This product is designed specifically as a general non-acidic, ready-to-use cleaner and disinfectant for use in hospitals, nursing homes, schools, transportation terminals, office buildings, manufacturing facilities, lodging establishments, retail businesses and all other recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floor, wall, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. For plastic and painted surfaces, test on an inconspicuous area before use. May be used in the kitchen on counters, sinks, appliances, and stovetops. A rinse with potable water is required for surfaces in direct contact with food. In addition, this product deodorizes those areas which generally are held to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms.

This product contains no phosphates or phosphorus.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product is not for use on critical or semicritical medical device surfaces.

DISSOLUTION, DETERGENTING AND CLEANING - Remove gross dirt or heavy soil prior to application of the product. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow product to penetrate and remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for 10 minutes). No scrubbing is necessary. Rinse with a clean cloth, mop or sponge. The product will not leave grift or soap scum.

One-step cleaning and disinfection of toilet bowls and urinals: Remove water from bowl by forcing water over trap with a swab mop applicator. Press swab mop against side of the bowl to remove excess water from applicator. Apply 1 to 2 ounces of product per square foot. Allow sufficient time for product to cover entire surface of bowl for maximum cleaning. Swab bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for 10 minutes). Rinses with clean water and flush. Use in a hospital or institutional setting.

Using approved AOAC test methods (Food and Drug Administration) in the presence of 5% blood serum, the product kills the following organisms on hard, non-porous, inanimate surfaces:

**BACTERIAL ACTIVITY** - Pseudomonas aeruginosa (ATCC 6002), Escherichia coli (ATCC 25922), Staphylococcus aureus (ATCC 25923), Enterococcus faecalis (ATCC 51292), Corynebacterium ammoniagenes (ATCC 12106), and Listeria monocytogenes (ATCC 76407).

**ANTIBIOTIC-RESISTANT BACTERIAL ACTIVITY** - Methicillin-resistant Staphylococcus aureus (ATCC 29213), Vancomycin-resistant Enterococcus faecalis (VREF, ATCC 51297), and Staphylococcus aureus (ATCC 25923).

**VIRUCIDAL ACTIVITY** - Poliovirus type 1 (ATCC VR-2000), Rhinovirus type 39 (ATCC VR-2440), and Rotavirus (ATCC VR-2440) for 3 minutes. HIV-1 (isolates 99R) and HIV-2 (isolates 81TH) for 10 minutes. In addition, the product rapidly inactivates influenza A (H1N1), influenza A (H3N2), and SARS-CoV-2 for 10 minutes. In addition, the product rapidly inactivates influenza A (H1N1), influenza A (H3N2), and SARS-CoV-2 for 10 minutes.

**KILLS HIV-1, HBV AND HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES** - Objects previously soiled with blood/body fluids in healthcare settings (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces with blood or body fluids, and in which the aircraft is likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS, Hepatitis B Virus (HIV-2), and Hepatitis C Virus (HCV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV AND HCV OF SURFACES SOILED WITH BLOOD/BODY FLUIDS** - PERSONAL PROTECTION: When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks, and eye coverings.

**CLEANING PROCEDURES** - Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the product.

**CONTACT TIME** - Allow surface to remain wet for HIV and HCV 5 minutes, for HIV 1 minute. These contact times will not control other common types of viruses and bacteria.

**DISPOSAL OF INFECTIONAL MATERIALS** - Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**HILDEBRANT** - To control mold and mildew on pre-cleaned, hard, non-porous surfaces, spray surface to be treated making sure to get wet completely. Let air dry. Repeat application at weekly intervals or when mold growth appears.

**FUNGICIDAL ACTIVITY** - This product is fungicidal against the pathogenic fungus, Trichophyton mentagrophytes (ATCC 9800), and Aspergillus fumigatus (ATCC 20349).

**EFFECTIVE TESTS HAVE DEMONSTRATED THAT THIS PRODUCT IS AN EFFECTIVE BACTERICIDE, FUNGICIDE, AND VIRUCIDE IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**KEEP OUT OF REACH OF CHILDREN**

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

**FIRST AID** - Treat the product container or label with you when calling a poison control center or doctor, or going for treatment. If in eyes: Hold open eye and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first minute, then continue rinsing. Call a poison control center or doctor for treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. If in contact with skin or clothing: Remove contaminated clothing. If on skin: Wash with plenty of soap and water. If on clothing: Remove clothing and wash with plenty of soap and warm water.

**NOTE TO PHYSICIAN** - Fracal mucosal damage may contraindicate the use of gastric lavage.

**STORAGE AND DISPOSAL**

DO NOT CONTAMINATE WATER, FOOD OR FUEL BY STORAGE OR DISPOSAL.

**PESTICIDE STORAGE** - Store in a dry place in temperatures less than 40°F or greater than 120°F.

**PESTICIDE DISPOSAL** - Pesticide wasters are acutely hazardous. Improper disposal of excess pesticide, spray mixtures, or residuals is a violation of Federal Law. These wastes cannot be disposed of by use according to label instructions. Contact your State Pesticide or Environmental Control Agency for directions on responsible disposal. For storage in the basement or near EPA Regional Office for guidance.

**CONTAINER DISPOSAL** - Nonrefillable container. Do not melt or spill container. Clean container promptly after emptying. If residue is present, fill container with low fuel and recoup. Contact immediately. Follow Pesticide Disposal Instructions for residual disposal. Drain for 10 seconds after the few seconds to drip. Repeat process two more times. Offer for recycling or reconditioning, if available. If not available, puncture and dispose in a sanitary landfill.
