INSECTICIDE/MITICIDE USE:
For use on FRUITS, NUTS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, TREES, and SHRUBS

APPLICATION INSTRUCTIONS:
Apply Garden Defense Concentrate at first sign of insects/mites. For control of aphids, spider mites, scale, whiteflies, beetles, leafrollers, and other insect pests. Garden Defense Concentrate is most effective when applied every 7- to 14-days. For heavy insect populations, spray on a 7-day schedule.

MIXING INSTRUCTIONS:
Mix Garden Defense Concentrate at the rate of 2 tablespoons (1 fl. oz.) per gallon of water. Thoroughly mix solution and spray all plant surfaces (including underside of leaves) until completely wet. Frequently mix solution as you spray.

WARRANTY:
Woodstream Corp. and its subsidiaries will not accept liability for damage or injury resulting from use not in accordance with label instruction. For information on this pesticide product including health concerns, medical emergencies, or pesticide incidents, call the National Pesticide Information Center at 1-800-858-7378.

FUNGICIDE USE:
For use on FRUITS, NUTS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, TREES, and SHRUBS

APPLICATION INSTRUCTIONS:
Garden Defense Concentrate is an effective fungicide for the prevention and control of various fungal diseases including powdery mildew, black spot, downy mildew, anthracnose, rust, leaf spot, botrytis, needle rust, scab and flower, twig and tip blight, and alternaria. As a preventative, apply Garden Defense Concentrate on a 7- to 14-day schedule until the potential for disease development is no longer present. To control disease already present, apply Garden Defense Concentrate on a 7-day schedule until disease pressure is eliminated. Then continue spraying on a 14-day schedule to prevent the disease from reoccurring. To prevent rust leaf spot diseases, anthracnose and scab, begin applications at the first sign of spring budding. To prevent powdery mildew, apply in midsummer or when disease is first detected. Continue applications until disease pressure no longer exists.

MIXING INSTRUCTIONS:
Mix Garden Defense Concentrate at the rate of 2 tablespoons (1 fl. oz.) per gallon of water. Thoroughly mix solution and spray all plant surfaces (including undersides of leaves) until completely wet. Frequently mix solution as you spray.
Concentrate®
GARDEN DEFENSE Multi-Purpose Spray Concentrate
SHAKE WELL BEFORE USING!

GENERAL INFORMATION

• Kills eggs, larvae, and adult insects.
• Prevents and controls black spot on roses, anthracnose, rust and powdery mildew.
• Stops powdery mildew in 24 hours.

As with all oil-based products, exercise care in timing applications to early morning/evening to minimize the potential for leaf burn. Do not apply to wilted or otherwise stressed plants, or to newly transplanted materials or crops prior to root establishment. Do not apply to known sensitive plant species, such as impatiens flowers, hebes flowers, hibiscus flowers, some rose flowers, ornamental olive trees, or some carnation varieties without prior testing.

For optimal performance, do not mix with cold water (less than 45°). Do not add adjuvants (sprays, sticks, extenders, etc.) in Garden Defense Concentrate. For best results, maintain constant agitation in spray equipment. Use spray solutions within several hours of preparation for maximum effectiveness. Do not store diluted solution for later use.
