**EMERGENCY INFORMATION**

Seek medical care as soon as possible after exposure. For incidents involving animals, seek veterinary care as soon as possible after exposure. Have the product container or label with you when calling a poison control center or doctor or veterinarian, or going for treatment.

**FOR THE FOLLOWING EMERGENCIES, PHONE 24 HOURS A DAY:**
For Medical Emergencies phone: 1-888-681-4261
For Transportation Emergencies, including spill, leak or fire, phone: CHEMTREC®
For Product Use Information phone: AMVAC®

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans & Domestic Animals**

**IMPORTANT:** This product can be harmful to children and fatal to domestic animals when ingested. Children and dogs may be attracted to the product. Application of this product is prohibited unless the treated area can be excluded from the treated area from the start of the application until applied material is no longer visible. Treated area from the start of the application until applied material is no longer visible.

CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust.

**Engineering Controls**

When handlers use closed systems or enclosed cabs in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides, this product may be applied for State and/or Federal invasive mollusk eradication operations. This product is toxic to mollusks (e.g., clams, oysters, scallops, mussels) and has an adverse effect on other aquatic life. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Treatment is symptomatic and supportive. If significant ingestion is suspected, call a poison control center or doctor for further treatment advice.

**AGRICULTURAL USE REQUIREMENTS**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification of emergency assistance, and worker protection. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted entry interval. The requirements in this box only apply to users of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. Exception: if the product is soil-injected or soil-incorporated, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated areas without restriction if there will be no contact with anything that has been treated.

PPE required for entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water, is:

- **Coveralls**
- **Shoes plus socks**
- **Chemical-resistant gloves made of any waterproof material**

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to mollusks (e.g., clams, oysters, scallops, mussels). Do not apply directly to water, to areas where water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinse water. This pesticide is toxic to birds and mammals. Granules on soil surface may be hazardous to terrestrial wildlife. Cover or collect any such materials spilled during loading.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

This product is intended solely for use on agricultural crops grown for commercial or research purposes, and in State and/or Federal invasive mollusk eradication operations. This product may not be applied to residential sites (i.e., in yards, gardens, around homes and apartments) and other sites such as the exterior areas around schools and daycare facilities, and athletic fields, playgrounds, parks, recreation areas, etc.

Broadcast applications and applications of this product directed to plant parts are prohibited except to grass grown for seed, tano, corn, soybean, and as specified for use in State and/or Federal invasive mollusk eradication operations.

**USER SAFETY RECOMMENDATIONS**

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product.
- Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

- Long sleeved shirt and long pants
- Chemical resistant gloves (such as or made out of any waterproof material, selection category A)

**USER SAFETY RECOMMENDATIONS**

**ENGLISH**

**FIRST AID**

If swallowed:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or ambulance, then give artificial respiration, preferable mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

**WARNING:** This pesticide is toxic to mollusks (e.g., clams, oysters, scallops, mussels). Do not apply directly to water, to areas where water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinse water. This pesticide is toxic to birds and mammals. Granules on soil surface may be hazardous to terrestrial wildlife. Cover or collect any such materials spilled during loading.

**FOR STATE & FEDERAL INVASIVE MOLLUSK ERADICATION OPERATIONS**

This product may be used only on the following use-sites in response to State and/or Federal invasive mollusk eradication operations.

RESTRICTIONS

- This product is intended solely for use on agricultural crops grown for commercial or research purposes, and in State and/or Federal invasive mollusk eradication operations.
- This product may not be applied to residential sites (i.e., in yards, gardens, around homes and apartments) and other sites such as the exterior areas around schools and daycare facilities, and athletic fields, playgrounds, and recreation areas, etc.
- Wide area broad applications and applications of this product directed to plant parts are prohibited except to grass grown for seed, taro, corn and soybean and as specified for use in State and/or Federal invasive mollusk eradication operations.
- Do not allow bait pellets to come in contact with plant parts except to grass grown for seed, taro, corn, soybean, and as specified for use in State and/or Federal invasive mollusk eradication operations.
- Use as a baiting treatment to be applied directly to the soil area beneath listed plants except to grass grown for seed, taro, corn, soybean and as specified for use in State and/or Federal invasive mollusk eradication operations...
- Read entire label before using.
- Use as band treatment between rows except to grass grown for seed, taro, corn, soybean and as specified for use in State and/or Federal invasive mollusk eradication operations.
- Do not re-water for 48 hours after application.
- Apply any time of day, but evening applications are preferred.
- Do not use in or around Hawai‘i. Kaua‘i (USFW Refuge)

APPLICATIONS

Apply as a soil surface treatment. Use a band treatment between the plant rows. Apply around the crops listed below to protect from slugs and snails.

*Broadcast application to be made during flooded conditions only. Prior to bait application, the water flow into and out of the lo‘i (paddy) should be at a trickle level, and the water level should be high enough such that apple snails don’t estivate. Apply the bait and hold/impo the water for a minimum of 3 days before allowing water to exit the lo‘i. If no feeding occurs, apply more than one application per held/impoed water. If the water level in the lo‘i becomes too low within the 3 day holding period (due to faster percolation of water through the soil), such that apple snails begin to estivate, allow additional water into the lo‘i.
