For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees, and interior plantscapes.

**ACTIVE INGREDIENT:**
1-Chloro-3-(4-chlorophenoxy)-1H-pyrazolo[3,4-d]oxazine-7,8-dione

**OTHER INGREDIENTS:**
- 10% Insecticide

STORAGE AND DISPOSAL
- Do not contaminate water, food, or feed by storage or disposal.
- Do not apply directly to water or to areas where the water is present or to areas where surface water is present. Do not contaminate water when disposing of equipment wash water.

**NOTICE:**
When this document is printed at 100% actual size, the text is set in 6-point Helvetica Condensed.

**Agricultural Use Requirements**
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, rectification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

**Non-Agricultural Use Requirements**
The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR part 170). The WPS applies when this product is used to produce agricultural plants on farms, forestry, nurseries, or greenhouses.

**PRECAUTIONARY STATEMENTS**
- **Hazard to Humans and Domestic Animals**
- **Precautionary Statements**

**First Aid**
- **If swallowed:**
  - Call a poison control center or other healthcare professional immediately for treatment advice.
  - Take person to a clean, quiet place where the air is fresh.
  - Do not give anything by mouth to an unconscious person.
- **If on skin or clothing:**
  - Remove clothing immediately.
  - Wash skin with soap and water.
  - If you wear contact lenses, remove them before washing.
- **If in eyes:**
  - Wash eyes immediately with plenty of water for 15 to 20 minutes.
- **If inhaled:**
  - Remove person to fresh air.
  - If symptoms occur, see a physician immediately.

**Engineering controls statements:**
- If workers are exposed to chemicals, they should wear personal protective equipment (PPE) as specified in the WPS.

**User Safety Recommendations**
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Use appropriate personal protective equipment as specified in the WPS.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

**Resistant Management Recommendation**
Some insects are known to develop resistance to pesticides if treated repeatedly. As with any pesticide, the use of this product should conform to resistance management strategies established for the use area.

**Resistance Management Recommendations**
There are permethra, particularly where the water table is shallow, may result in groundwater contamination.

This product may be toxic to fish, particularly in static waters. Use of this product on potable water supplies is not recommended.

This product is highly toxic to aquatic invertebrates. Do not apply directly to water or to areas where the water is present. Do not contaminate water when disposing of equipment wash water.

This product may be toxic to bees. Use of this product near apiary sites or where bees are known to be present is not recommended. A minimum of 1/4 mile distance from apiary sites is recommended. If this product is applied during the pollination season, beekeepers should be consulted to ensure that bees are not exposed to drift or drift from drift from treated areas.

When following labeling instructions on how to wash equipment before re-use, it is recommended to use the additional of a detergent and to wash the equipment for at least 5 minutes.

When this product is applied on or near waterfowl feeding areas or wetlands, this product may be toxic to birds. Use of this product is not recommended near waterfowl feeding areas or wetlands.

When this product is applied on or near potable water supplies, this product may be toxic to fish. Use of this product is not recommended near potable water supplies.

When this product is applied on or near potable water supplies, this product may be toxic to fish. Use of this product is not recommended near potable water supplies.

When this product is applied on or near potable water supplies, this product may be toxic to fish. Use of this product is not recommended near potable water supplies.

When this product is applied on or near potable water supplies, this product may be toxic to fish. Use of this product is not recommended near potable water supplies.

When this product is applied on or near potable water supplies, this product may be toxic to fish. Use of this product is not recommended near potable water supplies.

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where water is present or to tidal areas below the mean high water mark. Do not contaminate water when disposing of broken containers.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treated area.

Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Non-refillable container. Do not reuse or refill this container. Completely empty container before it is offered for recycling, if available or dispose of container in a sanitary landfill by incineration or by disposal in or by any other means permitted under the provisions of local law.

Applicators and other handlers who handle this product for any use covered by the Worker Protection Standard (40 CFR part 170) - in general, agricultural plant uses e.g., in or on food or animal feeds, or on or in the immediate area of the food or animal feed.

