See inside leaflet for complete First Aid Instructions, Precautionary Statements, Directions for Use and Storage and Disposal Instructions.
irritation. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

**CAUTION**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

For agricultural pesticides [40 CFR 170.240 (d) (4–6)], the handler PPE requirement may be reduced or modified as specified in the WPS.

**ENGINEERING CONTROLS STATEMENT**

When handling uses closed systems, equipment, bags, or aircraft in a manner that minimizes the likelihood of exposure, users should follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available, wash detergent and hot water. Keep and wash PPE properly after use.

For control of other soil borne diseases such as Rhizoctonia sp. or Fusarium sp. BANOL FUNGICIDE can be tank-mixed with thiramathane-methyl. Use the full rate of each fungicide and follow the most restrictive directions and restrictions appearing on the labels of these products.

**USE RESTRICTIONS**

Do not use for field grown ornamentals. BANOL FUNGICIDE requires no agitation after initial mixing. Stack solutions of BANOL FUNGICIDE should be used within one week of mixing. BANOL FUNGICIDE does not control Sclerotinia sp. and Phytophthora sp. at all stages of ornamental plant propagation, including seeding, transplanting and potting.

Do not use more than 63 fluid ounces of BANOL FUNGICIDE (2.95 lb ai) per 1,000 sq ft per season. When dipping plant roots, workers are required to use the stated personal protective equipment on this label and a chemical-resistant apron as a prudent measure.

**USER SAFETY RECOMMENDATIONS**

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water, or to areas where surface water is present, or to entomological areas below the mean water level. Do not contaminate water when disposing of equipment washwaters.

**DIRECTIVES FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used in turf, or on established turf to prevent or control Pythium Blight. BANOL FUNGICIDE is also labeled for prevention of root rot and damping-off caused by Phytophthora sp. and Phytophthora sp. at all stages of turfgrass development and ornamental plant propagation, including seeding, transplanting and potting.

**TURFGRASS**

**OVERSEeded AREAS:** Apply after germination to control Pythium Damping-Off. RETREATMENT: Re-treat at 7-21 day intervals if conditions remain favorable for disease development. Use a lower rate for the shorter interval and the higher rate for the longer interval between applications. Under severe disease pressure conditions, use the highest labeled rate and shortest intervals.

**NOT FOR USE ON SOD FARMS IN ARIZONA**

**LEGAL REMARKS**

Do not use for field grown ornamentals. BANOL FUNGICIDE requires no agitation after initial mixing. Stack solutions of BANOL FUNGICIDE should be used within one week of mixing. BANOL FUNGICIDE does not control Sclerotinia sp. and Phytophthora sp. at all stages of ornamental plant propagation, including seeding, transplanting and potting.

Do not use more than 63 fluid ounces of BANOL FUNGICIDE (2.95 lb ai) per 1,000 sq ft per season. When dipping plant roots, workers are required to use the stated personal protective equipment on this label and a chemical-resistant apron as a prudent measure.

**COMPATIBILITY**

Compatibility: BANOL FUNGICIDE is compatible with iprodione, ethalfluralin, chlorothalonil, metalaxyl, mancozeb, metalaxyl, and mancozeb.

**REMARKS**

Do not use for field grown ornamentals. BANOL FUNGICIDE requires no agitation after initial mixing. Stack solutions of BANOL FUNGICIDE should be used within one week of mixing. BANOL FUNGICIDE does not control Sclerotinia sp. and Phytophthora sp. at all stages of ornamental plant propagation, including seeding, transplanting and potting.

Do not use more than 63 fluid ounces of BANOL FUNGICIDE (2.95 lb ai) per 1,000 sq ft per season. When dipping plant roots, workers are required to use the stated personal protective equipment on this label and a chemical-resistant apron as a prudent measure.
IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.

CONDITIONS:
The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Bayer CropScience LP. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE LP MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. No agent of Bayer CropScience is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE LP DISCLAIMS ANY LIABILITY WHATSOEVER FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

LIMITATIONS OF LIABILITY: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY FOR THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT BAYER CROPSCIENCE LP’S ELECTION, THE REPLACEMENT OF PRODUCT.

REMARKS

FUNGICIDE does not afford broad spectrum disease control for (brown patch), Pythium spp. and Sclerotinia sp. at all stages of ornamental turfgrass developm ent and cultural practice. Use low er rate for the shorter interval and the higher rate for the longer interval within the application rate range. Under severe disease pressure conditions, use the highest labeled rate and shortest interval.

