GARDEN DEFENSE Multi-Purpose Spray

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
SHAKE WELL BEFORE USING!
NOT FOR USE IN FOOD-HANDLING AREAS!

GENERAL INFORMATION
• Kills eggs, larvae and adult stages of insects.
• Prevents fungal attack of plant tissues.

Thorough plant coverage is essential to obtain optimal levels of control. Do not spray to wilted or otherwise stressed plants, or to newly transplanted material prior to root establishment. As with other pest control products, exercise care in timing applications to early morn-
ing/late evening to minimize the potential for leaf burn. Use with care on plants with tender tissue. Check for leaf burn in small-scale trials prior to use.

FUNGICIDE USE:
Application Instructions
Garden Defense is an effective fungicide for the prevention and control of various fungal diseases including BLACK SPOT on roses, POWDERY MILDEW, DOWNY MILDEW, ANTHRACNOSIS, RUST, LEAF SPOT, BOTRYTIS, NEEDLE RUST, SCAB, and flower, twig and TIP BLIGHT. Garden Defense may be used on all roses, flowers, houseplants, ornamental trees and shrubs, fruits, nuts, and vegetables grown in and around the home and home garden. As a preventative, apply Garden Defense on a 7- to 14-day schedule until the potential for disease development is no longer present. Spray to run off. Complete coverage of all plant tissue is necessary for control.

To control disease already present, apply Garden Defense on a 7-day schedule until disease pressure is eliminated. Then continue spraying on 14-day schedule to prevent the disease from recurring. Spray to run off. Complete coverage of all plant tissue is necessary for control. To prevent RUST LEAF SPOT diseases, ANTHRACNOSIS and SCAB, begin applications at the first sign of spring budding. To prevent POWDERY MILDEW, apply in mid-summer or when disease is first detected. Continue applications until disease pressure no longer exists. To prevent BLACK SPOT on roses, begin applications at first bud emergence in spring. Apply Garden Defense on a 14-day preventative schedule through the spring and fall to prevent disease emergence.

INSECTICIDE USE:
Application Instructions
Garden Defense is an effective insecticide for the control of various insect pests including WHITEFLIES, MEALY BUGS, ARMY WORMS, HORNWORMS, LEAFHOPPERS, BAGWORMS, LEAFMINERS, PSYLLIDS, FLY FLIES, LOOPERS, BUDWORMS, BEETLES (including Japanese beetles), APHIDS, SCALE, CATERPILLARS, MIGDES, BUDWORMS, and MITES (including spider mites). Garden Defense may be used on all roses, flowers, houseplants, ornamental trees and shrubs, fruits, nuts, and vegetables grown in and around the home and home garden.

Apply Garden Defense at first sign of insects/mites. Garden Defense is most effective in controlling insects/mites when applied on a 7-14 day schedule. For heavy insect populations, apply on a 7-day schedule. Spray to run off. Complete coverage of all plant tissue is necessary for control.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if inhaled. Avoid breathing spray mist. Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID
If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
Hot Line Number: 1-800-655-7878.

ENVIRONMENTAL HAZARDS
Do not apply directly to water. Do not contaminate water when disposing of equipment washwater or rinseate.

BEE HAZARD
This product is toxic to bees exposed to direct treatment. Do not apply this product while bees are actively visiting the treatment area.

STORAGE & DISPOSAL
Pesticide Storage: Keep in original container. Store away from direct sunlight, food, or foodstuffs. Keep container tightly sealed when not in use. Keep from freezing.
Pesticide and Container Disposal:
If empty: Do not reuse this container. Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
