PRECAUTIONARY STATEMENTS

Hazard to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Avoid breathing dust. May cause eye irritation. Avoid contact with skin, eyes or clothing. This pesticide may be fatal to children and dogs or other pets if eaten. Keep out of reach of children and pets, poultry and livestock. Keep children, dogs and other pets out of treated areas.

IMPORTANT: Keep product away from children, dogs and pets. Bat may be attractive to dogs. Confines pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:
• Long-sleeved shirt and long pants
• Shoes plus socks

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDIONS

User should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

For terrestrial use, do not apply directly to water or to areas where surface water is present or to riparian areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to users of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural crops on farms, forests, nurseries, or greenhouses. This pesticide may be fatal to children, dogs, or other pets if eaten. Keep children and pets out of treated areas.

The presence of slugs and snails can be detected by their shiny mucous trail. They are night feeders and prefer cool, damp places. They are often found hiding in the lawn. Apply as a soil surface treatment. Do not mix with any seeds prior to application.

ORNAMENTALS & LAWNS: Ornamental plantings including trees, shrubs, annual and perennial flowers, ground covers, dichondra, lawns and around building foundations: Scatter bait uniformly at 1 lb per 2,200 - 4,400 sq. ft, approx 5 - 12 pellets per square foot (see table below). Repeat treatment as necessary to maintain control. DO NOT place pellets in piles.

Apply this product in areas likely to be infested at the beginning of the spring planting season before storage occurs and as needed during periods of damp weather. May be used as a pre-emergence treatment to prevent invasion of slugs and snails from neighboring properties. For best results, apply in evening. Especially beneficial if applied following rain or watering since slugs and snails will crawl over dry soil. Apply every 2 to 4 weeks during growing season, or as needed. Prior experience has shown most plants are not sensitive to Deadline® T&O. However, for extremely tender plants such as orchids, it is suggested to do a small test application to determine any plant sensitivity before making a broad application over plants.

STORAGE AND DISPOSAL

Storage: Do not contaminate water, food, or feed by storage or disposal. Use product only from original container & keep in locked storage away from children & pets. Keep container tightly closed when not in use. Do not store near feed or food. Pesticide Disposal: Waste resulting from the use of this product may be disposed of on site or at a approved waste disposal facility. Dispose of empty or used pesticide containers in an approved manner.

Properly Disposal: Completely empty bag into application equipment. Then dispose of empty bag in sanitary landfill or incineration, if allowed by state and local authorities, by burning if burned, stay out of smoke.
