WHY YOU SHOULD USE THIS PRODUCT: This is a highly effective, multipurpose product that sanitizes, prevents algae and shock treats your pool. It is convenient, easy to use, and won’t overload your pool’s filter. For clear clean pool water, the makers of HTH® recommend the following 4-step pool care program:

1. **Test and balance water.**
2. **Sanitize.**
3. **Shock.**
4. **Add algacide as directed.**

Additional shocking to keep water clear and clear is recommended after rain and heavy winds, high number of swimmers, increased water temperature, and/or increased frequency of pool usage.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

HOW TO USE: Do not pre-mix this product before adding it to your pool. Only add this product directly to your pool or skimmer. Do not allow the chemical to come into contact with other materials.

Method for dosing directly into pool: Add the recommended dosage of this product during evening hours when the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granularity settles to the bottom of the pool, brush to disperse.

Method for skimmer addition: Make sure that the filter pump is on and properly recirculating through the skimmer. Empty skimmer of all chemicals and debris. Contamination may cause an explosion or the release of toxic gases. Do not use this method when an automatic chemical dispensing device is in operation.

Follow direction for each product and allow each product to disperse and disperse before adding additional products to the pool. Use a reliable test kit that measures all these ranges.

OPENING YOUR POOL: For best results, use the “WATER BALANCE” sections above before treatment. Adjust and maintain pH in the 7.2 to 7.6 range. Allow the pH to adjust to allow for proper chlorine levels to disinfect the pool. Do not shock the pool until all chlorine levels are within the proper range.

Follow label directions for each product and allow each product to disperse and disperse before adding additional products to the pool. Use a reliable test kit that measures all these ranges.

KEEP OUT OF REACH OF CHILDREN

A childproof cap is recommended for all HTH® products. Keep this product in its original container and out of the reach of children. In case of contact with eyes or skin, wash with water. Do not mix with other products or materials. Keep this product out of the reach of children.

FIRST AID: **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice. **IF INHALED:** Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor immediately for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
