KOP-COAT BAZOOKA™

Sapstain and Mold Control Product

U.S. Patent Number 6,375,727 and 7,056,919 additional Patents Pending

Aids in the control of blue stain, mold and decay of freshly cut lumber, dry lumber and other wood based products when properly used. Effective on softwoods including Douglas fir, White fir, Spruce, Hemlock, the Pines including both the Southern and Western Yellow Pines, Eastern and Western White Pines and many of the hardwoods.

KEEP OUT OF REACH OF CHILDREN

DANGER - PELIGRO

See side panel for additional precautionary statements.

ACTIVE INGREDIENTS
- Disodium methyl para-Toly sulfone 0.95%
- Propiconazole 3.50%
- 3-bromo-2-fluorophenyl
- Butyl Carbamate 3.50%
- OTHER INGREDIENTS 82.05%

TOTAL 100.00%

FIRST AID
- IN EYES: Host eye open and rinse slowly and gently with water for 15-20 minutes.
- IN SKIN OR CLOTHING: Rinse skin immediately with plenty of water for 15-20 minutes.
- INHALED: Move person to fresh air.
- IN MOUTH: Call a poison control center or doctor for treatment advice.
- IF SWALLOWED: Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Possible mucosal damage may contaminate the use of gastric lavage.

PREFERENCES STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
- DANGER
- CORROSIVE: Causes immediate Eye Damage and Skin Burns. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid breathing vapors or spray mist. Wear protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
- Applications and other handlers must wear:
  1. Cotton or long-sleeved shirt and long pants
  2. Chemical-resistant footwear plus socks
  3. Goggles or face shield
  4. Chemical-resistant gloves (such as cotton terrycloth, nitro rubber, neoprene rubber and vinyl)
  5. Respirator with an organic vapor respirator cartridge with a filter approved for pesticides (MSHA/NIOSH approval no. TD-145) or a NIOSH approved respirator with an organic vapor (OVR) cartridge or canister with any R, P or AP rating.
- Follow manufacturers' instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product contaminated. Do not use waste. Keep and wash PPE separately from other laundry.

HYGIENICAL CONDITIONS
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Wash thoroughly and put on clean clothing.
- Remove personal protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly.

ENVIRONMENTAL HAZARDS
- This pesticide is toxic to fish. Do not apply directly to any body of water or to areas where surface water is present or to inertial areas below the mean high water mark. Do not contain water when disposing of equipment washwaters or rinsates. Do not discharge effluent containing this product to lakes, streams, ponds, reservoirs, or other water sources. In accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been added to the rinsing prior to discharge. Do not dispose of this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

WARRANTY: We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will regularly pass in the trade for goods within the description, and further warrant such goods to be fit for the normal purposes which goods are used. We assume no responsibility that the goods concerned in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:
FOR INDUSTRIAL USE ONLY
DILUTE BEFORE USING
Do not apply this product in a way that will contact workers or other persons.

Wear synthetic rubber gloves or plastic coated gloves in handling solutions and freshly treated lumber.

Treated sawdust and other wood shavings should be disposed of properly and should not be used as mulch where it will come into contact with useful living plants. Care should be taken to prevent drip or spray from contacting ornamental shrubs, trees, grass, and other desirable vegetation.

GENERAL INFORMATION:
- Freshly dipped or sprayed lumber should be protected from rain-washing. Dip tanks and dip aprons must be leached, washed, and drained to prevent dilution and loss of the antifungal solution. Treatment concentrations must be geared to achieve protection of the thickest or most valuable item being treated. The concentration of the ready-to-use solution must be adjusted to accommodate seasonal changes in the exposure, species being treated, Dip tanks, and spray equipment must be properly maintained.

MIXING INSTRUCTIONS:
For high-pressure spray applications: Thoroughly mix one gallon of BAZOOKA™ Sapstain and Mold Control Product per 20 to 90 gallons of water. For dip applications: Thoroughly mix one gallon of BAZOOKA™ Sapstain and Mold Control Product per 20 to 90 gallons of water. In all cases, dilution levels will depend upon application methods, lumber species, and conditions of lumber storage. Mills should conduct tests to determine treatment requirements for their individual needs. Contact Kop-Coat for further information. When using proportioning pumps for mixing this product should be maintained at temperatures above 50°F to prevent inaccurate mixing due to viscosity changes. Minor proportioning ratio changes can be affected by changing the setting on the pump.

Note: With normal dip or spray application long-term control of decay cannot be achieved. This product is intended to provide decay, mold, and blue stain control during storage. Such control would not likely extend to the use site.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixtures, or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triplet rissa (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PHYSICAL OR CHEMICAL HAZARDS:
COMBUSTIBLE. DO NOT USE, pour, spill, or store near heat or open flame.

IN CASE OF FIRE: Use dry chemicals, foam, water fog, or CO2. Cool closed containers with water.
