Before using cartridge, take physically filled spa, destabilize bromine or chlorine residual at 1:2.5 ppm with SPA FROG JumpStart, an EPA approved spa shock, or by other means by following directions on the package.

Using the In-The-Water System: For the first 24 hours, set the SPA FROG Bromine Cartridge at 50 by holding the bottom and turning the tip until the number 5 appears in the setting window. To install, open cap of the line System, push down and turn cartridge holder clockwise to unlock. Pull holder out. Snap cartridge into "Bromine Only" section. Make sure to turn cap slightly on cartridge with raised line as holder. After cartridge is snapped in, replace holder by lining up arrow on holder with arrow on system box, push down and lock in place. Replace cap. When using as directed with the SPA FROG Mineral Cartridge, maintain at least a 1.0 ppm bromine level. Otherwise maintain a 2.5-4.0 ppm bromine level.

Using the Floating Mineral System: For the first 24 hours, set the SPA FROG Bromine Cartridge at 50 by holding the bottom and turning the tip until the number 5 appears in the setting window. To install, push the cartridge into the bottom opening of the Floater System. Set entire system in the spa water. When using as directed with the Spa ring Mineral Cartridge, maintain at least a 1.0 ppm bromine level. Otherwise maintain a 2.5-4.0 ppm bromine level.

Using as a Free Floating Sanitizer: Set each spa as directed for the Floating System and allow to fill up spa. When using it with a SPA FROG mineral product, maintain a 1.0 ppm bromine level. When using it with a seal alone, maintain a 2.0-4.0 ppm bromine level.

FOR ALL USES: Initially test water daily and adjust cartridge depth or down depending on spa use and use until desired bromine level is achieved. For best results maintain five bromine levels, use the SPA FROG Test Strips. Adjusting the high setting will increase the bromine output while a lower setting will decrease it. When empty follow disposal instructions and replace with a new SPA FROG Bromine Cartridge.

REMEMBER!! This treated sound is prohibited above levels of 1.0 ppm available bromine as measured by a suitable test kit due to the risk of bodily injury.

STORAGE AND DISPOSAL: Do not contaminate land or water with this product. Store cartridge in original container in a cool, dry, well ventilated area away from food or drink. In case of productcontamination, rinse containers with large amounts of water. Precautions to follow: avoid inhalation of dust and fumes. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse. Follow directions for青山isafety.

PHYSICAL AND CHEMICAL HAZARDS: STAINS CHOKE/BURN AGENT. Non-refillable container. Do not attempt to refill empty cartridge. Disposal methods: Other chemicals: Take only with water. Nonionized water to product. Add a nonionized water to product. Do not use in drain. Do not use as anti-fungal treatment. Discard container in place. If contact occurs, flush with ample water. Always wash hands before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse. Follow directions for青山isafety.

ENVIRONMENTAL HAZARDS: This product is flammable and may cause skin irritation.ENVIRONMENTAL HAZARDS: This product is flammable and may cause skin irritation.

NOTE: Buyer assumes all responsibility for safety and is in accordance with directions.
Do not print magenta die line.

Using the In-Line Mineral Spa System: With a freshly filled spa establish a bromine or chlorine residual of 1.0-2.0 ppm with FROG Jump Start, or an EPA-approved spa shock as directed by other means by following directions on the package. For the first 24 hours, add the SPA FROG Bromine Cartridge at 3% by holding the bottom and turning the top until the number 3 appears in the opening window. To install, open cap of In-Line System, push down and turn cartridge holder counter-clockwise to lock. Pull holder out. Snap cartridge into "Bromine Only" position. Make sure to line up indent on cartridge with raised line on holder. After cartridge is snapped in, replace holder by lining up arrow on holder with arrow on system (up, down and left or right, whichever is directed with the SPA FROG Mineral Cartridge, maintain至少 at a 1 ppm bromine level. Otherwise maintain a 2.5-3.5 ppm bromine level. Initially test water daily and refill cartridge up or down depending on pool size and use until desired bromine level is achieved. Test for best results at maintaining low bromine levels, use the FROG Test Strip. Adjusting the higher setting will increase the bromine output while a lower setting will decrease it. When entries follow disposal instructions and replace with a new SPA FROG Bromine Cartridge.

REMEMBER to maintain spa to prohibited stone levels of 5.8 ppm available bromine as measured by a suitable test kit due to the risk of bodily injury.

STORAGE AND DISPOSAL: Do not contaminate food or feed with this product.

Storage: Store cartridge in original container in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposability, dispose container if possible and food area with large amounts of water to dissolve material before discarding this container.

Pesticide Disposal: Product or minerals that cannot be used must be inactivated with water before disposal in a sanitary sewer.

Container Handling: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Rinse thoroughly before recycling or discarding in trash.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Irritating to nose and throat. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield or safety glasses). Wear protective clothing and rubber gloves when handling product. Avoid breathing dust and fumes. Wash thoroughly with soap and water after handling, and before eating, drinking or using tobacco or using the toilet. Remove contaminated clothing and wash before reuse. Follow directions for use carefully.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Non-refillable container. Do not attempt to refill empty cartridge. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Do clean dry utensil. Do not add this product to any dispersing device containing remnants of any other product. Such action may create a violent reaction leading to fire and explosion. Contact with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not recontaminate. If possible, dispose container in open air or well ventilated area. Flood area with large volumes of water.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

Note: Buyer assumes all responsibility for safety and use not in accordance with directions.

SPA FROG® BROMINE CARTRIDGE

FOR IN-LINE SYSTEM USE ONLY

Active Ingredient: 1-Bromo-3-Chloro-5, 5-Dimethylhydantoin 4.9%
Other Ingredients: 95.1%

Total: 100.0%

Net Wt.: 7.1 ounces 96.6% (200 grams)

Keep Out Of Reach of Children

DANGER

SEE PRECAUTIONARY STATEMENTS ON BACK PANEL

FIRST AID: Skin: If eye contact or minor eye irritation occurs, wash with plenty of water for 15-20 minutes. Remove contact lenses, if present. After the initial 5 minutes, flush with continuous irrigation. Call a poison control center or doctor for treatment advice. Eye Safety Clothing: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Inhalation: If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Skin/Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water or give a few small sips of milk if person is not breathing. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going to treatment. Note to Physician: Prolonged contact may cause burns. Consider use of systemic agents. In CASE OF MEDICAL EMERGENCY CALL 1-800-999-SPA-FROG.

Product Description: Use the SPA FROG® Bromine Cartridge in the SPA FROG® In-Line System only within the SPA FROG Mineral Cartridge (SPA Reg. No. 53735-11) for complete and easy spa care with your spa's crystal clear and odor-free water. Directions for Use: It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label to use strictly in accordance with precautionary statements and directions. Ensure all spa equipment is working properly. The pump and filter should be operated for at least 3 hours per day. Clean filter following manufacturer's directions. Adjust flow to between 7.2 to 8.6 and total alkalinity to 40-120 ppm. When using other products as outlined in directions for this product, always follow directions on those products. Keep the spa free of leaves and debris. Residual spa and hot tub should be drains and filled with fresh water periodically. See your spa manufacturer's directions. Compared to the 200 gram SPA FROG® Bromine Cartridge.
