GENERAL USE INFORMATION - Home and Garden
Serenade Garden Disease Control Ready To Use (RTU) is a broad spectrum, preventative biofungicide recommended for the control or suppression of many important plant diseases and may be used on roses, vegetables, fruits, nuts, flowers, houseplants, foliage, trees, shrubs located in residential landscapes, residential greenhouses, commercial landscapes, and commercial interior spaces.

APPLICATION INSTRUCTIONS - Home and Garden
Shake well before using. Spray leaves, stems and new shoots to runoff providing complete coverage of the entire plant. For best results, treat prior to foliar disease development or at the first sign of foliar disease infection. Repeat at 7-day intervals or as needed. Under conditions of high disease pressure, when environmental conditions favor rapid disease development (high humidity, excessive rain, extreme moisture condition, etc.) shorten the spray interval. Do not water foliage within 4 hours of application.

Serenade Garden Disease Control Ready To Use can be applied up to and including the day of harvest.
