PRECAUTIONARY
STATEMENTS

HAZARDS TO HUMANS AND
DOMESTIC ANIMALS

DANGER!

Ingestion. Cause irreversible eye damage and may cause severe skin irritation. Product may be toxic if swallowed. Avoid contact with eyes or skin. Wash skin thoroughly with soap and water after handling and before eating or smoking. Avoid breathing vapor or mist. Wash hands after handling. Keep out of reach of children. DANGER.

ENVIRONMENTAL HAZARDS

This material is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into drains, ditches, ponds, streams, rivers, lakes or any other system without proper treatment. Do not use in or on fish bearing waters. In those states where treatment facilities are not available, discharge into bodies of water shall be conducted only by authorized personnel where the discharge is made into a sewer system or into a treatment facility approved by EPA. Do not use over water for cleaning of equipment or disposal of waste. Do not allow oozes and over generations during paint removal to enter water. Disposal of paint sludges in an approved landfill. Pour protective clothing and equipment at disposal in accordance with local/State regulations above when handling, painting or cleaning this paint.

PHYSICAL/CHEMICAL HAZARDS: FLAMMABLE

Keep container closed when not in use. Keep away from heat or open flame. Close container tightly after use. Do not use near heat or open flame.

WARNING

This labeling must be the possession of the user at all times of pesticide application. Write HEMPEL products directly on any equipment with the diesel fuel. Do not mix with fuel oil. Add HEMPEL products to diesel fuel before the fuel is used. Do not mix with other products, solvents or fuels. Do not mix with other products, solvents or fuels. If the paint is used other than directed herein we expressly disclaim any responsibility for its use. Handling, storage, use, storage, misuse or improper use or disposal of any of our waterborne coating, whether or not expressly authorized by us, may cause injury or damage to property or persons. Consult a qualified professional in connection with its use.

First Aid:

If swallowed: > Call a poison control center or doctor immediately for treatment advice. > Do not induce vomiting unless told to do so by a poison control center or doctor. > Do not give any liquid to the person. > Do not give any medicine to the person. > Do not give anything by mouth to a conscious person.

If in eyes: > Hold eye open and flush directly and gently with water for 15-20 minutes. > Remove contact lenses, if present.

If on skin: > Remove all contaminated clothing. > Wash skin immediately with plenty of water for 15-20 minutes. > Take off contaminated clothing. > Wash skin immediately with plenty of water for 15-20 minutes. > Take off contaminated clothing. > Take off contaminated clothing. > Take off contaminated clothing.

If inhaled: > Move person to fresh air. > If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. > Call a poison control center or doctor for further treatment information.

For personal protection:

Eye Protection: Goggles or face shield. > Protective clothing: Coveralls, aprons, rubber gloves, rubber boots, safety shoes.

HempeL ANTIFOULING GLOBIC 81950 red 51110

HempeL ANTIFOULING GLOBIC 81950 an advanced anti-fouling paint containing copper oxide and an organo-phenolic material for the prevention of bacterias, algae, coral, and other marine fouling organisms. Recommended for the underwater surfaces of steel, fiberglass and wood vessels exposed to all navigable waters where the fouling organisms are not visible. May be applied to aluminum hulls without proper primer. coating:

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION INSTRUCTIONS:

For application by brush, roller, or airless spray equipment. This product to be used on the underwater surfaces of steel, fiberglass and wood vessels exposed to all navigable waters. Anti-fouling paint is to be applied in many coats and it is recommended that four coats or more be applied to give proper performance. The final coat shall be applied with a brush or roller with care taken to give a uniform coating. Apply even pressure and never allow two coats to adhere to each other. Allow the vessel to dry to touch in 3 hours and 24 hours to recoat. Allowing the vessel to dry to recoat in 12 hours. Prohibited exposure to the atmosphere may affect the properties of this product.

STORAGE AND DISPOSAL:

Prohibited: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PRECAUTIONS TO AVOID: Do not contaminate water, food or feed by storage or disposal. Do not contaminate water, food or feed by storage or disposal. Do not contaminate water, food or feed by storage or disposal. Do not contaminate water, food or feed by storage or disposal. Do not contaminate water, food or feed by storage or disposal. FOR ADDITIONAL INFORMATION:**

IN CASE OF FIRE: Use dry chemical, carbon dioxide, or foam-type extinguishers. DO NOT USE water.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Contact: Causes irreversible eye damage and may cause serious skin irritation. Product may be fatal if swallowed, inhaled or absorbed through skin. Prolonged or frequent repeated skin contact may cause allergic reaction in some individuals. Exposure to vapors may cause dizziness, headache, nausea, drowsiness, disturbance of vision, and pulmonary irritation. Symptoms may be masked by coughing or sneezing. Ineffectiveness may cause severe eye irritation and may lead to blindness. Wash thoroughly with soap and water after handling and before eating or smoking. Wear a Tyvek hooded coverall or the equivalent, eyewear, and the Tyvek hooded coverall, respirator gloves, and respirator. Avoid breathing dust, fumes, or mist. Ventilate area when using product. Avoid inhalation of vapors. Ventilating area may be insufficient to prevent skin contact. Wash thoroughly with soap and water after handling and before eating or smoking.

