calcium hypochlorite

• Kills bacteria and controls algae
• Destroys organic contaminants
• No Need to predissolve

ACTIVE INGREDIENT:
Calcium Hypochlorite .......................... 68%
OTHER INGREDIENTS: ....................... 32%
TOTAL: ......................................... 100%
Minimum Available Chlorine ............... 85%

KEEP OUT OF REACH OF CHILDREN

DANGER: Contamination or improper use may cause fire or explosion. Do not contaminate with any foreign matter, including other pool treatment products. Add only into water. Read all precautionary statements on back label and first aid statements before use.

Net Wt. 25 lbs. (11.3 kg)

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. Blant (artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. NOTE TO PHYSICIAN: Potentially irreversable damage may occur if indicated the use of gastric lavage. IN CASE OF EMERGENCY CALL: 1-800-654-9911.
WHY YOU SHOULD USE THIS PRODUCT: This is a highly effective, multi-purpose product that sanitizes, clarifies, helps prevent algae and shock treats your pool. It is convenient, easy to use, and won't overt-stabilize your pool. For crystal clean pool water, follow our 4 Step pool care program: Step 1: Test and adjust pool water balance, Step 2: Chlorinate and clarify, Step 3: Shock treat your pool at least once a week, and Step 4: Add algaecide regularly where needed.

Additional shocking to keep water clean and clear is recommended after: rain and heavy winds; high number of swimmers; increased water temperature; and/or increased frequency of pool usage.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

HOW TO USE: Add the recommended dosage of this product during evening hours while the filter is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. Use a clean, dry scooper to measure this product. DO NOT use the scooper for any other purpose. If any granules settle to the bottom of the pool use brush to disperse.

WATER BALANCE: For best product performance, swimmer comfort, and crystal clear water: Maintain pH in the range of 7.2 to 7.6. Maintain total alkalinity in the range of 60 to 120 parts per million (ppm). Maintain calcium hardness above 200 ppm. Use a reliable test kit that measures all these ranges. Use In The Pool Care Products to make adjustments. Follow label directions for each product. DO NOT enter pool until the free available chlorine residual is 1-4 ppm for each of the above noted water treatment applications.

OPENING YOUR POOL: For best results, see the Water Balance section above before treatment. Always adjust and maintain pH in the 7.2 to 7.6 range. Follow “SHOCK TREATMENT” directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual with a pool test kit. Repeat treatment as needed.

ROUTINE CHLORINATION: For best results, see Water Balance section above before treatment. Throughout the pool season, adjust and maintain pH at 7.2-7.6. Check available chlorine with a suitable test kit. Each 0.2-0.4 ounces of this product will provide approximately 1-4 ppm available chlorine in 500 gallons of water. Maintain these conditions for proper operation by frequent testing with a test kit. Follow “HOW TO USE” directions on this package.

FOR UNSTABILIZED POOLS: Add 6-8 ounces of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 1-4 ppm. Follow "HOW TO USE" directions on this package.

FOR POOLS STABILIZED USING IN THE SWIM STABILIZER AND CONDITIONER: Add 3-4 ounces per 10,000 gallons every other day or as often as needed to maintain the free available chlorine residual at 1-4 ppm. Follow "HOW TO USE" directions on this package.

SHOCK TREATMENT / SUPERCHLORINATION: For best results, see “WATER BALANCE” and “HOW TO USE” section above before treatment. Every 7 days, or as necessary to prevent pool problems, shock treat / superchlorinate the pool by adding 10-20 ounces of this product per 10,000 gallons of water to provide 5 to 10 ppm available chlorine.

Additional shock treatments may be required to correct problems which are caused by visible algae, high balancing loads, heavy wind and rainstorms. Additional shock treatments may also be required to correct problems such as unpleasant odors and eye irritation. Check the available chlorine with a suitable test kit.

ALGAE CONTROL: Follow "SHOCK TREATMENT" directions on this label. Add this product as close as possible to any algae on the sides or bottom of the pool. If necessary, repeat the treatment. To prevent possible staining or bleaching, take the following steps immediately after treatment: Thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. Shock treatment should control algae. However, if problems persist, use your preferred algaecide product regularly. Follow label directions on the algaecide.

WINTERIZING: For best results, see "WATER BALANCE" section above before treatment. Gradually add 30 ounces of this product per 10,000 gallons of pool water that is clear and clean. This provides 15 ppm free available chlorine. Follow "HOW TO USE" directions on this package. Run the filter until granules are completely dissolved. Cover the pool with a pool cover. Prepare the heater, pump and filter components for winterizing by following manufacturer's directions.

TO DETERMINE YOUR POOL CAPACITY IN U.S. gallons, use the appropriate formula below: (Use measurements in feet only)

Rectangular: Length x Width x Average Depth x 7.5 = Total Gallons.
Round: Diameter x Diameter x Average Depth x 5.9 = Total Gallons.
Oval: Maximum Length x Maximum Width x Average Depth x 5.9 = Total Gallons.
Freeform: Surface Area (in Sq. Feet) x Average Depth x 7.5 = Total Gallons.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. DO NOT reuse empty container. Rinse empty container thoroughly with water to dissolve all material and discard container in trash. For disposal of a contaminated or decomposing product, see EMERGENCY HANDLING.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS - DANGER - HIGHLY CORROSIVE. Causes skin and eye damage. May be fatal if swallowed. DO NOT get in eyes, on skin or on clothing. DO NOT handle with bare hands. Wear goggles or face shield and use rubber gloves when handling. Only use utensils that are thoroughly clean and dry. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing separately before reuse.

CHEMICAL HAZARDS: DANGER - STRONG OXIDIZING AGENT. Add only into water. Use only clean dry utensils to disperse this product. DO NOT use this product in a container or dispensing device that has been used with any other product. KEEP ALL FOREIGN MATTER, INCLUDING OTHER POOL TREATMENT PRODUCTS, AWAY FROM THIS PRODUCT. DO NOT ALLOW TO BECOME WET OR DAMP BEFORE USE. CONTAMINATION MAY START A CHEMICAL REACTION THAT CAN GIVE OFF HEAT AND HAZARDOUS GASES AND MAY CAUSE A FIRE OR EXPLOSION. DO NOT touch this chemical with a flame or burning material like a lighted cigarette.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

EMERGENCY HANDLING: In case of contamination or decomposition:
• Do not reseal container.
• Immediately remove container to an open and well-ventilated outdoor area by itself.
• Flood with large amounts of water.
• Dispose of the container and any remaining contaminated material in an approved landfill area.
