OUTDOOR USE:
Cockroaches, Earwigs, Grasshoppers, Ants, Crickets and other crawling insects: Lightly coat a thin layer of INSECT DUST on areas where these insects are found such as patios, outdoor sills, window and door frames. Dust around foundations, along ant trails and around sewer pipes and drains. Repeat treatment as necessary.

FLEAS:
• Thoroughly treat floor and bedding in and around pets' sleeping quarters. Treat surrounding cracks and crevices, baseboards, carpeting and wherever fleas are suspected.

CARPET BEETLES:
Dust along baseboards, carpet edges, under carpeting, furniture, in closets and shelving where these insects are suspected.

Manufacturer makes no warranty, expressed or implied, regarding the use of this product for any purpose other than those described on the label.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye irritation. Avoid contact with eyes. Use adequate ventilation and avoid breathing dust. Wear a suitable face mask when using the product during prolonged exposure.

FIRST AID
IF IN EYES:
• Hold eye open and rinse slowly with plenty of water for 15 minutes, keep raised above heart level if possible. If symptoms persist: call a poison control center or doctor.

STORAGE AND DISPOSAL
STORAGE:
• Keep in cool, dry area.

IF EMPTY:
• Do not reuse this container. Place in trash or offer for recycling if available.

IF PARTLY FILLED:
• Call your local waste agency for disposal instructions. Never place unused product into any water, sewer or drainage system.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

ST. GABRIEL LABORATORIES INSECT DUST Diatomaceous Earth is a mechanical insect killer. Insects cannot become immune to its action. Insects come in contact with this powder and die within 48 hours.

INDOOR AND OUTDOOR APPLICATIONS

ST. GABRIEL LABORATORIES INSECT DUST is intended for application with a hand duster, powder duster or other similar means for application to areas where crawling insects are found. Apply INSECT DUST to cracks and crevices with the use of a bulbous duster or other suitable equipment. Apply lightly and uniformly.

INDOOR USE:
Cockroaches, Ants, Earwigs, Millipedes and Centipedes, crickets and silverfish. Lightly coat a thin layer of INSECT DUST powder where these pests are found or may hide such as cracks and crevices, behind and beneath refrigerators, cabinets, stoves, garbage areas, and in and around sewer pipes and drains, window frames and in attics and basements. Dust insects directly if possible. Repeat application regularly.
