Aqua Balance® Muriatic Acid
For Swimming Pools

Principal Functioning Agent:
Hydrochloric Acid..............................31.45%
Constituents Ineffective as Spray Adjuvants......68.55%
Total..............................................100.00%
Proper pH control can prevent eye and mucous membrane irritation, save you money by using less chlorine, help to prevent disagreeable chlorine odors and increase life of pool filters and piping. Not responsible for accidents resulting from improper handling or transporting.

FOR INDUSTRIAL USE ONLY
KEEP OUT OF REACH OF CHILDREN
FOR POOL USE ONLY

DIRECTIONS FOR USE
This container is designed to be used with Ecolab dispensing equipment. Please follow disperser hook up instructions.
Do not mix different pool chemicals together. Test pH of pool at least once a day and before adding chlorine.
For Swimming Pools: pH should be maintained between 7.2 and 7.6. To lower pH, add acid to pool as indicated by a pH test kit. Add approximately one pint per 10,000 gallons of pool water. Keep swimmers out of pool until acid is thoroughly mixed in water, as indicated by a pH level between 7.2 and 7.6. For swimmers’ safety, test pH in area where acid was added to pool.
Do not pour or spill acid on walls or deck. Do not add acid into the skimmer. Too much acid will damage the masonry surfaces and metal fixtures. Do not mix acid with chlorine.
Consult your local Ecolab Specialist for specific use directions.

SPILLAGE OR LEAKAGE: Immediately flush with plenty of water. Follow with baking soda and sand. This will help absorb the spill or leak. Sweep up the used materials and place in a plastic bag for disposal.

STORAGE AND DISPOSAL: Store Muriatic Acid in a clean, dry place in the upright position. Keep out of reach of children, pets and other animals. Rinse empty container thoroughly before discarding.

PELIGRO: SI NO PUEDE LEER EN INGLES, PREGUNTE A SU SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.

DANGER: POISON, CORROSIVE. May be fatal if swallowed. Causes severe chemical burns. Avoid breathing vapor. Contains hydrochloric acid. Keep away from eyes and skin. Do not inhale or swallow. Do not mix with chlorine type bleaches or other household chemicals.
NOTE: WHENEVER HANDLING MURIATIC ACID, WEAR PROTECTIVE CLOTHING, GOGGLES, AND RUBBER GLOVES. REMOVE PROTECTIVE CLOTHING AND WASH BEFORE REUSE.

FIRST AID
If in Eyes: Immediately flush with plenty of cool running water. Remove contact lenses. Continue flushing for at least 15 minutes, holding eyelids apart to ensure rinsing of the entire eye. Call a physician immediately.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If Swallowed: Rinse mouth at once, then drink 1 or 2 large glasses of water. DO NOT induce vomiting. NEVER give anything by mouth to an unconscious person. Get immediate medical help.
If Inhaled: Immediately move to fresh air.
NOTE: Discard contaminated shoes.
