PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

DANGER
PELIGRO

Contra-indications. Causes irreversible eye damage. May be fatal if swallowed. Harmful absorbed through skin. Harmful inhaled. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
All drivers, loaders, applicators, and other handlers must wear:
- Protective eyewear (goggles, face shields, safety glasses)
- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical resistant gloves, except for bag advisors, seed planters, truck drivers, and sorters.
- Chemical resistant apron when mixing/loading, cleaning up spills, cleaning equipment, or otherwise exposed to product

Some materials that are chemical-resistant to this product are butyl rubber, nitrile rubber, neoprene rubber, PVC, or similar materials. If only one PPE is recommended, follow the instructions for Category C on an EPA chemical-resistance advisory selection chart.

USER SAFETY REQUIREMENTS
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washable exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, vaping, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
- The chemical is toxic to fish. Do not apply directly to water to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff from the treated area may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when cleaning equipment or disposing of equipment/waste or waste water. Apply this product only as specified on the label.
- Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permit authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL
- Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE
Store in a cool, dry place.

PESTICIDE DISPOSAL
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray runoff, or mist runoff is a violation of Federal law. These wastes cannot be disposed of by use according to label instructions, contact your State Pest Control or Environmental Conservation Agency or the hazardous waste representative at the nearest Regional Office for guidance.

CONTAINER DISPOSAL
Non-refillable container. Do not reuse or refill the container. Triple rinse container promptly after emptying. Triple rinse as follows:
[For containers ≤ 5 gallons in size]: Empty the remaining contents into application equipment or a mix tank and direct for 10 seconds after the flow begins to stop. Fill the container 1/4 full with water and recirculate for 10 seconds. Pour rinsates into application equipment or a mix tank or store rinsates for later use or disposal. Clean for 10 seconds after the flow begins to stop. Repeat this procedure two more times.
[For containers > 5 gallons in size]: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. To container on its side and call 1-800-659-7598. For chemical emergency assistance (spill, leak, fire, or accident), call Chem Trac at 1-800-443-4400. Have the product container or label with you when calling a poison control center or doctor or for going for treatment.

NOTICE TO PHYSICIAN
Probable mucous damage may contaminate the use of gastric lavage.

JANSSEN PMP
PRESERVATION AND MINERALIZATION
A division of Janssen Pharmaceutica NV
1125 Trenton-Harbourton Road
Tritonville, NJ 08560-200, U.S.A.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:
Do not apply this product in a way that will contact workers or other persons. Only protected handlers may be in the area during application.

Application Restrictions for Citrus Drench:
Do not enter or allow others to enter the treatment area until the citrus is treated and completely dried.

The windows and doors of the transport vehicle must be closed prior to and during treatment.

Citrus Fruits: Intended for post-harvest treatment of Penicillium digitatum (green mold), Penicillium italicum (blue mold), Diaporthe citri (phomopsis stem and root), Diplodia natalensis (diplopia root) and Alternaria citri on citrus fruits.

Use as directed. Fungaflor® 500 EC has curative and preventative action as well as antiparasite properties.

DOSE RECOMMENDATIONS:
In dunks, wash tanks, and drenchers: Apply Fungaflor® 500 EC at rates of 12.8-19.2 fl. oz. per 100 gallons water (500-750 ppm active ingredient). The treatment solutions should be inspected periodically to insure the proper concentration of active ingredient. Length of dip time should not exceed two minutes.

In non-recovery spray: Apply Fungaflor® 500 EC at 25.5 fl. oz. per 100 gal water (1000 ppm a.i.). Apply to freshly-cleaned citrus immediately prior to waxing.

For water spray brush application: After washing, apply Fungaflor® 500 EC at 25.5 fl. oz. per 100 gal water (1000 ppm a.i.). Apply prior to storage wax application. In citrus wax: Apply 51.1 fl. oz. of Fungaflor® 500 EC to 100 gal of citrus wax (2000 ppm a.i.). Use without further dilution in conventional waxing equipment.

Remark 1: In citrus, cool soaking control can be obtained, at the rate of 12.2 fl. oz. Fungaflor® 500 EC per 100 gallons citrus wax or diluted "ready to use" detergent material (4000 ppm a.i.). When this dilution is used, combinations of treatments are not allowed.

Remark 2: AFTER DILUTION OF Fungaflor® 500 EC IN WAX, STRIR THROUGHFULLY FOR AT LEAST 15 MINUTES WITH A MIXING DEVICE AT 1500 RPM.

NOTE OF WARRANTY
Janssen PMP, a Division of Janssen Pharmaceutica NV warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherent associated with the use of this product. Crop injury, ineffectiveness or other unlinked consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Janssen PMP. To the extent permitted by law, Janssen PMP disclaims any liability for consequential, incidental or indirect damages resulting from the use or handling of this product. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, JANSSN PMP MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.
