NOTE: The degree of drift hazard varies with the type of pesticide, application conditions, and vegetation near the sprayed area. Remember, pesticide drift is no accident. Common sense and sound application technology must be followed when spraying pesticides. CHEM-TROL will retard, but not totally eliminate drift. NOT FOR AQUATIC USE.

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages and restrictions have precedence over DIRECTIONS FOR USE referred to on this label.
