Osmose®
COP-R-NAP™ WP

ACTIVE INGREDIENT: Copper naphthenate 68.00%
(Copper, as Metal 81%)
INSERT INGREDIENT: 32.00%
TOTAL 100.00%

CONTAINS PETROLEUM DISTILLATES
KEEP OUT OF REACH OF CHILDREN
WARNING
See other precautionary statements on side panel.

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.
IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.
IF INHALED: Remove to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth.
IF SWALLOWED: Do not induce vomiting. Get medical attention.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes skin and eye irritation. Wear goggles, face shield, or safety glasses. Remove contaminated clothing and wash before reuse. Prolonged or repeated skin contact may cause allergic reactions in some individuals. Do not get in eyes, on skin or on clothing. Harmful if swallowed or inhaled. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling.

Do not breathe vapors or mist during brush, roll, spray, and dip applications. Wear a NIOSH/MSHA approved respirator when spraying for continued or prolonged use of this product or for frequent use of this product.

In case of medical questions, emergencies, or accidents involving this product, call CHEMTREC at 1-800-424-9300. Application of this product may produce a strong, lingering, unpleasant odor.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Use only the application method specified for a particular use. For Exterior Use Only, COP-R-NAP WP must be diluted before use with solvents such as mineral spirits, diesel fuel, mineral oil, etc. or solvents meeting AWA Standard P-99® to protect treated items against deterioration by rain, mold and decay/leakage, moos, mildew, termites, wood-destroying beetles and carpenter ants. COP-R-NAP WP may be applied to wood products such as lumber, posts, poles, siding, boats, piers, docks, boxes, roof shakes and shingles, porches, steps, fence pickets and rails, beverage cases; and for ornamental planting landscape timbers, wooden seeding trays, plant and flower boxes. Wood treated with COP-R-NAP WP is NOT suitable for food garden uses. Effective application rates vary according to severity of conditions to which the treated product is exposed. Wood to be treated should be thoroughly seasoned and free of bark. Do not apply at sites on or near water or wetlands. Wood treated with COP-R-NAP WP should not be used where it may come in contact with food, feed or potable water.

FOR TREATMENT BY SPRAYING, DIP, ROLLED, AND BRUSH

ABOVE GROUND CONTACT

For above ground exposure, brush, roller, spray or dip applications of solutions containing 1 or 2 percent copper metal are adequate for wood in non-critical applications. Dilute COP-R-NAP with 3.0–3.8 volumes of solvent (depending upon density of diluent) to obtain 2% copper metal or 7.5–8.0 volumes of solvent (depending upon density of diluent) to obtain 1% copper metal.

COVERAGE: One gallon covers 100–300 sq. ft. depending upon the wood species, porosity of the wood, and method of application.

FOR PRESSURE TREATMENT

ABOVE GROUND CONTACT

For wood used above ground in critical (structural) applications or under more severe exposure conditions where it is subject to extended periods of wetting, extended soaking or pressure treatment is accordance with AWA Standards with a solution containing 0.5 to 1.0 percent copper metal to a retention in the wood of 0.04 to 0.06 pounds copper metal per cubic foot is recommended.

GROUND CONTACT

For wood intended for ground contact, treat according to AWA Standards® with a solution containing 0.75 to 1.0 percent copper metal to a retention in the wood of 0.055 to 0.15 pounds copper metal per cubic foot.

FOR REMEDIAL TREATMENTS

COP-R-NAP WP solutions of 2% copper metal may be used for external remedial treatments of standing wood poles, piling and other existing structures.

COP-R-NAP WP may be used by formulators as an active ingredient source for ready-to-use pesticide products registered with the US Environmental Protection Agency. Products formulated or repackaged from this product must be labeled for "Exterior Use Only" and must bear all statements listed under the section entitled Precautionary Statements and the repackager(s) or formulator(s) telephone number.

*American Wood Preservers’ Association

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

STORAGE: Store at temperature between 0°F and 120°F. Store in original container only. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide concentrate solution or rinse that cannot be used or chemically reprocessed should be disposed of according to procedures approved by Federal, State or local authorities.

CONTAINER DISPOSAL: Plastic containers – Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke; or Metal Containers – Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL: Consult Federal, State or local disposal authorities for approved alternative procedures.
