note To Physician:
Probable mucosal damage may contraindicate the use of gastric lavage. Contains petroleum distillate. May pose an aspiration pneumonia hazard.

GROUP 16 FUNGICIDE

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
Corrosive. Causes irreversible eye damage. Causes skin irritation. Do not get in eyes, on skin or on clothing.

Environmental Hazards
This pesticide may be toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinseate.

Physical or Chemical Hazards
Combustible. Do not use or store near heat or open flame.
Augustine grass that has not been established for six months. DO NOT treat St. Augustine grass that is under stress or injury may occur. If the St. Augustine grass shows signs of severe 

breakdown of winter dormancy will vary according to location and yearly 

application of PROGRASS Herbicide to bermudagrass in late fall, one to two weeks after emergence of overseeded perennial ryegrass to control annual blue grass. Treatment to turf 

yellowing or stunting, discontinue applications.

bluegrass control and higher rates have shown more bermudagrass injury when the bermudagrass is not fully dormant. The onset of dormancy will vary according to location and yearly

apply PROGRASS Herbicide when treating non-dormant bermudagrass. The final PROGRASS Herbicide application should be made to bermudagrass no later than February 1st or 4 weeks

5 Refers to interval in which PROGRASS Herbicide may be safely applied to specific grass following seed emergence.

4 Use spring application after previous fall treatments only.

3 Interval applies to overseeding specific grass on same type of grass after last PROGRASS Herbicide treatment.

2 Apply specified rate of PROGRASS Herbicide in 20 to 60 gallons of water per acre or 1/2 to 1.5 gallons of water per 1,000 sq ft.

1 Refer to label text for further instructions regarding each grass species.

maximum and effective use rate is 1 fl oz of product/1,000 sq ft.

DIRECTIONS FOR USE

This product is a systemic, preemergence, systemic, and postemergence herbicide. It will kill many annual and perennial grasses.

USE REQUIRMENTS AND PRECAUTIONS

Read entire Use Precautions, Directions for Use, and Disclaimer of Warranties before using this product.

Non-Residential Use Requirements

• Overseeding is directed in conjunction with PROGRASS Herbicide applications to achieve conversion to desired turfgrass species and to avoid stand thinning due to annual bluegrass and Poa annua.

• For sod farm turf: Do not harvest treated sod for 3 days following application.

• PROGRASS Herbicide may be applied to residential lawns by licensed or certified applicators. PROGRASS Herbicide is not intended for use by homeowners.

• PROGRASS Herbicide application is most effective on healthy, vigorously growing turf.

Agricultural Use Requirements

• The following turfgrass cultivars have shown tolerance to PROGRASS Herbicide; however, all species and varieties have not been tested. PROGRASS Herbicide has been used safely on the following turfgrass cultivars, but its use is not strictly limited to these. Before large scale use of PROGRASS Herbicide on other cultivars, a tolerance test on a small area is recommended.

STORAGE AND DISPOSAL

Storage:

• PROGRASS Herbicide is non-refillable and should be disposed of as directed.

Disposal:

• Spray equipment and application equipment should be washed according to the directions for each application.

ENVIRONMENTAL HAZARDS

• Before applying PROGRASS Herbicide, obtain the most current weather forecast for your area. Check the temperature for a period of 48 to 72 hours, along with other factors which may affect the weather conditions at the time of application, and proper selection of the correct herbicide rate and application timing should be made.

• The herbicide should be applied only to turfgrass species shown to be tolerant to PROGRASS Herbicide.

• Vegetative and flowering ornamental plants should be protected from drift or drift in PROGRASS Herbicide solution by employing effective application practices or use of shelters and protective strips.

• Apply PROGRASS Herbicide only as directed at the specified rates (DO NOT OVERAPPLY).

• Use PROGRASS Herbicide only as directed at the specified rates (DO NOT OVERAPPLY).

• Overseeding is directed in conjunction with PROGRASS Herbicide applications to achieve conversion to desired turfgrass species and to avoid stand thinning due to annual bluegrass and Poa annua.

• For sod farm turf: Do not harvest treated sod for 3 days following application.

• PROGRASS Herbicide may be applied to residential lawns by licensed or certified applicators. PROGRASS Herbicide is not intended for use by homeowners.

• PROGRASS Herbicide application is most effective on healthy, vigorously growing turf.

• The following turfgrass cultivars have shown tolerance to PROGRASS Herbicide; however, all species and varieties have not been tested. PROGRASS Herbicide has been used safely on the following turfgrass cultivars, but its use is not strictly limited to these. Before large scale use of PROGRASS Herbicide on other cultivars, a tolerance test on a small area is recommended.

• Do not apply PROGRASS Herbicide where it may drift onto adjacent property or contaminate vegetation that is not susceptible to the effects of PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicide.

• Do not apply PROGRASS Herbicide in the presence of any other herbicides that are susceptible to PROGRASS Herbicle.
**DIRECTIONS FOR USE**

**STORAGE AND DISPOSAL**

- Protect from dust, moisture, heat, excessive cold, and direct sunlight.
- Do not store or use near food or livestock feed.
- For storage, use only in a weatherproof container.
- Do not contaminate water supplies.
- Do not contaminate water supplies.
- **SPRAY EQUIPMENT:**
  - Use boom sprayers with a minimum 40gpm (US) or 57lpm (International) delivery rate.
  - Use constant flow or constant pressure nozzles.
  - Use only in wettable powder with a 10% to 20% solids concentration.

**ENVIRONMENTAL HAZARDS**

- Do not enter treated areas until sprays have dried.
- Do not allow others to enter treated areas until sprays have dried.
- Do not store spray materials near water sources.
- Do not apply or store spray materials near surface waters.
- Do not apply spray materials near water sources.
- **USES AND RESTRICTIONS**
  - Only for use by permitted pesticide handlers.
  - Only for use by permitted pesticide handlers.
  - Only for use by permitted pesticide handlers.
  - Only for use by permitted pesticide handlers.
  - Only for use by permitted pesticide handlers.

Augustine grass that has not been established for six months. DO NOT treat St. Augustine grass that is under stress or injury may occur. If the St. Augustine grass shows signs of severe (spring green-up) of bermudagrass in the spring. The breaking of winter dormancy will vary according to location and yearly weather. Application of PROGRASS Herbicide to bermudagrass will be effective against annual bluegrass with minimum injury to non-dormant (or predormant) bermudagrass when applied in late November or early December. Lower rates have shown lesser annual yellowing or stunting, discontinue applications.

PROGRASS Herbicide when treating non-dormant bermudagrass. The final PROGRASS Herbicide application should be made to bermudagrass no later than February 1st or 4 weeks after the second application. Temporary stunting and minor discoloration of St. Augustine grass may occur after application. To improve suppression, PROGRASS Herbicide may be reapplied at 21-28 days after the second application. One or two supplemental applications at 21 to 28 day intervals may be required to maintain control through the winter months. DO NOT APPLY more than two applications of PROGRASS Herbicide to bermudagrass in the same calendar year. These applications should be made no later than January 1st. The maximum and effective use rate is 1 fl oz of product/1,000 sq ft.
