RIPTIDE® Waterbased Pyrethrin ULV

- Kills flying insects
- Kills biting flies
- Kills mosquitoes that may transmit West Nile virus & Chikungunya virus
- Kills crawling insects

ACTIVE INGREDIENTS:
- Pyrethrins ........................................ 5.00%
- *Piperonyl butoxide ................................ 25.00%
- OTHER INGREDIENTS ............................. 70.00%
- *(butylcarbityl) (6-propylpiperonyl) ether and related compounds

RIPTIDE® MGK® - Registered trademarks of McLaughlin Gormley King Company

FIRST AID
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-770-8772.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through skin. Avoid contact with skin or clothing.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinseates.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. SEE BOOKLET FOR DIRECTIONS FOR USE.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food. PESTICIDE DISPOSAL: To avoid waste, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry). CONTAINER HANDLING AND DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill. Triple Rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¾ full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

INDOOR AREAS for use in and around:

OUTDOOR AREAS for use in and around:

FOR USE ON: Beef, Emus, European Red Pheasants, Pigs, Poultry

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

ирpatible with: clothing, avoid contact with skin or clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Mixes, leaders, sprinklers, and other fillings must wear the following:
- long-sleeved shirt
- long pants
- chemical-resistant gloves made of barrier laminated, nitrile rubber, neoprene rubber, polyvinyl chloride or vinyl, and
- shoes and socks.

In addition to the above PPE, applicators using a high pressure hand wand in an enclosed area must wear at least a NIOSH-approval respirator with:
- a dust mask with a NIOSH-approval number prefix TC-21C or
- any R, P, or HE filter.

In addition to the above PPE, applicators using handheld foggers in an enclosed area must wear a half-face, full-face, or box-type NIOSH-approval respirator with:
- a dust/mist filtering cartridge (MSK140/NIOSH approval number prefix TC-21C), or
- a canister approved for pesticides (MSK140/NIOSH approval number prefix TC-140), or
- a cartridge or canister with any R, P, or HE filter.

USE SAFETY REQUIREMENTS
User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User should only remove clothing/PPE if able to peel off it. Then wash thoroughly and put on clean clothing. User should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. Do not reuse them.

USE RESTRICTIONS
- Do not contain
- Do not use for Indoor R
- Remove or cover
- Remove or cover surfaces, or was
- Remove pets as required.

ENTRY RESTRICTI
For surface spray use:
- Except when access is required, spray from a distance no
- Do not enter or use while the treated application
- Do not apply or spray application, all food products
- Do not apply or spray application, all food products
- Do not apply or spray application, all food products
- Do not apply or spray application, all food products
- Do not apply or spray application, all food products
- Do not remain in the area until residue

APPLICATION REST
- Do not apply or spray application, all food products
- Do not apply or spray application, all food products
- Do not apply or spray application, all food products
- Do not apply or spray application, all food products

FOR USE ON: Beefsteak, Birds, Buffalo, Cattle, Cattle (beef milking), Chickens, Dorykins, Ducks, Emus, European Red Deer, Exotics, Geese, Horses, Lambs, Llamas, Mules, Ostrich, Oxen, Phasianus, Pigs, Pony, Puffer, Quails, Rabbits, Roosters, Sheep, Swine, and Turkeys.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:
- Do not contaminate food or feedstuffs.
- Not for indoor Residential Use.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.
- Remove pets and birds and cover fish aquariums before spraying. Avoid exposing reptiles to this product.

ENTRY RESTRICTIONS:
- Except when applying to livestock, do not enter or allow others to enter treated area until sprays have dried.

FOR SPRAY USE:
- Do not enter or allow others to enter until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.

APPLICATION RESTRICTIONS:
- Do not apply space spray while food processing is in operation. Prior to space spray application, cover or remove food. Prior to space spray application, cover or remove all food processing surfaces or clean after treatment and before use. Thoroughly wash all food processing surfaces before reuse. After spraying in bakeries, meat packing plants, food processing plants, etc., all benches, shelving, equipment, etc. where exposed food will be handled must be washed with an effective cleaning compound followed by a potable water rinse to remove all traces of contamination.
- Do not apply directly to food, food or feed supplements. Do not contaminate milk or milk handling equipment. Wash udder and teats of dairy animals before milking.
- Except when applying to livestock, do not apply this product in a way that will contact worker or other persons, either directly or through drift.
- When used in dairy barns or facilities: Close milk bulk tanks to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.
- Do not make space applications when facility is in operation.
- Prior to space spray applications, cover or remove food.
- Prior to space applications, cover food processing surfaces or clean after treatment and before use.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
  - Treatment to soil or vegetation around structures;
  - Applications to lawns, turf, and other vegetation;
  - Applications to building foundations, up to a maximum height of 3 feet.
- Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces such as windows, doors, and eaves are limited to spot and crack-and-crevice applications only.
- Do not make applications during the rain.
- Do not wet plants to the point of runoff or drip.
- Do not water the treated area to the point of runoff.
- Except when applying to sewers or drains as instructed on this label, do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.
- Do not use in aircraft cabins.
- When applying in dried fruit product storage areas, do not apply to fruit directly.

