PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear proper eye protection to reduce splash exposure. Avoid breathing vapor or spray mist. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS AND WITH APPLICABLE STATE REGULATIONS.

GENERAL INFORMATION

Super Spread™ MSO is a 100% modified vegetable oil/surfactant blend that aids in penetration of a pesticide spray through the waxy cuticle. Super Spread MSO is a multifunctional spray concentrate with wetting and penetrating properties.

Super Spread MSO may be used in place of nonionic surfactants or crop oil concentrates in liquid spray mixtures. When used as directed, Super Spread MSO maximizes the activity of certain pesticides; therefore, care must be taken when treating sensitive crops during periods when plants are subjected to drought stress, high temperatures and high humidity.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited.

STORAGE: Keep product in original container. Do not put concentrate or dilute into food or drink containers. For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC (800) 424-9300.

Avoid storage below 32°F, this product may become cloudy and thicker. Above 32°F, it returns to its normal clear fluid state.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Do not reuse container. Offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

FIRST AID

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

NET CONTENTS: 2.5 GALLONS

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

GENERAL INFORMATION

Super Spread™ MSO is a 100% modified vegetable oil/surfactant blend that aids in penetration of a pesticide spray through the waxy cuticle. Super Spread MSO is a multifunctional spray concentrate with wetting and penetrating properties.

Super Spread MSO may be used in place of nonionic surfactants or crop oil concentrates in liquid spray mixtures. When used as directed, Super Spread MSO maximizes the activity of certain pesticides; therefore, care must be taken when treating sensitive crops during periods when plants are subjected to drought stress, high temperatures and high humidity.

DIRECTIONS FOR USE

Rates of Super Spread MSO may vary with the conditions of application. Always add Super Spread MSO last to the spray mixture while providing good agitation.

Aquatics: (NOT FOR AQUATIC USE IN WASHINGTON STATE)
Super Spread MSO may be used as an additive with aquatically labeled pesticides. The use rates for Super Spread MSO should follow the recommended adjuvant rate that is specified on the pesticide product label. If there is no recommended adjuvant rate on the pesticide label, Super Spread MSO should be used at the rate of 1 to 2 pints per acre in 5-30 gallons of water. For volumes greater than 30 gallons of water, do not exceed a rate of 1% volume/volume.

For handgun or backpack applications, do not exceed a rate of 5% volume/volume.

Defoliants: Use 1/2-2 pints per acre of Super Spread MSO in combination with defoliants.

Herbicides: Use 1-4 pints of Super Spread MSO per acre. The addition of a nitrogen fertilizer such as 28%-32% N solution, ammonium sulfate or AMS replacement products, such as Bronc® Max may be required to improve control under extreme environmental conditions or to satisfy certain pesticide label requirements.
Insecticides: Use 1/2-2 pints per 100 gallons of spray mix or use ¼ to 1 pint per acre in concentrate sprays of 50 gallons or less.

For use with dormant oils and/or dormant sprays, use 1-2 quarts per 100 gallons of spray mix.

Fungicides: Use 1/2-2 pints per 100 gallons of spray mix or use ¼ to 1 pint per acre in concentrate sprays of 50 gallons or less.

Desiccants: Use 1-2 gallons per acre of Super Spread MSO with desiccants.

For pesticides/herbicides that permit use of an adjuvant at a higher rate, follow instructions on that pesticide/herbicide label. HOWEVER, DO NOT ADD THIS PRODUCT AT A RATE WHICH EXCEEDS 5% OF THE FINISHED SPRAY VOLUME. EXCEPT WHEN USED AS A DILUENT IN DORMANT, BASAL, SITE PREPARATION OR OTHER SIMILAR APPLICATIONS, PER LABEL INSTRUCTIONS.
