PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin or inhaled.
Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear goggles, safety glasses or face shield when handling. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE):
Handlers must wear long-sleeved shirt and long pants, closed toe shoes, gloves or face shield, and chemical resistant gloves (such as barrier laminate or Isabel rubber, nitrile rubber, neoprene rubber, polyvinyl chloride, or cotton at 14 mils).
Users should remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and put on clean clothing.
Follow manufacturers’ instructions for cleaning/maintaining Personal Protective Equipment (PPE). If no such instructions for washables use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Have person to fresh air. If the person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice.
FOR EMERGENCY MEDICAL INFORMATION IN USA OR CANADA, CALL: 1-800-225-5322.
FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE, CALL: 1-651-225-5322 (ON THE USA).
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
NOTE TO PHYSICIAN: Probable muscular damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Store in securely closed original container. Avoid storage at temperature extremes or in direct sunlight.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL: Do not reuse empty container. Wrap container and put in trash.
*Classified by Underwriters Laboratories Inc., as to electrical conductivity when used on conductive floors and spontaneous heating.
23 TB Disinfectant & Deodorizer for use with listed electrically conductive flooring of the vinyl type; 373Y
EPA Reg. No. 307-225-1073
The superscript refers to the first letter of the date code.

**23 TB Disinfectant & Deodorizer**

**PSEUDOMONACIDAL • STAPHYLOCOCCIDAL • TUBERCULOCIDAL • VIRUCIDAL**

**23 TB Disinfectant & Deodorizer** is a multi-purpose germicidal detergent tested by the AGAC Use-dilution Method in the presence of 5% organic bioload (Fetal Bovine Serum).

23 TB Disinfectant & Deodorizer’s formula disinfects, cleans and deodorizes in one labor-saving step.

23 TB Disinfectant & Deodorizer’s is effective against Norovirus (Norwalk-like viruses) at a dilution of 2 oz per gallon of water when the treated surface is allowed to remain wet for 10 minutes.

23 TB Disinfectant & Deodorizer is effective when diluted at 1 oz per gallon of water against the following pathogenic organisms:

- **Pseudomonas aeruginosa**
- **Salmonella enterica**
- **Staphylococcus aureus**
- **Pseudomonas cepacia**
- **Proteus mirabilis**
- **Enterobacter cloacae**
- **Klebsiella pneumoniae**
- **Enterobacter aerogenes**
- **Acinetobacter baumannii**
- **Acinetobacter Iwoffii**
- **Enterobacter cloacae**
- **Klebsiella pneumoniae**
- **Providencia rettgeri**

**APPLICATION:** Use 1 ounce of 23 TB Disinfectant & Deodorizer per gallon of water for a minimum contact time of 10 minutes in a single application. For disinfecting, remove gross soil and heavy soil deposits, then thoroughly wet surfaces. 23 TB Disinfectant & Deodorizer is a multi-purpose germicidal detergent and can be applied with a mop, sponge or cloth; or by spraying. The recommended use solution is used once and discarded. Rinsing is not necessary on floor surfaces unless floors are to be waxed or polished.

23 TB Disinfectant & Deodorizer is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical devices prior to sterilization or high-level disinfection.

**TUBERCULOCIDAL:** This product is tuberculocidal diluted 2 ounces per gallon of water with a 10 minute contact time at 20°C. Apply as directed above.

**KILLS HIV-1 (AIDS VIRUS) ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS**

**PERSONAL PROTECTION:** Disposable latex or vinyl gloves, gowns, face masks, or eye coverings must be worn during all cleaning of body fluids, blood, and decontamination procedures.

**CLEANING PROCEDURE:** Blood/body fluids must be thoroughly cleaned from surfaces and objects before application of 23 TB Disinfectant & Deodorizer. This cleaning may be accomplished with any cleaning solution, including this product.

**CONTACT TIME:** 10 minutes.

**DISPOSAL OF INFECTION MATERIALS:** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal. For service or additional information, call 1-800-35-CLEAN (352-3328).

---

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**GENERAL PRECAUTIONS**

Do not apply this product in a way that will contact other persons. Only protected handlers may be in the area during application. Following application as a low-pressure or high-pressure spray, do not enter or allow others to enter until sprays have dried.

**FOR DISINFECTING**

USES: For use in hospitals and nursing homes, medical and dental offices, schools and colleges, and ships. For use on washable, soiled surfaces such as floors, walls, finished woodwork, chairs, countertops, fixtures, cabinets, examining tables, surfaces made of vinyl, plastic, metal, stainless steel and other hard, non-porous surfaces.
