24-0-18 with Fungicide VII

- Provides systemic prevention and control of turfgrass diseases including benzimidazole tolerant dollar spot
- Provides controlled release nitrogen feeding

KEEP OUT OF REACH OF CHILDREN
CAUTION
PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals: CAUTION. Avoid contact with skin, eyes, or clothing. If contact occurs, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. May be harmful if swallowed. Avoid inhalation. Do not contaminate food or feeds, the environment, or water supplies.

Environmental Hazards: Do not apply directly to water, to areas where surface water is present or to areas intended for use for mosquitoe control. Do not contaminate water by washing of equipment or disposal of wastes. Do not apply when weather conditions favor drift from treated area. Apply this product only as specified on the label.

FIRST AID

If inhaled: Get to fresh air and remove source of exposure. If breathing is difficult, give oxygen. If breathing stops, call a doctor immediately. Call a poison control center or a doctor for further advice.

If swallowed: Call a poison control center or doctor for treatment advice. If symptoms occur, see a doctor. Do not attempt to induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If skin is involved: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. Remove contact. If present, after the 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If eye involved: Hold open and rinse steadily and gently with water for 15-20 minutes. Remove contact lenses (if present). Continue rinsing. Call a poison control center or doctor for treatment advice.

If on clothing: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. Do not apply new clothing until skin is clean.

DIRECTIONS FOR USE

This is a foliar treatment to be used to control the product in a manner consistent with its labeling. Not for use on turf being grown for sale or for other commercial use as sod, for commercial seed production, or for research purposes.

For use on turfgrasses consisting of Kentucky Bluegrass, annual ryegrass, bentgrass, perennial ryegrass, fescue, tall fescue, bermudagrass or mixtures where these grasses predominate.

TO PREVENT DOLLAR SPOT, ANTHRAHOCNE AND RUST (Puccinia spp.), apply at least one dry application at the RECOMMENDED RATE when environmental conditions favor disease activity. Apply at 2-week intervals throughout the expected disease period.

TO CONTROL ACTIVE DOLLAR SPOT, ANTHRAHOCNE AND RUST (Puccinia spp.), apply at the DOUBLE RATE to control dry or green rust at a 3-week interval. When the disease activity is under control, apply at the RECOMMENDED RATE at 2-week intervals.

TO PREVENT BROWN PATCH, apply to 3-week intervals at the DOUBLE RATE when environmental conditions favor disease activity. Apply at 2-week intervals throughout the expected disease period.

TO CONTROL ACTIVE BROWN PATCH, use a non-ionic surfactant such as Anderson Golf Products Fungicide VII is not the amount of fertilization applied at the recommended rates of 14-17.

NOTE CAREFULLY:
- Avoid product contact, keep plants growing treated areas from contact with other crops.
- Short-term bed fertigation (less than 10") when temperatures are above 90°F, apply only to dry fields.

Storage and Disposal:
Do not contaminate water, food, or feed by storage or disposal.

STORAGE:
Store in a cool, dry place. Keep out of the reach of children. Apply to plant before they cease growing. Kingfisher Tall Fescue and Kentucky Bluegrass. Pesticides Disposal: Do not contaminate water, food, or feed by storage or disposal. Washes resulting from these or any other products may be disposed of by applying on a treated area, except weeds.

CONTAINER DISPOSAL: Nonrefillable container, do not reuse or refill this container. Offer for recycling if available. Disposal of empty bags is necessary by incineration, or by incineration by State or local authorities, by burning. It is recommended that all equipment be called at the time of application to achieve the desired application time.