ENVIRONMENTAL HAZARDS

The product contains a solvent (tetrachloroethylene) which is harmful to birds and aquatic organisms. The solvent should not be discharged effluent containing this product into lakes, streams, ponds, or other water bodies without prior permitting. EPA approvedخطرة البيئة

The EPA does not classify the solvent (tetrachloroethylene) as a harmful to birds and aquatic organisms. The solvent should not be discharged effluent containing this product into lakes, streams, ponds, or other water bodies without prior permitting. EPA approved.

RECOMMENDATIONS

- Do not inhale the product or vapors. Keep away from children. Store in a cool, dry place out of heat, sunlight and open flame. Check container limiter after use. Do not store near heat or open flame.

WARRANTY

The warranty shall be the sole and exclusive warranty extended to the end user of the product. However, the manufacturer shall not be liable for any personal injury or property damage resulting from the use of the product, unless the product is used for the intended purpose and in accordance with the instructions provided by the manufacturer. This warranty extends only to the original owner of the product and is not transferable. The manufacturer disclaims any and all other warranties, whether express or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. The manufacturer's liability for any product that is not used for its intended purpose is limited to the repair or replacement of the product, at the manufacturer's option. This warranty is in lieu of all other warranties, expressed or implied, and no other warranty, whether express or implied, is made by the manufacturer. The manufacturer shall not be liable for any incidental or consequential damages arising out of the use of the product, unless the product is used for the intended purpose and in accordance with the instructions provided by the manufacturer.

IF SWALLOWED: Call a poison control center or seek medical attention immediately. Do not induce vomiting. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present and easy to remove, before flushing eyes.

IF ON EYES: Take off all contaminated clothing. Rinse skin with plenty of water for 15-20 minutes.

IF ON SKIN: Wash skin with soap and water for 15-20 minutes.

IF INHALED: Remove person to fresh air. If person is not breathing, give artificial respiration. If necessary, seek medical attention. If possible, get a person control center or doctor for further instructions.

Keep product container or label with you when calling a poison control center or doctor. gorge for treatment.

NOTE TO PHYSICIAN: Probably no specific antidote exists. General supportive measures are indicated in usual manner.

NOTE: SEE SIDE PANEL FOR ADDITIONAL SAFETY INFORMATION.

[Additional safety information]

HEMPHEL'S ANTIFOULING GLOBIC 81950 is an advanced antifouling paint containing various active ingredients and an organic binder. For the prevention of barnacles, shrimps, mussels, and other marine-bottom fouling organisms. Recommended for the underwater surfaces of boats, bluegills and wood boats exposed to all marine environments where the existing paints are not acceptable. May be applied to aluminum/steel vessels painted with proper barrier coating.

DIRECTIONS FOR USE: Follow the instructions for the product to be used on the underwater surfaces of boats, bluegills and wood boats exposed to all marine environments. Antifouling paint is to be applied to the hull and all areas above the waterline to prevent the escape of maintenance of the hull and all areas above the waterline to prevent the escape. Sufficiently dry and apply to a clean, dry surface with a pressure above the waterline. Apply using a paintbrush, roller, or air Assisted/Conventional Air Sprayer to produce a brush-like appearance. If the surface is unusually rough or has a lot of rough areas, the application may require more than one coat. The application should be at a temperature of at least 20°C (68°F) and a relative humidity of less than 85%. Apply up to two coats at a temperature of at least 20°C (68°F) and a relative humidity of less than 85%. Apply up to two coats at a temperature of at least 20°C (68°F) and a relative humidity of less than 85%.

STORAGE: Store in a cool, dry place out of heat, light and open flame. Protect from freezing. Store in a cool, dry place out of heat, light and open flame. Protect from freezing. Store in a cool, dry place out of heat, light and open flame.

PRECAUTIONS: Do not come into contact with water, food, or clothing or spray into or on plants. Do not apply to the product directly. Do not use in the presence of any flammable material. Do not apply to boats that have not been washed for at least 24 hours. Do not apply to boats that have not been washed for at least 24 hours. Do not apply to boats that have not been washed for at least 24 hours.

MAY Be USE: For use in commercial, on dry surfaces, not for sale or use on stationary structures.
