PRECAUTIONARY STATEMENTS: HAZARD TO PERSONS AND DOMESTIC ANIMALS.

CAUTION: Harmful if inhaled. Causes moderate eye irritation. Avoid breathing spray mist. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing before reuse.

FIRST AID STATEMENTS: IF INHALED: Move person to fresh air if person is not breathing, call 911 or an ambulance, or give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

PHYSICAL OR CHEMICAL HAZARD: Contains under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in a cool area away from heat or open flame. DISPOSAL: Do Not Puncture or Incinerate! IF EMPTY: Pile in trash or offer for recycling if available. IF PARTIALLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SURFACE DISINFECTANT: Disinfects and decontaminates surfaces through effective bactericidal and fungicidal activity. Kills Methicillin Resistant Staphylococcus aureus (MRSA), (ATCC 33502), Vancomycin resistant Enterococcus faecalis (VRE), (ATCC 51299), Community Acquired Methicillin Resistant Staphylococcus aureus (CA-MRSA), (NARSA NR123), (Genotype USA400), Pseudomonas aeruginosa (ATCC 15442), and Klebsiella pneumoniae methicillin-resistant penicillin tolerant (KPC) (ATCC 60419) on hard, nonporous surfaces. Controls oocytes. A tuberculocidal agent against Mycobacterium bovis (BCG) (ATCC 35735) when used undiluted at a contact time of 10 minutes at 25°C. "Kills HIV-1 (AIDS virus) (donates HTLV II B)". Influenza A2 England Virus and Hepatitis simplex virus type 1 and type 2 on inanimate hard and soft surfaces. Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by influenza A virus. This product is a broad-spectrum hard surface disinfectant that has been shown to be effective against influenza A virus tested and listed in the label and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu). Effective when listed by the AOAC Gamble Method. This product may be used in hospitals. DIRECTIONS FOR USE: Dilute well before using. For use in hospitals and homes as a hard, surface disinfectant decontaminates on walls, floors, bedding, utensils, furniture, fixtures, toilet seats, diaper pins, examining tables, telephones, sinks, drainboards, counters, exterior surfaces of toilets, exterior surfaces of refrigerators, garbage cans, bathtubs, hamper, plant pins, walls.

Prevents Mold and Mildew
On Hard Nonporous Surfaces

FOR SURFACES TO DISINFECT AND DEODORIZE: Clean polishes from surfaces to be treated. Remove protective cap, hold can upright and spray from a distance of 6 to 8 inches until area for treatment is thoroughly moistened. Allow surfaces to remain wet for a minimum of 10 minutes to ensure disinfection. Allow to air dry or remove excess solution. Food contact surfaces must be thoroughly sanitized with detergent and rinsed with potable water prior to reuse. Do not use on drains, grates, or utensils.

This product is not to be used as a terminal sterilizing/ high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contains intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

For Control of Mold and Mildew on Hard, Non-Porous Surfaces: Clean surfaces prior to application, then spray surface until thoroughly moistened. Allow to dry. Repeat application in 14 days or when growth reappears. To Disinfect Veterinary Office and Animal/Pet Areas: Removes all animals and feed from premises, vehicles, cages, kennels, etc. Remove all litter, droppings, and manure from floors, walls, and surfaces of facilities occupied or invaded by animals. Empty feeding and water appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Hold container upright about 6" from surface. Spray to thoroughly wet hard, nonporous surfaces. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Thoroughly clean and wash equipment and use equipment until treatment has been absorbed, oil, dirt, and grime. Thoroughly scrub and wash equipment with soap or detergent, and rinse with potable water before use.
