For sale, for use and storage by commercial nursery, turf and landscape personnel only. RegalStar® G is a selective pre-emergence herbicide for control of crabgrass, goosegrass, annual bluegrass and crowfoot on turf and golf courses (excluding putting greens), and a wide variety of woody ornamental shrubs, trees, and vines. RegalStar G also controls many annual broadleaf weeds, including spotted spurge, knotweed, chickweed, yellow wood sorrel and clovers.

**ACTIVE INGREDIENTS:**
- Oxadizon 2-tert-butyl-4-(2,4-dichloro-5-isopropoxyphenyl)-delta1, 3, 4-oxadiazolin-5-one ............. 1.0%
- Prodiamine: (N3, N3-Di-n-propyl-2,4-dinitro-6-( trifluoromethyl)-m-phenylenediamine) ........................ 0.2%

**INERT INGREDIENTS:** ........................................... 98.8%

**TOTAL .................. 100.0%**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

**IF SWALLOWED:** Call a physician or Poison Control Center immediately. Induce vomiting by giving victim 1 or 2 glasses of water and touching back of throat with finger. Do not induce vomiting or give anything to an unconscious or convulsing person.

**IF IN EYES:** Flush thoroughly with water for several minutes and get medical attention immediately.

**IF ON SKIN:** Wash with plenty of soap and water.

**IF INHALED:** Remove victim to fresh air.

EPA Est. NO. 48234-GA-1
EPA Reg. NO. 48234-15
**GENERAL INFORMATION**

RegalStar® G is a selective, pre-emergent herbicide for control of annual grasses and broadleaf weeds on a wide variety of woody ornamental shrubs, vines, and trees. It is especially effective on crabgrass (Digitaria spp.), groundsel, (Eclipta indica), annual bluegrass (Phleum annulatum) and cowpea (Vigna unguiculata) species. Many broadleaf annual weeds such as spotted spurge (Euphorbia maculata), knotted (Polygonum spp.), chickweed (Stellaria media), yellow woodsorrel (Oxalis), and white clover (Trifolium repens) are pre-emergence treated from seed. RegalStar G controls the weeds by killing the young weed seedlings as they come in contact with the herbicide during germination.

For maximum effectiveness, sufficient rain or irrigation to wash the herbicide into the soil is required within 14 days of application. Do not apply to green turf, but wash the granules off the dry turf within 14 days after application.

Do not graze or feed livestock forage cut from areas treated with RegalStar G.

Do not apply this product through any type of irrigation system.

Do not apply aerially.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its label instructions. Do not apply to green turf; but wash the granules off the dry turf within 14 days after application. Do not apply to green turf; but wash the granules off the dry turf within 14 days after application. Do not apply to green turf; but wash the granules off the dry turf within 14 days after application.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. This product only meets the requirements for personal protective equipment (PPE) as defined by the Worker Protection Standard (WPS), 40 CFR Part 190. PPE required for entry into treated areas that are permitted under the Worker Protection Standard and that involves contact with anything that has been treated such as plants, soil, or water is:

- Long-sleeved shirts and long pants
- Waterproof gloves
- Steel-toed shoes
- Protective eye wear

**TURF**

Apply RegalStar G at 200 lbs. product per acre for weed control (4 1/2 lb. per 1000 sq. ft.). This is the only use application of this product that is covered under the Worker Protection Standard and is the only application of this product that is covered under the Worker Protection Standard. This product only meets the requirements for personal protective equipment (PPE) as defined by the Worker Protection Standard (WPS), 40 CFR Part 190. PPE required for entry into treated areas that are permitted under the Worker Protection Standard and that involves contact with anything that has been treated such as plants, soil, or water is:

- Long-sleeved shirts and long pants
- Waterproof gloves
- Steel-toed shoes
- Protective eye wear

Apply to dry turf with a properly calibrated granular applicator at the recommended rate prior to weed seed germination. Complete surfacing, verticuting, and raking before applying RegalStar G, so that the protective chemical barrier is not disrupted. Use only on recommended tarmecres. Germination of watered grasses may be reduced by as much as 50% more or less, if seeded within 6 months of an application. For newly seeded bermudagrass, ryegrass, and bluegrasses, delay applications until after grass emerges. Use on newly sprouted or vegetative plants of bermudagrass and bluegrasses before shoots have formed.

**APPROXIMATE SPREADER SETTINGS**

For (applied RegalStar G in one pass over turf)

**GARDEN**

_Turf Seedler (24 & 42 inch) 3.8
_Seed: 100
_Speed: 4 m.p.h. 1/2
_Model B-8 | 3” spread | 5 3/4
_Model B-8X | 8” spread N
_Lady | Remedial Blend, s | 4.5 1/4
_Kinsect 2.5 m.p.h. 2 7/8
_Walking speeds should be adjusted to generate spreader speeds. Slower speeds result in smaller spreads.

**WOODY ORNAMENTAL SHRUBS, VINES AND TREES**

Apply RegalStar G to established plants any time during the year, prior to weed seed germination. RegalStar G can be applied to both newly transplanted and established ornamentals. Delay application to newly transplanted until soil has settled around plant. Application can be made to actively growing or dormant ornamentals. Calibrating or disturbing the soil may reduce the weed control of RegalStar G. Do not apply to wet foliage or under conditions in which granules will clog on leaves. Do not apply to greenhouses. RegalStar G should be applied at 200 lbs. product/acre or 4 1/2 lbs./1000 sq. ft. prior to susceptible weed seed germination, with a suitable spreader which will assure accurate, even particle distribution. Do not apply herbicide granules to foliar phytotoxicity can result. Applications should be made to weed-free surfaces. Susceptible weeds are listed on this label under the "General Information" section. RegalStar G herbicide has shown excellent results when used on the following:

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply where runoff is likely to occur. Do not contaminate water when disposing of equipment wash waters. Apply only as specified on this label.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

**STORAGE:** Store in a cool place. Protect from excessive heat.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, pesticide spray or mist is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Completely empty container into application equipment. Thoroughly wash out container to ensure all material is removed. Thoroughly wash out container to ensure all material is removed. Thoroughly wash out container to ensure all material is removed.

**PRECAUTIONARY STATEMENTS**

**WARNING**

**Hazardous to humans and domestic animals**

Keep out of reach of children.

Causes eye and skin irritation. Avoid contact of food and feedstuff. Keep opened containers away from children and animals. Harmful if swallowed, or absorbed through the skin or inhaled. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Prolonged or frequent repeated skin contact while handling the material may cause allergic reactions in some individuals.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Application and other handlers must wear:

- Long-sleeved shirt and long pants
- Waterproof gloves
- Steel-toed shoes
- Protective eye wear

Follow manufacturer’s instructions for cleaning and maintaining PPE. If no such instructions for washable, use detergent and hot water. Keep and wash PPE separately from other laundry.

**User Safety Recommendations**

Users Should:

- Wash hands before eating, drinking, chewing gum, using tobacco or use of the toilet.
- Remove clothing immediately if pesticides get inside.
- Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product.
- Wash the outside of gloves before removing.
- As soon as possible, wash thoroughly and change into clean clothing.

**WARRANTY AND LIMITATION OF DAMAGES**

It is impossible to eliminate all risks inherently associated with the use of this product. Plant injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Regal or seller. All such risks shall be assumed by buyer or user. Seller warrants that this material conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use and buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty, including any other express or implied warranty of fitness or of merchantability, and no agent of seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall seller’s liability for any breach of warranty exceed the purchase price of the material at which a claim is made.
