FASTSTRIKE®

Modified Vegetable Oil and Surfactant Blend

PRINCIPAL FUNCTIONING AGENTS:
Methylated vegetable oil, polyether modified polysiloxane, alkylphenol ethoxylate .................. 99%
Constituents ineffective as spray adjuvants. ........................................ 1%
TOTAL ................................................................................. 100%

All ingredients are exempt from tolerance requirements under 40 CFR, 180.
CA Reg. No. 7001-50008
WA Reg. No. 7001-09005

CAUTION
KEEP OUT OF REACH OF CHILDREN

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wear chemical resistant gloves when mixing or handling product. Wash thoroughly with soap and water after handling.

FIRST AID
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Manufactured For:

Simplot

FASTSTRIKE®

GENERAL INFORMATION

FASTSTRIKE is a unique blend of highly refined and modified spray oil and nonionic organosilicone. FASTSTRIKE’s unique chemistry allows for enhanced wetting and absorption of those pesticides or products which labels recommend the addition of a spray adjuvant to improve performance. The addition of FASTSTRIKE to a spray tank solution will improve a spray application by physically modifying the wetting and spreading characteristics. The result is a more uniform spray deposit. Observe the initial application to insure thorough coverage without excessive runoff of the spray.

DIRECTIONS FOR USE

FASTSTRIKE is intended for use with pesticides that are labeled for agricultural and non-agricultural uses. Not for aquatic use.

The use of FASTSTRIKE can increase pesticidal activity where the following factors occur, but is not limited to: (1) Low humidity and high temperatures; (2) low water volume rates of less than 15 gallons per acre; (3) When target species are larger than the label recommendations at time of application.

MIXING

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water and begin agitation. If foaming is anticipated the addition of an antifoaming agent should be added before pesticides, nutrients, or FASTSTRIKE. Add pesticides and/or fertilizers as directed by label or in the following sequence: A. Micronutrients and fertilizers, B. Dry flowables and dispersible granules, C. Flowables, D. Water soluble pesticides, E. Emulsifiable concentrates. Continue agitation and add FASTSTRIKE, when completed, reduce agitation and allow to mix for 1 to 2 minutes. While under minimal agitation, continue filling tank and allow to mix for 10-15 minutes prior to application.

NOTE: For optimum results, spray mixes containing FASTSTRIKE should be applied within 36 hours.

RECOMMENDED RATES

<table>
<thead>
<tr>
<th>APPLICATION</th>
<th>RATE PER 100 GALLONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aerial:</td>
<td>6 - 16 pints</td>
</tr>
<tr>
<td>Ground:</td>
<td>3 - 5 pints</td>
</tr>
</tbody>
</table>

NOTE: The application rates on this label are based on pesticide labels which recommend the use of a nonionic surfactant. Rates of this product may be increased or decreased for optimum results, follow pesticide labeling for proper recommendations. Before using FASTSTRIKE where a nonionic surfactant may not be recommended the user or applicator advisor must have experience with the combination or must have conducted a phytotoxicity trial.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Do not store near heat or open flame. Store in original container.

Pesticide: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.
DISCLAIMER OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
