PRODUCT USE:
This product contains Potassium Monopersulfate. This product increases pool and spa disinfectant efficiency, restores clarity to water and provides oxidation for ionizer systems. It is a treatment specifically for pool and spa water having organic contamination known as chloramines. Chloramines are the cause of strong chlorine odor, irritation of the eyes and the mucous membranes due to the acidic pH of the molecules. This product provides sufficient oxidation to assist with regeneration of existing disinfectant. The disinfectant will then become "free" or "available" which will then act to disinfect new organic matter upon its entry to the pool. This product will re-activate bromine and is the recommended oxidizing agent for pools and spas using bromine disinfecting systems.

DIRECTIONS FOR USE:
This product is not a sanitizer or an algaecide. For routine disinfection, use an EPA registered product according to its label directions.

Principal Functional Agent:
Potassium Persulfate

Percent Active Oxygen:...

Total:...

Constituents included as Spray Adjuvant:...

OTHER INGREDIENTS INCLUDE:
Lithium & Bromine Type Sanitizers

Highly effective in all pools using Chlorine, Chlorine-Free Oxidizer

Swim immediately after use

HELPS ELIMINATE ANNOYING CHLORINE ODOR

RENEW PREVIOUS CHLORINE DOSAGES

ODOR FREE

HELPS ELIMINATE ANNOYING CHLORINE ODOR

Treats dirty and discolored water

FIRST AID
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician. Flush skin with water.

If swallowed, DO NOT induce vomiting. Drink 1-2 glasses of water to dilute the stomach contents. Never give anything by mouth to an unconscious person. Call a physician. (Note to physician: Insert a gastric tube to prevent increased pressure that may result from rapid evolution of oxygen).

STORAGE AND DISPOSAL: Store this product in a cool, dry area away from direct sunlight and heat. In case of spill, flood areas with large quantities of water. Product that cannot be used should be diluted with water before disposal in a sanitary sewer. DO NOT REUSE EMPTY CONTAINER but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

100% Soluble • Oxidizes Chloramines-renews existing Chlorine/Bromine • Will not change pH • Will not bleach vinyl or paint • Treats dirty and discolored water

PRECAUTIONARY STATEMENTS
DANGER: Corrosive. Causes skin and eye damage. Wear goggles or face shield and rubber gloves when handling. May be fatal if swallowed. Irritating to nose and throat. Avoid inhalation of dust.

Strong oxidizing agent. Do not mix this product with any other chemical. Fire or explosion may result. Always add this product to water, never the reverse. Do not place this product in your skimmer basket, pump, brominator or chlorinator.

PELGRO: SI NO PUEDE LEER EN INGLES, PREGUNTE A SU SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.