Agricultural Use Requirements

- Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers in fields, forests, nurseries, and greenhouses, and handlers of agricultural chemicals. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval (REI). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

- Use this product only if the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated.

- Do not formulate this product into other end-use products. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

- For any application of Imidacloprid, 1-[(6-Chloro-3-pyridinyl)methyl]-N-nitro-1H-pyrazole-3-carboxamide, apply LESCO BANDIT 75 WSP Insecticide in sufficient water to provide adequate distribution in the treated area. The use of accurately calibrated equipment normally used for the application of Imidacloprid, 1-[(6-Chloro-3-pyridinyl)methyl]-N-nitro-1H-pyrazole-3-carboxamide, to control soil-inhabiting pests of turfgrass, American chafers, New Zealand chafers, and other soil-inhabiting insects is required. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to extend the effective drift. Follow calibration procedures to ensure that equipment is properly calibrated.

- Do not apply more than a total of 0.33 to 0.48 lb of active ingredient per acre per year.

- Use this product only in accordance with category A on an EPA chemical-resistance category selection chart.

- Do not apply this product in a way that will contact watercourses, ditches, irrigation systems, drainage ditches, or any other water, or cause it to enter surface or subsurface waters, or wetlands, or wetlands. Do not use in irrigation systems without water before application.

- Do not apply this product in a way that will contact watercourses, ditches, irrigation systems, drainage ditches, or any other water, or cause it to enter surface or subsurface waters, or wetlands, or wetlands. Do not use in irrigation systems without water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product in a way that will contact watercourses, ditches, irrigation systems, drainage ditches, or any other water, or cause it to enter surface or subsurface waters, or wetlands, or wetlands. Do not use in irrigation systems without water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not apply this product to soils, sediments, or topsoil on or near streams, rivers, lakes, ponds, other surface waters, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.

- Do not allow this product to enter surface or subsurface waters, or wetlands, or wetlands, unless the use of this product has been adequately demonstrated to effectively control the pest in question in the absence of water before application.
For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees, and interior plantscapes.

**ACTIVE INGREDIENT:**
Imidacloprid, 1-[(6-Chloro-3-pyridinyl)methyl]-N-nitro-4-imidazolidinone ........... 75%

**OTHER INGREDIENTS:**

Keep water soluble packets in this container and store in a cool dry place but not in freezing (32°F).

EPA Reg. No. 422-1308
EPA Est. No. indicated by the 3rd and 4th digits of the batch number on this package. (00)-065877-AR-02 (00)-33967-NJ-1

**STOP - Read the label before use.**

Keep out of reach of children.

**CAUTION**

**PARA EL USUARIO:** Si no se le diga las instrucciones, no use este producto hasta que hayan explicado completamente las instrucciones que figuran en la etiqueta.

(TO THE USER: If you cannot read or understand English, do not use this product until the label has been fully explained to you.)

For MEDICAL AND TRANSPORTATION Emergencies Only Call 1-800-334-7577

**PRODUCT USE**

**INFORMATION CENTER** 1-800-331-2861

**FIRST AID**

If swallowed
• Call a poison control center or other healthcare professional for treatment advice.
• Take person to a place of safe water if able to swallow.
• Do not induce vomiting unless advised to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If inhaled or inhaled smoke
• Take person to a place of safe water if able to swallow.
• Call a poison control center or doctor for treatment advice.
• Call a poison control center or doctor for treatment advice.
• Remove person to a place of safe water if able to swallow.
• Do not give anything by mouth to an unconscious person.

If in eyes
• Hold eye open with fingers and gently wash with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin
• Wash skin with soap and water or other suitable cleanser.

If on clothing
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

If on food or water
• Do not contaminate water, food, or feed by storage or disposal.

If in eyes
• Wash face, hands, and all other exposed skin with soap and water.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if swallowed, inhaled, or absorbed through skin. Causes eye irritation. Avoid contact with eyes, skin, or clothing. Avoid breathing dust or vapor. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Keep children or pets off treated areas until dry.

