FIFRA 24(C) SPECIAL LOCAL NEED LABEL

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

MONCUT® 70DF FUNGICIDE

TO CONTROL RHIZOCTONIA SPP. IN TULIPS AND IRIS

EPA Reg. No. 71711-14  EPA SLN No. WA-040032

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

CROP AND DISEASE CONTROLLED

For in-furrow use of Moncut 70DF Fungicide on field grown flower bulbs (including but not limited to iris, lilies, tulips) to control *Rhizoctonia* spp. (including gray bulb rot).

USE RATE AND METHOD OF APPLICATION

Apply 1.63 to 6.53 lbs. of Moncut 70DF Fungicide per acre (reference chart) as an in-furrow spray by directing spray uniformly over the tops of planted bulbs in a 8-18 inch band prior to covering with soil (hilling). Apply in sufficient water, which may range from 100-150 gallons of spray volume per acre. Use highest rate when disease conditions are expected to be severe, or if field has a history of *Rhizoctonia* infestation.

FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS, WORKER PROTECTION STANDARD REQUIREMENTS, AND PRECAUTIONS ON THE EPA REGISTERED LABEL.

USE PRECAUTIONS/CONDITIONS/RESTRICTIONS

Do not use oil as carrier or add other additives to the finished spray.

Do not plant rotational crops other than peanuts, rice, or potatoes for 12 months following last application of Moncut 70DF Fungicide, with the following exceptions:
- Soybeans or wheat may be planted 30 days after the last application.
- Leafy vegetables (such as lettuce, spinach, or celery), or small grain crops other than wheat (such as barley, rye, or oats) may be planted 150 days after the last application.
- Corn (such as field, sweet, or popcorn), sorghum, or cotton may be planted 240 days following the last application.

For use under this SLN label do not apply this product through any type of irrigation system.

**WSDA Aquatic Advisory:** This pesticide is toxic to shrimp. Moncut 70DF Fungicide should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program website at [http://agr.wa.gov/PestFert/NatResources/EndangqSpecies.aspx](http://agr.wa.gov/PestFert/NatResources/EndangqSpecies.aspx), or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.

**WSDA Container Disposal Guidance:** Completely empty the contents of the pesticide container into application equipment, and apply to a labeled crop or site. The empty container may be disposed of in a sanitary landfill. Burning is not a legal method of container disposal in Washington.

This label for Moncut 70DF Fungicide expires and must not be distributed or used in accordance with this registration after December 31, 2014.
