NET CONTENTS 16 OZ (454 g)

Precor 2000® Plus kills adult fleas, hatching flea eggs, flea larvae, and ticks. PRECOR®, the unique ingredient in Precor® 2000 Plus, provides 210 days’ protection by preventing eggs from ever developing into biting fleas. For best results use Precor® 2000 Plus with Precor® on-animals products for complete control of fleas and ticks.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

FOR USE IN THE HOME/GARAGE/KENNEL

1. Identify treatment areas: especially those where pets frequent, such as in and around cat’s sleeping and resting areas. These are the primary areas where fleas, their eggs, and ticks are found. Before treatment, make a test application to upholes, crevices, dark-colored, delicate fabrics, or wood surfaces, in an inconspicuous place.

2. Prepare treatment areas: cover all food processing surfaces and utensils during treatment or thoroughly wash after product use. Cover or remove exposed food. Remove pets, and cover and empty aquariums before spraying. Remove motor vehicles before using in garages. For best results use Surface/Ceptor treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. This product may also be used for treated surfaces inside motor vehicles.

3. Apply treatment: For first/tick infestations, a single treatment 2000 square feet. Hold container upside down 2-3 feet from surface, point actuator towards the surface and push down. Using a sweeping motion, apply a uniform spray to all surfaces of furniture, rugs, carpets, draperies, and around all pet resting areas. Avoid thoroughly wetting surfaces. Mist treated areas only until "lightly damp." Do not over-treat. Repeat in 14 days if necessary. IMPORTANT: Only complete and proper application to carpets, upholstery, drapes, and other fabrics will provide thorough flea/tick elimination. Keep people and pets out of areas during treatment. Vacuum room after treatment, and ventilate until surfaces are dry before reoccupying.

4. For best results: eliminate fleas/ticks on pets with appropriate Precor® on-animals products. Such use is required. For use in: Hospitals, Hotels, Motels, Offices, Schools, Supermarkets, Transportation Equipment (Buses, Ships, Trains, Trucks), Warehouses, Utilities, Veterinary Clinics and Other Commercial and Industrial Buildings.

1. Prepare treatment areas: For best results with Surface/Ceptor treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. Test in an inconspicuous area before treating. Cover all food processing surfaces and utensils during treatment or thoroughly wash after product use. Cover or remove exposed food. Keep people and pets out of areas during treatment. Cover and empty aquariums before spraying. Vacuum room after treatment, and thoroughly ventilate until surfaces are dry before reoccupying.

2. Apply treatment: For first/tick infestations, a single treatment 2000 square feet. Hold container upside down 2-3 feet from surface, point actuator towards the surface and push down. Using a sweeping motion, apply a uniform spray to all surfaces of furniture, rugs, carpets, draperies, and around all pet resting areas. Avoid thoroughly wetting surfaces. Mist treated areas only until "lightly damp." Do not over-treat. Repeat in 14 days if necessary. IMPORTANT: Only complete and proper application to carpets, upholstery, drapes, and other fabrics will provide thorough flea/tick elimination.

STORAGE and DISPOSAL: Storage: Store in a cool, dry area. Do not transport or store below 32°F. Disposal: Do Not Burn or Incinerate. Fill empty container with precor® and discard. Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION: Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID:
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

In case of emergency, call 1-800-248-7763 or a poison control center. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN/VETERINARY: Certain petroleum distillates – volatiles may cause aspiration pneumonitis.

PHYSICAL ON CHEMICAL HAZARDS: Contains water pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause burning.

Sofer makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions. For information in case of emergency, call 1-800-248-7763.
