Guaranteed Results!

Fast Acting Formula works 2 ways for powerful insect control.

Exclusive 2 Way Action
- Kills Insects Above Ground
- Kills Insects Below Ground

3 MONTH Soil Insect Protection

Coverage up to 5,000 Square Feet

Net Contents 32 Fl oz (946mL)

Bayer ADVANCED LAWN

Active Ingredients:
- Fipronil: 0.05%
- Cyfluthrin: 0.5%
- Total: 0.05%

Caution: Keep out of reach of children.

(Notes: Non-toxic to birds, bees, and other pollinators. Use as directed.)
Complete Insect Killer for Soil & Turf

Ready-to-Spray

Contains Bayer's exclusive 2-way formula for control of surface insects like ants, flies, and ticks plus sub-surface insects like grubs and European crane fly larvae in one easy step. Just attach to your hose and spray for long-lasting protection. Keeping your lawn free of nuisance pests has never been easier.

PRECAUTIONARY STATEMENTS (cont'd)

CAUTION

Hazard to Humans and Domestic Animals

• Harmful if swallowed or inhaled.
• Causes moderate eye irritation.
• Avoid contact with skin, eyes or clothing.
• Avoid breathing spray mist.
• Remove and wash contaminated clothing before reuse or reduce exposure.
• Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking.

FIRST AID

IN CASE OF ACCIDENTAL INGESTION IMMEDIATELY:

SWALLOWING

• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

CONTACT WITH EYES

• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
• Call a poison control center or doctor for treatment advice.

INHALATION

• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

NOTE: When calling poison control centers, has this product label available. Treating patient at an emergency room or doctor's office, bring this product label to show medical personnel. To report any problems to the EPA call toll-free 1-800-288-2555 for EPA's Poison Information Center.

More Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.

DIRECTIONS FOR USE

HOW TO ATTACH & SPRAY (cont'd)

1. Connect your garden hose to the bottle. Be sure the blue water control valve on top of the spray nozzle is in the OFF position. Turn on water at faucet.

2. To maximize the effectiveness of this product against your specific insect problems, two application settings have been developed. Be certain to choose the setting below which describes your use area (see below).

   FOR LAWNS & BUILDING FOUNDATIONS: Use the small star-shaped blue product-control button on the top of the control valve. This button, when pushed in, will turn the product control valve on/off. Twist the product control button so that the “C” on the product-control button is at the top of the control valve and the product control valve is aligned with the flat portion of the lock tab. Push the button in to open. Push the button out to close. Proceed to step #3.

   FOR ALL OTHER USES: Use the large star-shaped blue product-control button on the top of the control valve AND the product control valve is aligned with the flat portion of the lock tab. Push the button in to open. Push the button out to close. Proceed to step #3.

3. To begin spraying, point nozzle toward the area to be treated and turn the blue water control valve to the ON position. Tab will be horizontal.

   Spray leaves and tender new shoots. To kill insects that hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray, but not dripping.

4. To stop spraying, turn the blue water control valve on top of the spray nozzle to OFF. To close, push in the small round button opposite the star-shaped product-control button. Turn off faucet.

5. Relieve water pressure by turning blue water control valve to the ON position until water slows to a drip. Turn blue water control valve back to OFF. Disconnect garden hose from bottle.

KILLS (cont’d)

On Lawns & along Foundations:

- Annual Bluegrass
- Clover Mites
- Hyperodes Weevil
- Weevil (hyperodes wasi)
- Cockroaches
- Japanese Beetles
- Ants (including Carpenter Ants)
- Crickets
- Mole Crickets
- Armyworms
- Earwigs
- Mosquitoes
- Billbugs
- Earwigs

- Spittlebugs
- Thrips
- Weevils (including Red Weevils)
- Whiteflies

HOW THIS PRODUCT WORKS

This product is a totally different way to control the insects that want to destroy your prized lawn, roses, flowers, and other ornamental plants. The unique two-way blend of insecticides controls current insect pest problems and prevents reinfections for up to 90 days. The residual component is actually taken into the plant. Rain or water cannot wash off this internal protection! Insects are killed when they come into contact with the product or when they attempt to eat the plant.

FOR BEST RESULTS

- Rain or watering one hour after application will not wash away effectiveness.
- After spraying the lawn, wait 24 hours before mowing.
- To avoid serious damage to plants, eliminate pests early in the season before they multiply. For severe infestations, repeat every 7 to 14 days as needed.

NOTICE: Research and testing have determined that the 'Directions For Use' are appropriate for the proper use of this product under expected conditions. The Bayer assumes responsibility for lack of performance or safety if not used according to the directions.

IMPORTANT-Directions for Storage and Disposal

STORAGE CONDITIONS

Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing.

DISPOSAL

If Empty:
- Do not reuse this container.
- Place in trash or offer for recycling if available.
If Partially Filled:
- Call your local solid waste agency or 1-800 Cleanup for disposal instructions.
- Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS

- Do not apply directly to water.
- This product is highly toxic to aquatic invertebrates and fish.
- Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsates.
- This pesticide is highly toxic to bees. Do not apply this product when bees are present.
