HOME PERIMETER TREATMENT
- 30 oz. treats 1,350 linear ft. as a 1 ft. band around the outside perimeter.
- Granules are carried directly into the mound by workers as food for the colony.
- Kills all species of ants.
- Dosage: 1 oz. per 400 sq. ft.; or up to 8 oz. around decks, bldg.; or up to 4 to 8 oz. around the mound.

Why This Product is So Effective:
1. This product’s highly attractive to many ant species, which makes it very effective.
2. Granules are carried directly into the mound by workers as food for the colony.
3. When the queen is dead, no new worker ants can be produced, so the mound dies.
4. Ants think AMDRO® is food. They carry it into the colony and share it with other ants and the queen. When the queen dies, no new worker ants can be produced, so the mound dies.