\*NOT FOR USE IN SOD FARMS IN ARIZONA

Do not use for field grown ornamentals. BANOL FUNGICIDE requires no agitation after initial mixing. Stock solutions of BANOL FUNGICIDE should be used within one week of mixing. BANOL FUNGICIDE does not contain specific herbicide tolerant plants when used as directed. Trials on other ornamental species should be conducted before extension use. Apply to commercially grown ornamentals in greenhouses and containerized ornamentals grown in nurseries by soil-directed drench only. Do not apply a soil drench to the foliage. Use chemical resistant gloves when planting cuttings, seedlings, or seeds into the potting media that is still wet from a BANOL FUNGICIDE drench application. Do not apply more than 63 fluid ounces of BANOL FUNGICIDE (2.95 lb ai) per 1,000 sq ft per season. When damping plant roots, workers are required to use the stated personal protective equipment on this label and a chemical-resistant apron as a prudent measure.

PRECAUTIONARY STATEMENTS

If swallowed:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything to an unconscious person.

If in eyes:

- Hold eyes open and rinse slowly and gently with water.
- Remove contact lenses, if present, after the first 5 minutes.
- Use an upright position; do not lie down.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN:

Do not administer syrup unless cholesteroitc embolism is measured or patient shows distinct symptoms thereof. McGhee et al. have shown that a chemotherapeutic administration of gastric lavage or induction of vomiting followed by application of activated charcoal is the treatment of choice. In CASE OF MEDICAL EMERGENCIES OR HEALTH AND SAFETY INQUIRERs, OR IN CASE OF FIRE, LEAKING, OR DAMAGED CONTAINERS, INFORMATION MUST BE PASSED TO THE CUSTOMER OR TO THE POLICE. The requirem ents in this box only apply to uses of this product that are covered by the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, as:

- Coveralls
- Shin and sock boxes
- Chemical-resistant gloves made of any waterproof material

If inhaled:

- Get person to fresh air. Do not give anything by mouth unless told to do so by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

If exposed to fumes:

- Go outdoors for fresh air. Do not eat, drink or smoke in area.
- Call a poison control center or doctor for treatment advice.

If on contaminated clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on skin:

- Wash skin with plenty of soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:

- Rinse eyes immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If by mouth:

- Do not induce vomiting unless told to by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Get person to fresh air. Do not give anything by mouth unless told to do so by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

If exposed to fumes:

- Go outdoors for fresh air. Do not eat, drink or smoke in area.
- Call a poison control center or doctor for treatment advice.

If on contaminated clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on skin:

- Wash skin with plenty of soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:

- Rinse eyes immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If by mouth:

- Do not induce vomiting unless told to by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Get person to fresh air. Do not give anything by mouth unless told to do so by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

If exposed to fumes:

- Go outdoors for fresh air. Do not eat, drink or smoke in area.
- Call a poison control center or doctor for treatment advice.

If on contaminated clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on skin:

- Wash skin with plenty of soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:

- Rinse eyes immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If by mouth:

- Do not induce vomiting unless told to by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Get person to fresh air. Do not give anything by mouth unless told to do so by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

If exposed to fumes:

- Go outdoors for fresh air. Do not eat, drink or smoke in area.
- Call a poison control center or doctor for treatment advice.

If on contaminated clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on skin:

- Wash skin with plenty of soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:

- Rinse eyes immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If on clothing:

- Remove clothing immediately.
- Wash exposed areas with soap and water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If by mouth:

- Do not induce vomiting unless told to by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.
For control of other soil borne diseases such as Rhizoctonia sp. or Fusarium sp. BANOL FUNGICIDE can be tank-mixed with thiophanate-methyl. Use the full rate of each fungicide and follow the most restrictive directions and restrictions appearing on the labels of these products.

USE RESTRICTIONS
Do not graze or feed clippings from treated areas to livestock.

Do not apply this product through any type of irrigation system.

Turfgrass and Ornamentals
BANOL FUNGICIDE is labeled for prevention of root rot and damping-off caused by Phytophthora sp. and Phytophthora sp. at all stages of turfgrass development and ornamental plant propagation, including irrigation, seeding, transplanting, and potting.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION
Harmful if swallowed, or absorbed through the skin. Causes moderate eye irritation. Do not enter treated areas until sprays have dried. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals.

PERSONAL PROTECTIVE EQUIPMENT

Required (e.g. the following personal protective equipment are given in the table below. If you want more options, follow the instructions for category A on an EPA chemical-resistance category selection chart. Applicators and other handlers (both WPS and Han-WPS) must wear:

• Largely open clothing.
• Chemical-resistant gloves made of any water-resistance material such as polyethylene or vinyl chloride

• Chemical-resistant apron made of any material that meets the requirements listed in the Worker Protection Standard (WPS). A chemical-resistant apron must be worn when applying BANOL FUNGICIDE. A chemical-resistant apron shall be removed after contact with products to which it has been exposed.

