Have the product container or label with you when calling a poison control center or doctor for treatment. You may also contact 1-800-858-7378 for emergency medical treatment advice.

ENVIRONMENTAL HAZARDS: This product may be hazardous to aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or residue.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WHAT IT IS: Moss & Algae Killer & SurfaceCleaner Ready-To-Use II is made from naturally occurring, biodegradable fatty acids. This water-based product is non-corrosive to metals, contains no zinc or iron, and is non-staining on most surfaces.

WHAT IT ELIMINATES: Moss & Algae Killer & SurfaceCleaner Ready-To-Use II effectively eliminates mosses, algae, lichens, liverworts and grime. Moss & Algae Killer & SurfaceCleaner Ready-To-Use II effectively eliminates mosses in lawns.

WHERE TO USE: Moss & Algae Killer & SurfaceCleaner Ready-To-Use II is ideal to use on rocks, decks, sidewalks, walkways, house greenhouses, growing containers and benches, structural surfaces, hardened bank of trees, lawns and turf. This container will treat up to 50 square feet depending on type of surface treated and degree of infestation.

HOW TO USE IT: SHAKWELL.

For Structural Applications: For best results, moisten area to be treated with fresh water before applying product. Spray area at a rate of approximately 1 gallon per 100 sq. ft. of overgrown surface. Avoid spraying when precipitation is expected. Spray affected area to wet thoroughly. Treated mosses, algae, lichens and liverworts discolor quickly and will dry and slough off naturally making physical removal unnecessary. Discoloration of treated mosses, algae, lichens and liverworts takes longer under cool conditions.

For Growing Containers and Hardened Bark of Trees: Spray affected area to wet thoroughly. Use on ornamental trees only. DO NOT APPLY to fruit trees, foliage or green bark of conifers or broad-leaf plants.

For Mosses in Lawns and Turf: For best results, moisten area to be treated with fresh water before applying product. Avoid spraying when precipitation is expected. Spray affected area thoroughly at the rate of approximately 1 gallon per 50 square feet. After 30 minutes, rinse sprayed areas lightly with clean water, then withhold water for two days. Do not treat turf when temperature exceeds 85°F. PERMISSIBLE MOSS GROWTH ON LAWNS is symptomatic of too much shade, acid soil and poor drainage. If several sprays do not reduce moss problem, it may be necessary to reduce shade, aerate and lim the soil.

NOTE: Treated areas may be temporarily slippery. Product may leave white residue on cement, brick or dark-colored shingles. This residue may be removed with vinegar.

STORAGE & DISPOSAL:
Storage: Store at room temperature, in original container only, out of reach of children and animals. Keep from freezing.

DISPOSAL: If Empty: Non-refillable container. Do not reuse or refill this container. Place in trash or other for recycling if available.

If Partially Filled: Call your local solid waste authority for disposal instructions. Never place unused product down any indoor or outdoor drain.