READ ALL DIRECTIONS COMPLETELY BEFORE USE AND FOLLOW ALL DIRECTIONS AND PRECAUTIONS WHEN USING PRODUCT.

Follow directions for specific use areas.

INDOOR USES:
- Not for indoor Residential Use.

INDOOR USE - UNLACED

USE IN SPACE SPRAY:
Use in aerosol generators to kill exposed accessible stages of:
- Flies (including Fruit Flies), Mosquitoes, Small Flying Flies, Moths, Gnats, Wasps, Hornets, Clover Mites, Cheese Mites, Cheese Skippers, Boxelder Bugs, Earwigs, Ants and the following common Stored Product Pests: Granary Weevils, Rice Weevils, Confused Flour Beetles, Sawtoothed Grain Beetles, Spider Beetles, Cigarette Beetles, Drugstore Beetles, Angoumois Grain Moths, Mediterranean Flour Moths, Indian Meal Moths, Tobacco Moths, Yellow Mealworms, Potato Bugs, Caddisflies, and Red Flour Beetles. Close room and shut off all air conditioning or ventilating equipment. Apply at the rate of 1 to 2 fluid ounces concentrate per 1,000 cubic feet of space. Direct spray towards ceiling and upper corners of room. Leave room closed for 1 to 2 hours and ventilate thoroughly before reentry.

CONTACT AND SPACE SPRAY:
- To kill Codenches, Silverfish, Earwigs, Ants, and Spiders; Use a mechanical aerosol generator or a fogger adjusted to deliver aerosol droplets. To provide maximum penetration and impact on the insects, first using no more than 17 fl. ounces of concentrate per 1,000 square feet, direct the spray into all cracks and crevices, behind all equipment, cupboards, obstructions or dark harborage areas, on walls and floors, underneath sinks, behind pipes, and in all places that harbor insects. Contact as many insects as possible. Do not allow spray to contact stored food. Then treat as a space spray, directing the spray to fluid ounce of concentrate room closed for 1 to 2 hours. Treated room may be opened immediately and used as normal.

DRIED FRUIT PRODUCED ALMOND, AMARETTO, ALMOND FLEUR DE SEL MEDITERRANEAN FLOUR BEETLES, WARMUP 1. Mist or fog in the air of concentrate per 1.

TREATMENT OF ST Stored grain, stored in Moths, Angoumois Skippers, Chocolate Dark, Mealworms, De Mites, Granary Weevils, Red Moths, Spiders, Spicy Rusty Grain Beetles, Nuts, Furniture, or treat a product intended for square feet, dispense with the package at a dosage of one (1) treated area and ven

ON PEANUTS, NUT (BIRDSEED MIXTURE)
OTHER PACKAGIN
- Granary Moths, Ants, Cigarette Beetles, Cc Beetles, Earwigs, Fire Beetles, Indian Meal Moths, Sawtoothed Yellow Mealworms, Beetles, Coffee Bean stored or bagged in. Also spray walls, files especially careful to spray by directing the obstructive. Apply at the rate of room space. Vaca
time per day. Do not potatoes.

INDOOR USE - DILUTED SPACE SPRAY:
- For stages of Almond Moths, Cheese Skippers, Beetles, D}
crevices, walls, floors, and other surfaces of bins and storage and handling areas. Particular attention should be paid to areas where moisture collects such as around drains, sinks, and water pans, around the base of heavy machinery and equipment contacting as many insects as possible.

**AINTS:** Spray directly into nests, along trails, and directly on all ants observed.

**FOR IN TRANSIT PROTECTION:** To control accessible stages of listed insects, clean and spray truck beds, boxes, and ship holds and other listed transit equipment before loading. Thoroughly treat walls and floors and spray each layer of crates or containers tightly as stacked. Dilute 3 fluid oz of concentrate with 1 gallon of water for each 1,000 sq. ft. of area to be treated.

