PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
DANGER
Corrosive. Causes irreversible eye damage. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Do not inhale vapors or spray mist. Wear goggles or face shield (safety glasses). Wear one of the following NIOSH-approved respirators: (1) a non-powered cartridge respirator equipped with an R- or P-series air-purifying filter (NIOSH pre-six TG-84A), or (2) a powered cartridge respirator equipped with a high efficiency particulate air (HEPA) filter (MSHA/NIOSH approval number prefix TC 21C). Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

EMERGENCY MEDICAL INFORMATION: (800) 241-7439

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

ACTIVE INGREDIENT:
3-iodo-2-propynyl butyl carbamate........................................... 40.00%
OTHER INGREDIENTS...................................................... 60.00%
TOTAL.............................................................. 100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER
DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
The following are suggested use levels for Fungitrol® 440S Fungicide. The suggested use levels of Fungitrol® 440S Fungicide are given in percentage by weight.
For use as a preservative in manufacturing dyed film paint generally use 0.1-2.0% in wet paint, for aqueous metal working, cutting, cooling and lubricating fluids and concentrates use 0.05-0.5%, for paper coatings use 0.05-2.0% (15-750 mg/m² dry fiber), for plastics and plastic coatings use 0.5-2.5%, for cordeage use 0.5-2.5%, for inks use 0.05-3.0%, for pigment dispersions, slurries, gypsnum slurries for wallboard (drywall and gyspnum board) use 0.01-2%. For household, consumer, industrial, institutional and janitorial products (such as liquid and solid air fresheners, dish detergents, laundry products, soaps and detergents, non-food contact surface cleaners, floor care products, bathroom cleaners, window cleaners, fabric care products, automotive care products, and furniture care products), use 0.01-0.075%. For wood preservation, use only in above-ground applications only at 0.3-3.0%. Fungitrol® 440S Fungicide can be used as a fungicide in nonmedical, non food contact aqueous, solvent and non-solvent based systems such as natural and synthetic adhesives, caulks, patching compounds, sealants, grouts, latexes such as sbrlatex used in the manufacture of flooring adhesives or carpet backings and for use in cement-based products. Use levels for these applications are 0.05-0.625%. For specific recommendations on specific amounts of product to use please contact ISP.
See side panel for precautionary statements.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE - Keep container tightly closed when not in use. Do not store with strong oxidizing agents or strong (concentrated) acids.
PESTICIDE DISPOSAL - Pesticide waste, waters acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your local State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
CONTAINER HANDLING - Non-refillable container. Do not reuse or refil this container. Triple rinse container or equivalently promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring one complete revolution, for 30 seconds. Stand container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Repeat this procedure two or more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration or, if allowed by state and local authorities, by burning. If burned stay out of smoke.