**Personal Protective Equipment (PPE)**

**PPE USE:**
• Application: Use appropriate personal protective equipment (PPE). Personal protective equipment (PPE) instructions for cleaning and maintaining personal protective equipment (PPE) are provided in the pesticide label. Follow manufacturer’s instructions for cleaning/maintaining personal protective equipment, PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**Non-PPE USE:**
• Application: and other handlers who handle this product for any use NOT covered by the Worker Protection Standard (40 CFR part 170) - in general, only agricultural handlers are covered by the WPS, must wear:
• Skirt and pants
• Gloves
• Shooes

**ENGINEERING CONTROLS:**

• When handling closed system spray equipment, use enclosure filters or exhaust fans. Use air or water sprays to wash away dust or droplets that may settle on surfaces or ground. Use an approved respirator that has been tested to keep the contaminant concentration at or below the PEL while performing maintenance.

**USER SAFETY RECOMMENDATIONS**

User should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Wash clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**UNAUTHORIZED HANDLERS**

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where water is present or to tributary areas below the mean high water mark. Do not contaminate water when disposing of rinsates. The use of this product in or near any fish-bearing water is prohibited. This product is highly toxic to aquatic invertebrates and may result in groundwater contamination. Do not contaminate water, food, or feed by storage or disposal.

**RESIDENCE MANAGEMENT RECOMMENDATIONS**

Some insects are known to develop resistance to pesticides. Apply pesticides as recommended by the USDA Natural Resource Conservation Service or other appropriate source. Do not use this product on ornamentals or any other non-target plants, as it may adversely affect the desired plant.

**AGRICULTURAL USE REQUIREMENTS**

This product is restricted use pesticide and may be used only by persons registered and certified by EPA to handle restricted use pesticides. This pesticide is approved for use under the Worker Protection Standard, 40 CFR part 170. Use this product only in accordance with its labeling. This Standard contains requirements for the protection of agricultural workers in fields, forests, nurseries, and greenhouse; and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the stationary use of personal protective equipment (PPE) and restricted-entry interval (REI). The requirements in this box apply only to use of this product that is covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

Note: When the product is used in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers in fields, forests, nurseries, and greenhouses; and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the stationary use of personal protective equipment (PPE) and restricted-entry interval (REI). The requirements in this box apply only to use of this product that is covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

**NON-AGRICULTURAL USE REQUIREMENTS**

This product is restricted use pesticide and may be used only by persons registered and certified by EPA to handle restricted use pesticides. Use this product in accordance with its labeling. This Standard contains requirements for the protection of agricultural workers in fields, forests, nurseries, and greenhouses; and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the stationary use of personal protective equipment (PPE) and restricted-entry interval (REI). The requirements in this box apply only to use of this product that is covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, feed, and food. Store in original container and out of reach of children. Do not use in combination with other pesticides or herbicides or other materials. Keep and wash PPE separately from other laundry.

**Resistance Management Recommendations**

Some insects are known to develop resistance to pesticides. Apply pesticides as recommended by the USDA Natural Resource Conservation Service or other appropriate source. Do not use this product on ornamentals or any other non-target plants, as it may adversely affect the desired plant.

**APPLICATION TO TURFGRASS**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly. Keep and wash PPE separately from other laundry.

**APPLICATION TO ORNAMENTALS**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO FORESTS**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO LANDSCAPES**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO GARDENS**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO RESIDENTIAL USES**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO COMMERCIAL USES**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO INDUSTRIAL USES**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO PUBLIC USE**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO AGRICULTURAL USES**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.

**APPLICATION TO FOREST USE**

Lesco Bandit 75 WSP Insecticide should be used in a manner that will protect turfgrass and ornamental plants from insect damage. Use equipment which will produce a uniform, coarse droplet spray, using a low pressure setting to eliminate off target drift. Check calibration periodically to ensure that equipment is operating properly.
For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees, and interior plantscapes.