**TREATMENT OF STORED GRAIN:** To control accessible stages of Indian Meal Moths and Angoumois Grain Moths: Dilute 3 ft. 3 oz. of product with 1 gallon for each 1,000 bushels of grain to be treated. Apply diluted spray to the surface of binned grain. Apply at monthly intervals with the first appearance of infestation. In severe infestation of flying moths, break up webbing with a rake before spraying and make a second application in two weeks. Do not reapply within 30 days.

**STORAGE AREAS FOR DRIED FRUIT PRODUCTS** for control of Confused Flour Beetles, Driedfruit Beetles, Indian Meal Moths, and Sawtoothed Grain Beetles. Remove and destroy infested products. Apply diluted spray as a fine mist in the air above the trays and shelves. Do not apply to fruit directly. Dilute at the rate of 1 part concentrate into 1 to 10 parts water and mix well. Use one (1) fluid ounce of diluted product per 1,000 cubic feet of space. Report application at this dosage in any given month. Leave the room closed for one (1) hour. Vacate treated areas and ventilate the area before re-entry. Sweep up and destroy fallen insects.

**FOOD STORAGE AREAS** containing multi-walled bags, cloth bags, and other packaging in warehouses, storage rooms, flour mills, grain elevators, granaries, and other listed areas for the control of Angoumois Grain Moths, Caddis, Confused Flour Beetles, Indian Meal Moths, Mediterranean Flour Moths, Rice Weevils, Sawtoothed Grain Beetles, Yellow Mealworms, Cheese Mites, Cheese Skippers, Cigarette Beetles, Grain Mites, Granary Weevils, Dark Mealworms, and Red Flour Beetles. Remove and destroy infested products. First disperse diluted spray by directing spray into corners, under pallets, and around stacks of packaged foods hitting as many insects as possible and then treat as a space spray. Infested stored products should be fumigated or treated by other effective methods using an approved product intended for this purpose. Dilute at the rate of 1 part concentrate into 1 to 10 parts water and mix well. Use at a rate of one to two (1-2) fluid ounces of diluted product per 1,000 cubic feet of space. Vacate treated areas and ventilate area before re-entry. This application will kill exposed stages of these stored product pests listed. Sweep up and destroy fallen insects.

**FOR USE ON ANIMALS:** To protect beef and dairy cattle and horses from Horn Flies, Houseflies, Mosquitoes, and Gnats, dilute 1 part concentrate with 49 parts water, mix well and apply a light mist sufficient to wet the legs of the hair. To control Stable Flies, Horse Flies, and Deer Flies on animals apply two (2) fluid ounces of diluted product per adult animal in an amount sufficient to wet the hair but not to soak the hide. Repeat treatment once or twice daily or at intervals to give continued protection. To control the moulting stages of Blood Sucking Lice: spray beef on beef and dairy cattle and other listed animals, apply the spray to thoroughly wet the hair. Use two (2) fluid ounces of diluted product or less per animal and repeat every 2 to 3 weeks as required. Do not apply more than 1 time per day.

To control Poultry Lice, spray roosts, walls and nests or cages thoroughly with a dilution of one (1) part concentrate with 25 parts water, followed by spraying over the birds with a fine mist. Do not apply more than 1 time per day.

**ANIMAL QUARTER USE – DAIRY AND BEEF FARMS, POULTRY HOUSES, SWINE HOUSING AND OTHER LISTED AREAS:** For use in and around listed areas to control accessible stages of Brown Dog Ticks, Clover Mites, Cockroaches, Crickets, Deer Flies, Earwigs, Face Flies, Fleas, Flies, Horn Flies, Horse Flies, Hornets, Mosquitoes, Silverfish, Small Flying Moths, Spiders, Stable Flies, Ticks, Wasps, Yellowjackets, Famila Flies, and Darkling Beetles. Apply as a space spray in conventional ULV cold aerosol generator or fogger adjusted to deliver aerosol size droplets. Whenever possible, perform space spray application in the late evening when insects are at rest. Apply undiluted at the rate of 0.25-1.0 fluid ounces per 1,000 cubic feet of space above the animals. This concentrate may also be diluted with water at the rate of one (1) part concentrate to 10 parts water and applied at the rate of 1-2. Fluid ounces of diluted product per 1,000 cubic feet of space above the animals. Direct spray toward the upper portions of the enclosure, above the animals, filling the room with mist or fog. Vacate treated area and ventilate before reoccupying. Do not apply more than 1 time per day.

**FOR USE ON AUTOMATIC ULV SPRAYING SYSTEMS, IN THE FOLLOWING AREAS:**

**ANIMAL QUARTERS, DAIRY AND BEEF FARMS, POULTRY HOUSES, SWINE HOUSING, WAREHOUSES, RESIDENTIAL BACKYARDS AND OTHER LISTED INDOOR AND OUTDOOR AREAS:**

When using this product, installers and service technicians must comply with the license, certification, or registration requirements of the state(s), tribe(s), or local authority(ies) where they are installed.