ENGINEERING CONTROLS STATEMENT

When handling unsubdued products, work outdoors, in a well-ventilated area, or in a manner in which the treated materials do not enter or damage the treated areas. The following personal protective equipment (PPE) items are not to be used in conjunction with the product in this article. These items have been identified as having potential PPE hazards:

• Polyethylene gloves

If swallowed:

• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison center doctor or doctor.
• Do not give anything to an unconscious person.

If in eyes:

• Hold open eyes and rinse slowly and gently with water.
• Remove contact lenses, if present, after the first 5 minutes. Continue rinsing.
• Call a poison control center or doctor for treatment advice.

If on skin or clothing:

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN:

Do not administer epinephrine unless cholinergic blockade is measured or patient shows distinct symptoms thereof. Guanethidine or other adrenergic blocking agents are contraindicated.

In case of medical emergencies or health and safety inquiries, or in case of fire, leaking, or damaged containers, information may be obtained from the agency responsible for pesticide regulation.

WARNINGS:

Do not enter or allow others to enter treated areas until sprays have dried. Do not apply directly to water, or to areas where surface water is present, or to ornamental areas below the mean high water mark. Do not contaminate water or aquatic habitats.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present, or to ornamental areas below the mean high water mark. Do not contaminate water or aquatic habitats.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use this product only according to its labeling and with the Worker Protection Standard 40 CFR 190. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific personal protective equipment standards when used as directed. Trials on other ornamental species should be conducted before extensive use. Apply to commercially grown ornamentals in greenhouses and container-grown ornamentals in nurseries by soil-directed drench only. Do not apply a soil drench to the foliage. Use chemical-resistant gloves when planting cuttings, seedlings, or seeds into the potting media that is still wet from a BANOL FUNGICIDE drench application. Do not apply more than 63 fluid ounces of BANOL FUNGICIDE (2.5 lb ai) at 1,000 sq ft per season. When dipping plant roots, workers are required to use the stated personal protective equipment on this label and a chemical-resistant apron as a prudent measure.

AGRICULTURAL USE REQUIREMENTS

Do not use for field grown ornamentals.

BANOL FUNGICIDE requires no agitation after initial mixing. Stack solutions of BANOL FUNGICIDE should be used within one week of mixing. BANOL FUNGICIDE does not cause phytotoxic symptoms on the listed plants when used as directed. Tests on other ornamental species should be conducted before extensive use. Apply to commercially grown ornamentals in greenhouses and container-grown ornamentals in nurseries by soil-directed drench only. Do not apply a soil drench to the foliage. Use chemical-resistant gloves when planting cuttings, seedlings, or seeds into the potting media that is still wet from a BANOL FUNGICIDE drench application. Do not apply more than 63 fluid ounces of BANOL FUNGICIDE (2.5 lb ai) per 1,000 sq ft per season. When dipping plant roots, workers are required to use the stated personal protective equipment on this label and a chemical-resistant apron as a prudent measure.

PROD U CT IO N

For control of:

• Pythium sp. or
• Fusarium sp. at all stages of turfgrass development and ornamental plant propagation, including irrigation, seeding, transplanting, and potting.

BANOL FUNGICIDE does not afford broad spectrum disease control for Pythium Blight (Cottony Blight, Grease Spot) or Sclerotinia sp. at all stages of turfgrass development and ornamental plant propagation.

FUNGICIDE is also labeled for prevention of root rot and damping-off caused by Phytophthora sp. and Phytophthora sp. at all stages of turfgrass development and ornamental plant propagation.

BANOL FUNGICIDE is intended for use on turfgrass or ornamental species which are subject to Pythium Blight (Cottony Blight, Grease Spot) or Fusarium sp. at all stages of turfgrass development and ornamental plant propagation.

BANOL FUNGICIDE requires no agitation after initial mixing. Stack solutions of BANOL FUNGICIDE should be used within one week of mixing. BANOL FUNGICIDE does not cause phytotoxic symptoms on the listed plants when used as directed. Trials on other ornamental species should be conducted before extensive use. Apply to commercially grown ornamentals in greenhouses and container-grown ornamentals in nurseries by soil-directed drench only. Do not apply a soil drench to the foliage. Use chemical-resistant gloves when planting cuttings, seedlings, or seeds into the potting media that is still wet from a BANOL FUNGICIDE drench application. Do not apply more than 63 fluid ounces of BANOL FUNGICIDE (2.5 lb ai) per 1,000 sq ft per season. When dipping plant roots, workers are required to use the stated personal protective equipment on this label and a chemical-resistant apron as a prudent measure.