**ACTIVE INGREDIENT:**
1.6 oz of (1-Chloro-3-quinolinylmethyl) -4-[(R)-2- (methyloxy) -aminomethyl]benzenecarbonitrile

**OTHER INGREDIENTS:**

Keep water soluble packets in this container and store in a cool dry place but not below freezing (32°F).

**Storage and Disposal:**
- Keep and wash PPE separately from other laundry.

**Emergency Response Telephone:**
1-800-334-7577

**Personal Protective Equipment (PPE):**
- Coveralls
- Chemical resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, polyvinylchloride (PVC) or similar
- Eye protection
- Respiratory protection
- Hair protection

**Container Disposal:**
- Non-flammable container. Do not reuse or refill the container. Completely empty before sending to a commercial recycler. If recycled, clearly mark "Commercial Recycle Only" or "Commercial Recycle Only - Inert Material - Do Not Discharge into the Environment".

**Application for Use in Turfgrass:**
Apply LESCO BANDIT™ 75 WSP Insecticide to turfgrass in sufficient volume to provide adequate distribution in the treated area. The use of a calibrated equipment is required for application of turfgrass insecticides in resistant crops. Use equipment that will produce a uniform, coarse droplet spray, using a low pressure setting that extends off the end of droplet. Check calibration periodically to ensure that equipment is functioning correctly.

**Application for Use in Ornamentals:**
Apply LESCO BANDIT™ 75 WSP Insecticide in sufficient volume to provide adequate distribution in the treated area. The use of a calibrated equipment is required for application of ornamental insecticides in resistant crops. Use equipment that will produce a uniform, coarse droplet spray, using a low pressure setting that extends off the end of droplet. Check calibration periodically to ensure that equipment is functioning correctly.

**Storage and Disposal:**
- Keep and wash PPE separately from other laundry.

**Emergency Response Telephone:**
1-800-334-7577

**Personal Protective Equipment (PPE):**
- Coveralls
- Chemical resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, polyvinylchloride (PVC) or similar
- Eye protection
- Respiratory protection
- Hair protection

**Container Disposal:**
- Non-flammable container. Do not reuse or refill the container. Completely empty before sending to a commercial recycler. If recycled, clearly mark "Commercial Recycle Only" or "Commercial Recycle Only - Inert Material - Do Not Discharge into the Environment".

### APPLICATIONS GUIDELINES

- Always use the higher rate of 1.6 ounces (1 packet) of LESCO BANDIT 75 WSP Insecticide per cumulative trunk diameter (12 inches to less than 60 inches) if the tree is intended to be treated. You may use the higher rate of 1.6 ounces (1 packet) of LESCO BANDIT 75 WSP Insecticide per cumulative trunk diameter (12 inches to less than 60 inches) if the tree is intended to be treated. You may use the higher rate of 1.6 ounces (1 packet) of LESCO BANDIT 75 WSP Insecticide per cumulative trunk diameter (12 inches to less than 60 inches) if the tree is intended to be treated.

**Restrictions:**

- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.

Lesco Bandit 75 WSP 1.6 oz 79389612D 110913AV3 leaflet 092512

Restriction:
Specials designed as foliar sprays as needed after pets fail to complete. For control of early apple aphid, apply prior to blooming caused by the pet. For first generation aphid control, make a final application on or after pet as needed. Follow label instructions for other insecticides when tank-mixing.

IMPORTANT: READ BEFORE USE
Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product.

Do not apply on soil or on plants that are to be harvested for food or forage.

Do not apply to plants covered with snow or frost. Apply when the soil temperature is at least 50°F and the relative humidity is less than 90%.

Do not apply to plants stressed by drought or wilting.

Do not apply this product to crops or field for which no tolerances for the active ingredient have been established.

IMPORTANT: READ BEFORE USE
Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product.

Do not apply this product to crops or field for which no tolerances for the active ingredient have been established.