When applying via a remote activation device, do not apply when people and pets are present. If possible, when applying via automatic times, set the timing for application when people and pets are unlikely to be present.

Direct nozzles to spray towards the target area and away from areas where people are typically present.

Do not use in an evaporative cooling system.

Do not use in misters located within 3 feet of air vents, air conditioner units, or windows.

If used in a system with a reservoir tank for the end use dilution, the system reservoir tank must be locked, securely attach the end use pesticide label and a dilution statement to the reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be phrased as follows: This container holds ___ parts Riptide® Waterbased Pyrethrin ULV to ___ parts water. If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.

This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 1-2 fluid ounces of concentrate per 1,000 cubic feet of space above the animals.

**NOT REGISTERED for use in Automatic ULV Spraying Systems in the State of New York:**

Use to kill or temporally reduce annoyance from accessible stages of Brown Dog Ticks, Clover Mites, Cockroaches, Crickets, Deer Flies, Earwigs, Face Flies, Fleas, Flies, Horn Flies, Horse Flies, House Flies, Mosquitoes (including those that transmit West Nile virus), Silverfish, Small Flying Moths, Spiders, Stable Flies, Ticks, Wasps, Yellowjackets, Familia Flies, Darkling Beetles, and other nuisance insects.

Mix 1/4 gallon 64 fluid oz 0.045% Pyrethrins and treating species that a gallon of water to 15 fluid oz. When filling tank, part then fill rest of tank v (barrel or mix) to operate per minute, in operate in accordance.

**IWHY AREAS: USES, SWINE INSTED INDOOR**

- With the license, if you are a contractor or a professional, you may apply this product directly inside the building or structure. 
- If you are a homeowner, you may apply this product only to the exterior of the building or structure for the control of pests. 
- Excludes animals inside the building or structure that are not intended to be controlled by this product. 

**HIGH TEMPERATURES:**
- Concentrates can be used at high temperatures of 80°F or less. 
- Use directly or dilute with water as recommended. 

**Pest Control:**
- Ticks, Fleas, Mosquitoes, and Flying Moths. 
- Apply in accordance with the equipment directions.

**STORAGE AND DISPOSAL:**
- Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:**
- Store in a cool, dry place. Always store pesticides in the original container. 
- Store away from food and pet food.

**PESTICIDE DISPOSAL:**
- To avoid wastes, use all material in this container by application according to label directions. 
- If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

**CONTAINER HANDLING AND DISPOSAL:**
- Nonrefillable containers. Do not reuse or refill this container. 
- Triple rinse container (or equivalent) promptly after emptying. 
- Offer for recycling if available, or puncture and dispose of in a sanitary landfill.

**TEMPORARY REDUCTION OF ANNOYANCE:**
- From Flies, Mosquitoes, and Small Flying Moths. 
- The aforementioned outdoor ground application will give temporary relief of annoyance from these pests in listed outdoor areas. Direct application into tall grass, shrubbery, and around lawns where these pests may hover or nest. 
- Apply while air is still. 
- In areas such as zoos, cover water, drinking fountains, and animal feed before use.

**TO CONTROL PESTS ON SHRUBS, FRUIT, AND SHADE TREES:**

**Misting Instructions:**
- For shrubs and shade trees, follow directions on applicator to obtain four (6) Tons (2 fluid ounces) concentrate per gallon of water. 
- 1 tablespoon (Tbsp.) = 3 teaspoons (tsp.) 
- 1 fluid ounce = 2 Tbsp.

**How to Apply:**
- Spray to wet plant leaves and branches until dripping. Do not apply more than 1 time per day. 
- Do not apply more than 10 times per season.

**AROUND HOUSE FOUNDATION:**

**Misting Instructions:**
- For around house foundation follow directions on applicator to obtain four (6) Tons (2 fluid ounces) concentrate per gallon of water. 
- 1 tablespoon (Tbsp.) = 3 teaspoons (tsp.) 
- 1 fluid ounce = 2 Tbsp.

**How to Apply:**
- To keep insects from entering the house, spray a fine (5) foot broad of soil around the house next to the foundation. 
- Also spray walls, fence posts, gable bars, and trunks, into cracks and other places where insects can hide.
RIPTIDE®

Waterbased Pyrethrin ULV

- Kills flying insects
- Kills biting flies
- Kills mosquitoes that may transmit West Nile virus & Chikungunya virus
- Kills crawling insects