PRODUCT INFORMATION

BANOL FUNGICIDE is a complete water miscible fungicide concentrate. BANOL FUNGICIDE is intended for the control of disease caused by Phytophthora infestans which are subject to Pythium Blight (Cottony Blight, Grease Spot) or Phytophthora sp. It may be used after germination to control Pythium Blight and Phytophthora sp. in turf or on ornamental roots to prevent or damp-off in turf, or on established turf to prevent or control Pythium Blight. BANOL FUNGICIDE does not afford broad spectrum disease control for Rhizoctonia sp. (brown patch), Sclerotinia sp. (brown spot), or Sclerotinia minor (fusarium). Use a broad spectrum fungicide if these diseases are present with Phytophthora. BANOL FUNGICIDE is also labeled for prevention of root rot and damping-off caused by Phytophthora sp. and Phytophthora sp. at all stages of ornamental propagation.

BANOL FUNGICIDE is also labeled for prevention of root rot and damping-off caused by Phytophthora sp. and Phytophthora sp. at all stages of ornamental propagation.

Compatibility:

BANOL FUNGICIDE is compatible with iprodione, etallone, chlorothalonil, thiabendazole, chlorothalonil, thiabendazole, diclormetryn, and thiram.
IMPORTANT: READ BEFORE USE
Read the entire Directions for Use, Conditions, Disclaimer of Warranties and
Limitations of Liability before using this product. If terms are not acceptable,
return the unopened product container at once.

By using this product, user or buyer accepts the following Conditions,
Disclaimer of Warranties and Limitations of Liability.

CONDITIONS:
The directions for use of this product are believed to
be adequate and must be followed carefully. However, it is impossible to
eliminate all risks associated with the use of this product. Crop injury,
ineffectiveness or other unintended consequences may result because of such
factors as weather conditions, presence of other materials, or the manner of
use or application, all of which are beyond the control of Bayer CropScience
LP. All such risks shall be assumed by the user or buyer.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store in original container and keep tightly closed.
Store in cool dry secure place.
Pesticide Disposal: Wastes resulting from the use of this product may
be disposed of on site or at an approved waste disposal facility.
Container Disposal: Non-refillable container. Do not reuse or refill this
container. Offer for recycling, if available. Offer for reconditioning, if
appropriate. Triple rinse or pressure rinse container (or equivalent) promptly,
after emptying. Triple rinse as follows: Empty the remaining contents into
application equipment or a mix tank and drain for 10 seconds after the flow
begins to drip. Fill the container 1/4 full with water and recap. Shake for 10
seconds. Pour rinse into application equipment or a mix tank or store
rinse for later use or disposal. Drain 10 seconds after the flow begins
to drip. Repeat this procedure two more times. Then puncture and dispose
of in a sanitary landfill, or by incineration, or, if allowed by State and local
authorities, by burning. If burned, stay out of smoke.

IMPRINTS

DISCLAIMER OF WARRANTIES:
To the extent consistent with applicable law, Bayer CropScience LP makes no other warranties,
express or implied, of merchantability or of fitness for a
particular purpose or otherwise, that extend beyond the
statements made on this label. No agent of Bayer CropScience is
authorized to make any warranties beyond those contained herein or to
modify the warranties contained herein. To the extent consistent with
applicable law, Bayer CropScience LP disclaims any liability
whatsoever for special, incidental or consequential damages
resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY:
To the extent consistent with applicable law, the exclusive remedy of the user or buyer for
any and all losses, injuries or damages resulting from the use
or handling of this product, whether in contract, warranty,
tort, negligence, strict liability or otherwise, shall not exceed
the purchase price paid, or at Bayer CropScience LP’s election,
the replacement of product.

FIRST AID

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.
• Do not give anything to an unconscious person.

If in eyes:
• Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Do not administer atropine unless cholinesterase inhibition is measured or patient shows distinct symptoms thereof. Oxime therapy is contraindicated. Otherwise, administration of gastric lavage or induction of vomiting followed by application of activated charcoal is the recommended treatment.

IN CASE OF MEDICAL EMERGENCIES OR HEALTH AND SAFETY INQUIRIES, OR IN CASE OF FIRE, LEAKING, OR DAMAGED CONTAINERS, INFORMATION MAY BE OBTAINED BY CALLING 1-800-334-7577. HAVE THE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CALLING A POISON CONTROL CENTER OR DOCTOR, OR GOING FOR TREATMENT.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Harmful if swallowed, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in original container and keep tightly closed. Store in a cool dry secure place.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Offer for reconditioning, if appropriate. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
